

SUPREMA P-300

Professional chair designed specifically for Podiatry examinations with high performance and maximum comfort for both operator and patient.

*Built for
durability
and patient
comfort*

The Euroclinic Suprema P-300 is a professional chair designed for high performance and maximum comfort for both operator and patient. It is equipped with an ergonomic seat and backrest that contour to the patient's body. Through an advanced dual control system, you can set and recall chair movement using controls located on the chair as well as on the foot control.

SUPREMA P-300
