

Amsco 3085 SP

Surgical Table

The Amsco 3085 SP surgical table offers exceptional positioning for patient weights up to 1,000 lbs. You can safely raise the 3085 and lower larger patients in both normal and reverse orientation and have virtually the same positioning capabilities as with standard patients.

This model optionally offers interfacing with ACT compatible systems and has precision movements for trendelenburg / reverse trendelenburg, raise / lower, and side tilt control during surgical procedures.

The table is designed with advanced hydraulic actuators that create smooth and precise movements for delicate surgeries such as orthopedic and urology procedures.

FEATURES

- Unprecedented versatility for every surgical specialty
- Exceptional image amplification (IA) coverage
- Designed for flexibility in patient positioning
- Built-in safety and reliability temperature

SPECIFICATIONS
