

# Avante Connected™

REMOTE MONITORING & DIAGNOSTICS

## Avante Vision™

Real-time, direct-to-cloud equipment connectivity and full-service dashboard for enhanced equipment monitoring and diagnostics.

Establishes a remote connection for monitoring diagnostic machine data, providing technicians with a powerful error log viewer that is integrated with our proprietary database.

A customizable alert system automatically detects and notifies users of any issues and required service.

CV/IR

MRI

- Real-time, direct-to-cloud
- Diagnostic data monitoring
- No hardware
- No software
- Connected equipment dashboard
- Error log viewer
- Fault resolution database
- Custom alerts

Avante Vision™ requires a service contract and secure cloud connection.

REMOTE MONITORING

## Magnet Monitoring

Real-time monitoring of critical magnet and cryogenic data. Automated real-time alerts for anomalies such as magnet pressure, water temperature, and all other crucial data points.

MRI

- Real-time monitoring
- Automated alerts
- Cryogenic data

REMOTE SERVICE

## Avante OnSite™

Powered by the Avante Connected™ platform, OnSite™ allows Avante's expert service technicians to connect directly with advanced tools to perform remote service tasks, providing an additional level of remote support for understaffed departments.
