HOME Skincare

Kako bi učinkovitost svakog kozmetičkog tretmana bila 100%-tna, tretman zahtijeva pravilnu i redovitu kućnu njegu.

Pod kućnom njegom podrazumijeva se upotreba određenih preparata koji odgovaraju tipu i stanju kože na točno propisani način da bi se poboljšao i održao rezultat kozmetičkih tretmana.

Svaka koža je jedinstvena, tako joj treba i pristupiti.

REVIDERM

mineralni make up

Najskuplji nakit koji žena može posjedovati je njena koža!

Skin Jewels make up

make up potpuno je nježan prema koži, mogu ga koristiti i osobe sa problematičnom i osjetljivijom kožom te se može nanositi i nakon tretmana lica.

Kombinacija ultra finih mikro čestica minerala i vrijednih sastojaka te uvažavanje individualne teksture svake kože rezultirali su linijom koja je „skin friendly“ ali ujedno daje i profesionalne rezultate prekrivanja.

Visokovrijedni sastojci jačaju otpornost stanica kože, ublažavaju iritacije i smanjuju vidljivost bora na licu te stvaraju besprijekoran ten:

- Magnezij sulfat smanjuje upalu i kožu čini baršunasto glatkom
- Kaolin regulira proizvodnju sebuma i matira ten
- Cinkov oksid regenerira i štiti kožu
- Kalij sorbat daje vašim stanicama kisik i energiju te smanjuje crvenilo
- Dijamantna prašina mineralni sastojak, reflektira svjetlost koja blista na vašoj koži, pročišćava pore i vidljivo smanjuje linije i bore
