

SALTER LABS®

Salter-Style®

Cannulas

For the Premature, Neonate, Infant, Intermediate Infant and Pediatric Patient. Five sizes ensure superior fit and greater comfort.

Features

- Anatomically curved to fit upper lip
- Curved, tapered nasal prongs
- Over the ear style
- Three-channel safety tubing
- Soft, lightweight, clear material

Benefits

- Eliminates irritation-causing flap or ridge
- Improved anatomical fit
- Secure positioning
- Uninterrupted flow of oxygen
- Better comfort for long term use. Does not interfere with patient observation

Salter-Style® Premature, Neonate, Infant, Intermediate Infant and Pediatric Cannulas

- 1610-Premature... less than term
- 1611-Neonate...more than 1400 grams (approx.)
- 1601-Infant... newborn, full term
- 1615-Intermediate Infant... 3 to 12 months (approx.)
- 1602-Pediatric... 1 year or older (approx.)

Clear, lightweight cannula with unique one piece anatomical design, eliminates the need for irritating flap, resulting in maximum patient comfort. Over-the-ear style provides secure positioning, allowing complete freedom of movement. Provided with three channel safety tubing.

Soft, clear material anatomically curved for improved upper lip fit.
