

Lawson Lite

NEVER COMPROMISE  
START WITH YOUR VISION

## A true coaxial fiber optic headlight for the astute ENT surgeon

Why is the Lawson Lite truly coaxial?

Designed in collaboration with William Lawson, M.D., D.D.S., professor of Otolaryngology at Mount Sinai Medical Center in New York, this is the only headlight today providing true monocular viewing.

Our mechanically advanced swivel lets you position the optic over your dominant eye. A tunnel centered through our High Beam TriLens optic results in undeviating, shadow-free vision with intense light reaching deep into any body cavity.

The only headlight  
today providing true  
monocular viewing

NEVER COMPROMISE  
START WITH YOUR VISION

Lawson Lite Classic

With all the advantages of our High Beam TriLens system, the Lawson Lite provides direct, shadow-free vision with intense light reaching into any deep cavity. It is compatible with our Maxenon™ xenon light sources or Maxillume™ and MiniMax™ T3 Quartz-Halogen series.
