

# Avante Waveline M20

## Patient Monitor

### Creates seamless transition from bedside to transport monitoring

The Avante Waveline M20 is a portable patient monitoring device. This can be used as a compatible module with monitors in the Avante Waveline M series, such as the Avante Waveline M5 and Waveline M6. The Waveline M20 also functions as a transport monitor on its own, and is designed to be lightweight and portable for patient convenience.
