

# SALTER LABS®

## Salter-Style® Adult Cannulas®

*The "Micro" Cannula™ (for use with up to 3 LPM of oxygen) provides superior comfort for the active, low-flow user.*

### Features

- ❑ Unique patented, anatomically correct design
- ❑ Curved, tapered nasal prongs
- ❑ Three-channel, crush - resistant safety tubing
- ❑ The "diminutive" streamlined design and clear material is almost invisible on the skin

### Benefits

- ❑ Provides a natural fit for better comfort
- ❑ Better anatomical fit for long term use
- ❑ Uninterrupted flow of oxygen
- ❑ Eliminates unnecessary material and weight; creates feather-light comfort and reduces behind- the - ear pressure

## Cannulas

Today, low-flow oxygen therapy applies to people still in the mainstream of life. Because of this, cosmetics is an even more important factor affecting patient compliance. People want the most unobtrusive means of oxygen delivery when at work or out and about. They have always wanted the most comfortable alternative.

Now get both with the Salter 1616 "Micro" Cannula.

## The Salter 1616 "Micro" Cannula™

Clear, lightweight cannula with unique one piece anatomical design, eliminates the need for flap which can cause irritation, providing maximum patient comfort. Over-the-ear style provides secure positioning, allowing complete freedom of movement. Provided with three-channel safety tubing.
