

Avante DM-530

Portable Aspirator

Long-lasting battery backup

The Avante DM-530 Portable Aspirator is a high-performance, battery-operated suction unit with battery backup. This unit eliminates worries about having power when you need it: the battery allows 1.5 hours of run time, twice that of comparable units. A standard “Low Battery Light” informs you that the unit needs to be re-charged thus preventing interruptions in use.

FEATURES

- The DM-530 Portable Aspirator uses any standard 800 cc canister and is visible in the Carry Bag while unit is in operation. It is re-chargeable in its convenient, specially designed Carry Bag, which also stores the charger, Suction Tubing and optional Auto DC Power Cord.
- The ABS plastic cabinet is durable, attractive, easy-to-clean and infection control friendly. There are no open areas on the unit to harbor bacteria and dirt.
- A dual pump protection system features two safeguards:
 - A float shut-off in the canister to protect overflow
 - An Inline Hydrophobic Filter to prevent back flow of fluid as well as airborne contaminants from entering the pump.

SPECIFICATIONS

Weight (with Carry Bag and all Accessories):
9.6 lbs (4.4 kg)

Shipping Weight:
11 lbs (5 kg)

Dimensions (in Carry Bag):
12" x 9.5" x 10"
(30 cm x 24 cm x 25 cm)

Aspirator Unit:
12 Volts DC, 1.8 Amps

Power Supply:
100 - 240 Volts AC,
50-60 Hz, 0.80 - 0.35 Amps

Internal Battery Type:
12 Volt, Sealed Lead Acid

Suction Canister:
800cc Max Volume
Vacuum is not to exceed
25 inHg (635 mmHg)

Patient Tubing:
¼ in. ID Non-Conductive PVC
tubing, 6 ft. long, with
¼ in.- ⅜ in. ID female
connectors, or equivalent

Vacuum:
2-19 inHg (51-483 mmHg)

Flow:
6.5 ±0.4 l/min @ 11.8 inHg
(300 mmHg)
