

Acuity 14x17 Wireless DR

X-Ray Panel

Wireless, cassette-sized x-ray detector panel

The Acuity 14x17 Wireless DR Panel is the perfect, cost-effective solution for facilities seeking to upgrade their existing x-ray imaging suite. The unit features directly deposited CsI that provides clear images using low radiation dispersion compared to conventional CsI and GOS scintillators.

FEATURES

- › Wireless, cassette-sized x-ray detector panel.
- › Designed for multi-purpose clinical applications.
- › Compact design promotes portability and usability.
- › Easily transforms conventional x-ray rooms into a modern digital radiology suite.
- › Lightweight design fits easily into traditional cassette holders, integrating with almost any existing equipment.
- › Highly reliable and stable operation.
- › High-definition direct deposition CsI technology.
- › Fast image acquisition time in less than 3 seconds.
- › Wireless interface with wifi image transfer available.
- › Multi-channel room sharing interface.
- › LED display indicates battery level.
- › Lossless AED (Automatic Exposure Detection) support.
- › Comes standard with slim dual battery charger that allows batteries to be simultaneously charging.
- › Includes 3-year hardware warranty.

SPECIFICATIONS

Weight:
6.5 lbs

Effective Imaging Area (HxV):
14 x 17"

Input Voltage:
DC 12V, 5A

Detector Type:
Direct deposition
CsI or Gadox

Pixel Pitch:
140 µm

Resolution:
2560 x 3072

A/D Conversion:
14 bit

Communication:
Giga Ethernet / IEEE
802.11n (5 GHz)

X-ray I/F:
Lossless AED / Sync Trigger
