## FRONT-END DEVELOPER

React | Next.js | TypeScript | Node.js

I am **Frontend** with strong **UI/UX** knowledge, with 4 years of international experience working remotely for a multicultural company based in Hong Kong, developing platforms, institutional applications, and high-performance digital products with great user experience. Comfortable working in multicultural remote teams using Agile methodologies and contributing with clean architecture, performance optimization and product-focused development. I also have experience in **Backend** projects with NestJS, Prisma ORM and Postgres database with REST API.

---

## TECHNICAL SKILLS

**Frontend** | React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind, Styled Components, Radix, Storybook

**Backend** | Node.js, NestJS, Prisma ORM, REST APIs

**Cloud & DevOps** | Docker, Google Cloud Platform, Git, CI/CD, GitHub Actions

**Web3** | WAGMI, Alchemy, RainbowKit

**Databases** | PostgreSQL

**Concepts** | Responsive Design, Web Performance, SEO, Accessibility, Agile/Scrum, TDD

---

## PROFESSIONAL EXPERIENCE

### KLKTN / SanFran Tokyo — Hong Kong (Remote)

#### Frontend / Fullstack Developer | May 2021 — Feb 2025

- Developed Web3 platforms and digital products using React, Next.js and TypeScript for NFT ecosystems focused on K-POP, anime and manga communities.

Key Contributions:

- Development of scalable frontend architectures for Web3 applications
- Integration with blockchain APIs and smart contracts (WAGMI, Alchemy)
- Backend services development using Node.js, NestJS and Prisma
- Implementation of responsive interfaces with focus on performance and usability
- Participation in code reviews and collaboration in multicultural agile teams
