

Avante LI-70

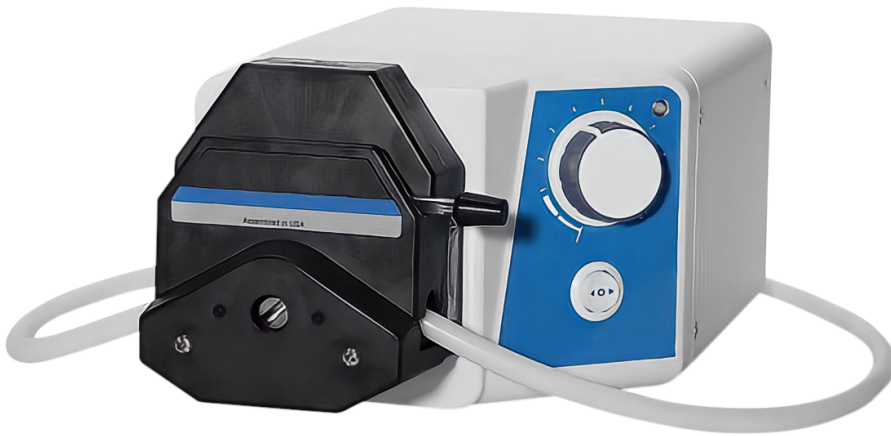

Fluid Transfer Infusion Pump

Features three times faster flow rate

The Avante LI-70 is a super-flow general fluid transfer infusion pump. It features a flow rate that is three times faster than the average pump in the industry. The LI-70 includes a forward and reverse flow motor, and a pneumatic foot pedal.

FEATURES

- Forward and reverse flow motor options for either direction
- Pneumatic foot pedal with a flow switch
- Dual foot pedal capabilities
- Optional remote control to start and stop
- Separate power switch to maintain speed setting
- Single-turn variable speed control

SPECIFICATIONS

Weight:
16 lbs (7.3 kg)

Width:
9.1 in (23.1 cm)

Height:
7.2 in (18.3 cm)

Depth:
5.3 in (13.5 cm)

Motor (watts): 37

Power (amps): 0.8

Power (Hz): 50/60

RPM:
20 - 600

Motor:
hp1/20

Control Type:
Analog Variable Speed

Reversible Motor:
Yes

Speed Control:
±5%

Flow Rate:
1.2 - 2900 mL/min

Housing Material:
Painted Steel & ABS Plastic
