

# Avante Coil Exchange (ACE) Program

The ACE program allows you to take advantage of our extensive inventory of quality MRI coils from all market leading manufacturers without the hassle of returning loaners or approving repair quotes.

## What is Your Time Worth?

Our simple process delivers quality MRI coils as soon as 24 hours after placing an order versus 2-4 weeks for a repair cycle. MRI coils are backed by a 90 day warranty (extended warranties available upon request) and our highly skilled MRI Coil technicians ensure that our coils meet or exceed OEM specifications.
