

# MYA Podiatry Chair

## Advanced technology professional podiatry chair

The Euroclinic MYA is a professional podiatry chair offering maximum comfort for a relaxing effect. The Mya is equipped with 3 motors (up/down, seat and backrest) with movements that can be controlled by wireless foot pedal or compatible touchscreen on Steel TS workstation.

### Features

- » *Unique split leg rests and self-braking system in foot rest's elongation.*
- » *Chair is able to rotate 180° in both directions.*
- » *Solid metal structure painted with epoxy powders in grey or white metallic color with resistant ABS covers.*
- » *Arm rests with 2 pillows (upper and lower) with independent lifting movement.*
- » *Wireless pedal is optional and operates 3 memories + "zero" position for entry/exit of patient.*
- » *The backrest is higher than standard sizes and shows 2 soft ovals integrated and in relief on the upholstery acting as headrest and lumbar cushion.*
- » *New bi-color tissue is available in different combinations.*
