

## GREEN RUSCH LITE™ LARYNGOSCOPE FIBER OPTIC BLADE

### SINGLE USE DISPOSABLE METAL LARYNGOSCOPE BLADE

The Green Rusch Lite™ is a single use disposable metal laryngoscope blade. Created with a unique design, giving the user the performance and feel of a reusable metal blade. Ideal for crash carts, emergency situations and every day O.R. intubations where there is a risk of cross contamination. The Green Rusch Lite™ blade ensures an excellent light transmission and visualization without any dazzle effect. Available in a full range of sizes and fits onto all Green system handles conforming to ISO 7376-3.
