

AVANTE

FX-10m

Portable LED Light Source

The Avante FX-10m delivers intense white light to the field via a compact, lightweight, battery powered light source.

FEATURES

- Versatile: Use with scopes or headlights — port options available.
- Mobile: Operates on a rechargeable lithium battery (wall transformer optional).
- Battery: Lithium-ion provides 1.5-hour run time and fully charges in 3 hours. Can be charged by car inverter (not included).
- Mount: Attach to belt or set on a flat surface.
- Long Life: 25,000-hour 10-watt LED.
- Small: 3.5" × 2.5" × 3" (with battery).
- Light: Weighs less than 14 ounces (with battery).
- Bright: 6000 K and up to 4,350 foot candles via DRE Xavier-HI at 12" working distance.
- Quiet: Nearly silent cooling fan.
- Universal: Operates in 100v - 240v environments
