Fibrelight System

Lifelong Quality and Performance

Features

In 1972, Penlon designed the world's first Fibrelight Laryngoscope range. The **Diamond Laryngoscope Range** has been developed to meet the latest international fibrelight laryngoscope standard, ISO 7376-3, the Green Standard, to give a fully interchangeable, internationally compatible laryngoscope system. And the Diamond Range now includes the Fibrelight McCoy (see the McCoy brochure for full details).

- ◆ **Excellent fibre optics** - able to withstand repeated autoclave treatment
- ◆ **Five year guarantee** on light guide and lifetime guarantee on all blades and handles (excluding bulb)*
- ◆ **Removable light guide design** - extends blade life, and allows easier cleaning
- ◆ **Penlon excellence in quality and design** - sets the standards by which all others are judged
- ◆ **Quality you can trust**
- ◆ **Superior polished finish** - easy to clean and sterilise

**The Penlon Laryngoscope is guaranteed throughout its normal useful life against mechanical failure due to defects in design, materials or workmanship. The guarantee does not apply to lamps. Fibrelight guides are guaranteed against total light failure within a period of five years. However note that after many sterilisations the light output of the fibre bundle may decrease. Contact the Customer Service Department at Penlon Ltd for details of our repolishing service.*
