# WIRELESS EMDR KIT

Discover the freedom and comfort of the EMDR Kit Wireless, our most advanced EMDR equipment which can be adjusted in height. This device offers a wide range of options for bilateral stimulation and working memory taxation, all wirelessly controlled through the user-friendly EMDR Kit app on your smartphone or tablet. Not only does the EMDR Kit Wireless make your sessions more comfortable, but it also provides advanced functionalities for a more effective therapy.

- WIRELESS
- CONTROLLABLE WITH APP
- ADJUSTABLE IN HEIGHT
- EXTENSIVE FUNCTIONALITIES
- EASY TO TRANSPORT

# WIRELESS EMDR KIT

## LIGHT TUBE

The Light Tube is a versatile tool that can be used wirelessly. With adjustable speed, color, brightness, and mode, it can be easily customized to meet your clients' needs. The Light Tube sits on a sturdy tripod, which allows for height and angle adjustments to fit various setups. Additionally, the Chaos mode provides an extra level of working memory taxation during therapy sessions.

## HEADPHONES

The wireless Headphones allow you to apply auditory stimuli. You can do this, for example, when the client has difficulty following the light of the Light Tube or when extra stimulation is needed. The volume can be adjusted with the app and you can choose between different sounds. It is also possible to use your own sound or music!

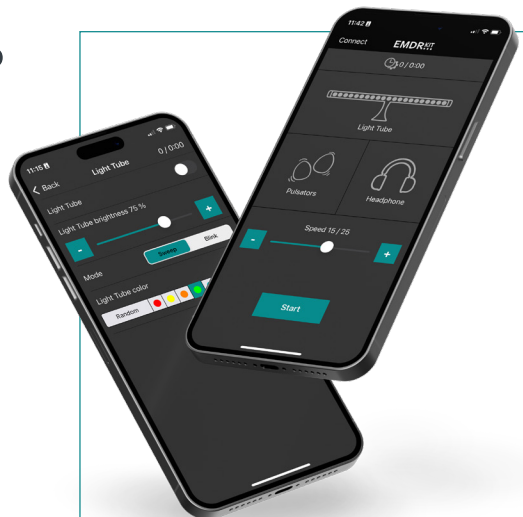

## PULSATORS

Apply a tactile stimulus with the wireless Pulsators. You can use the Pulsators at the same time as the Light Tube and Headphones, but you can also choose to use them separately. The intensity and speed are easy to adjust via the app. Optionally, the lights on the Pulsators can also flash along with the rhythm.

## EMDR KIT APP

Each part of the EMDR Kit Wireless is controllable with the EMDR Kit app that you can download on your smartphone or tablet (iOS or Android).

# CLASSIC EMDR KIT

Take your EMDR therapy sessions to the next level with the EMDR Kit Classic, the perfect choice for therapists seeking a wired EMDR Kit that combines functionality and ease of use. With the Light Tube, Pulsators, and Headphone, you can easily adjust color, speed, intensity, and volume to create an ideal bilateral stimulation for your clients. Plus, the Light Tube's height and angle adjustability make it an excellent choice for different treatment setups.

- WIRED
- CONTROLLABLE WITH CONTROLLER
- ADJUSTABLE IN HEIGHT
- ALL ESSENTIAL FUNCTIONALITIES
- EASY TO TRANSPORT

# CLASSIC EMDR KIT

## LIGHT TUBE

The Light Tube can be used for a visual stimulus. You can change the speed, color, brightness and mode of the Light Tube based on the need of your client. The Light Tube of the EMDR Kit Classic is adjustable in height and angle with the tripod.

## HEADPHONES

The Headphones allow you to apply auditory stimuli. You can use this, for example, when more stimulation seems to be needed or when the client has difficulty following the light on the Light Tube. Next to a regular sound interval, you can choose for a random sound interval and also change the pitch of the sound.

# PULSATORS

The Pulsators can be used for a tactile stimulus. You can use the Pulsators together with the Light Tube and Headphones, but also separately. Easily change settings such as the intensity and speed of the Pulsators with the wired controller.

# CONTROLLER

Each part of the EMDR Kit Classic can be controlled with the wired controller. Connect the modalities that you want to use and you are ready to go! The settings are easy to change with the buttons on the controller, also during use. The controller has a battery inside which can be recharged with a charger.

# OUR VISION

At EMDR Kit, we strive to make EMDR therapy more effective and enjoyable for everyone. We've designed our EMDR equipment to incorporate the latest research and user feedback, providing EMDR therapists with a range of customizable options. Whether you are looking to provide regular bilateral stimulation or want to challenge your clients working memory, the EMDR Kit has you covered. Our flexible components can be used together or separately, allowing therapists to tailor their approach to each client's unique needs and preferences. With the EMDR Kit, you can be sure you're providing a more personalized and impactful therapy experience.

## **WORKING MEMORY TAXATION**

The EMDR Kit has numerous options for working memory taxation. With the ability to adjust the color of the light to a variety of different shades, including a randomized color option, therapists can challenge clients to verbally identify each color change, increasing the task difficulty. For even greater challenge, the EMDR Kit Wireless features a unique "Chaos Mode" that causes the light dot to move unpredictably, making it more difficult to track. This feature is ideal for therapists seeking to incorporate new insights from EMDR 2.0 into their practice, ensuring they stay at the forefront of the latest EMDR techniques.

## **BILATERAL STIMULATION**

The EMDR Kit offers therapists a wide range of options for bilateral stimulation, including both tactile and auditory options. In addition to the Light Tube, therapists can choose to use the kit's Pulsators or Headphones to provide clients with the type of stimulation that will help them feel more grounded and relaxed.

Enhance your practice and offer your clients the best possible care with the EMDR Kit. Get yours today!

# ABOUT EMDR KIT

In 2013, the psychologists at the psychology practice, Psy-zo!, faced a challenge. They needed EMDR equipment but could not find anything that met their high standards for both quality and functionality. Determined to find a solution, they decided to design and create their own product. After extensive research and hard work, the EMDR Kit was created and quickly became a reality.

The need for high-quality EMDR equipment was also evident worldwide. It did not take long for the EMDR Kit to spread across the world, and currently, it is used in over 60 countries.

Our goal is to continually improve the EMDR Kit and stay up-to-date with recent scientific research regarding EMDR.

In addition to working closely with psychologists at Psy-zo!, we have a large international network of EMDR therapists and trainers. This allows us to easily respond to the needs of the field.

In addition to providing the best EMDR equipment, we also want to offer excellent service. That's why you get a 2-year warranty on your EMDR Kit and always a quick response to questions!

“I am extremely impressed with its quality and versatility of the EMDR kit. The wireless capabilities and Chaos Mode feature have added a new level of innovation to my practice.”

- F. Davis (UK)

“The quality of the equipment is top-notch and the 2-year warranty gives me peace of mind. Highly recommend this kit to all EMDR therapists!”

- B. E. Brown (USA)

“The EMDR Kit is pretty awesome and your clients will love it! I’ve been using this Kit for a couple of months now and it has been a great experience.”

- H. Georgieff (USA)

 4,9 Excellent  Trustpilot
