

# Flexi-Slip™ Stylet

RÜSCH

*Latex-Free*

## ET Tube Guide

The Rüschi Flexi-Slip™ endotracheal tube stylet has a low friction coating to facilitate smooth withdrawal. It is designed with a soft distal tip to reduce the risk of trauma. Excellent malleability allows easy shaping and forming. Also available in a set, pre-loaded inside an endotracheal tube to save time and storage space.

### Flexi-Slip™

- ✦ Soft distal tip reduces risk of trauma
