We’re making it easier and more affordable for every medical facility to have the very best equipment, supplies, and service.

Avante Health Solutions is a one-source medical equipment solutions provider, giving healthcare systems throughout the globe access to new and refurbished capital equipment, installation, service, parts, repair and technical support.

In a time where medical facility budgets are pinched and consolidation is quickly changing the healthcare landscape, Avante offers progressive strategies from one powerful partner. Avante has brought together experienced equipment providers to give modern healthcare facilities access to comprehensive solutions for a wide range of equipment modalities: patient monitoring, ultrasound, diagnostic imaging, surgical equipment, and radiation oncology.

Avante’s brand agnostic approach to equipment sourcing and service ensures that customers find the ideal equipment for their unique needs. To learn more about how Avante Health Solutions experts can maximize capital equipment performance at your facility, contact an Avante representative today.

OUR COMMITMENT TO QUALITY

Avante offers cost-effective equipment solutions backed by our dedicated commitment to quality. It’s that peace of mind that makes doing business with us different.

Our Facilities and Processes
Each of our state-of-the-art campuses feature quality management processes that have been ISO 13485:2016 certified. We invest in testing equipment, staging bays, remote diagnostics, and in our quality supply chain.

Our People
Our teams of trained and certified engineers are experts in their respective fields, and have a passion for helping you maintain the highest level of patient care at your facility.
Avante Integra SL
Electronic flow display and traditional flowmeters.
Fully integrated absorber ventilator with 6 ventilation modes.
Illuminated work space, large capacity drawer units and top shelf with secure GCX mounting system for patient monitors.
Fully compliant to ISO 80601-2-13 and RoHS standards.
Intuitive design in a compact footprint
Web ID 1573

Dräger Fabius GS
High-contrast color monitor with Dräger user interface for easy and familiar operation.
All major ventilation modes.
New, highly maneuverable trolley with central brake.
LED workplace illumination, spacious design, and large drawers.
Advanced ventilation technology with reliable and proven breathing system components
Web ID 999

Avante Integra SP VSO2
Small compact unit with retractable top handle for easy transport.
3 gases (O₂, N₂O and air).
2-year manufacturer’s warranty.
Mechanical Anti-Hypoxic Device and Air/N₂O interlock.
Conveniently located side gas ports.
Selectatec®-compatible vaporizer mounting system.
Compact system is great for office-based anesthesia
Web ID 7

Dräger Fabius Tiro
Intelligent safety features for enhanced patient protection.
Complete with advanced features such as fresh gas decoupling, which maintains constant tidal volumes regardless of fresh gas flow changes.
High-quality ventilation in small spaces
Web ID 1442

Penlon Sigma Delta
(new) delivers accurate concentrations under many conditions, even at low flow.
Recalibrated options include Datex-Ohmeda Tec Series, Dräger Vapor 2000, 19.1 and 19.3.
Web ID 22
Clean and Calibrate your vaporizers with Avante!
TEC 3, TEC 4, TEC 5, Dräger 19.1, Ohio and Penlon.
Also have your TEC 3 and TEC 4 vaporizers converted from Halothane to Isoflurane.

Optional Accessories
Available with an optional absorber
Available with a hard-shell carrying case, making the system easier to transport.
Available with a durable mobile cart.

OPEN-PLATFORM ARCHITECTURE
can easily integrate into overall workflow

Certified Biomedical Equipment Technicians
Trained, Educated, Experienced
Factory-trained with Certification to Service Anesthesia Systems from GE/Datex-Ohmeda, Penlon, Dräger, Avante, and more.

One source to maximize capital equipment performance

**Dräger Apollo**

E-Vent plus servo controlled high-speed piston ventilator provides performance previously only seen in the ICU.

Designed to support the user in low and minimal flow settings.

Simple, straightforward start-up reduces the burden on the staff and provides complete information on device status.

**Easy-to-use anesthesia system with user-friendly ergonomics**

Web ID 1355

Open-Platform Architecture can easily integrate into overall workflow

---

**GE Avance S5**

Complete patient monitoring capabilities: respiratory gas, hemodynamic and adequacy of anesthesia

Electronic gas mixer with pneumatic back-up control.

Advanced Breathing System enables easy on/off capability and reduces maintenance time; easy disassembly and cleaning.

Simple, flexible menu controls minimize the need for training and reduce complexity during critical and non-critical events.

Sophisticated ventilation with expanded clinical capabilities for spontaneously breathing patients.

Web ID 1432

---

**GE Avance CS²**

Moveable 15” touch ventilator display screen with CARESCAPE™ inspired user interface for the unified Carestation user experience.

ecoFLOW provides information that may help clinicians maintain their desired inspired oxygen concentration during low and minimum flow anesthesia.

User configurable ‘Quick Picks’ for rapid selection of FiO₂ and total flow combinations.

**Sleek user-interface enabled by a beautiful 15-inch touchscreen display**

Web ID 17209

---

**GE Aisys**

Ventilation, vaporization and gas delivery are electronically controlled and monitored.

Data capabilities enable digital interfacing of patient and Carestation information.

Easily upgradable to enhance the functionality, add support, and enhance data management.

Provides digital feedback on ventilation, drug levels, patient status, and fresh gas usage.

Electronic protocols provide data continuity.

**Precise digital controls ideal for low flow anesthesia**

Web ID 1433

---

**GE Aisys CS²**

Displays breath-by-breath patient spirometry: airway pressure flow, volume, compliance, PEEP, and airway resistance.

Wide range of ventilation modes offered: VCV, PCV, PSVPro, PCV-VG, SIMV, VCV, SIMV PCV, CPAP+PSV, and SIMV PCV-VG.

Web ID 11964

---

**GE Aestiva 5**

Optimized for low flow anesthesia and reduced agent consumption.

Open systems architecture and lower overall height.

Web ID 771

---

**GE Aespire S5**

Enhanced integration for GE / Datex-Ohmeda monitors.

Lightweight and compact for seamless maneuvering.

Optional integrated auxiliary O₂ flowmeter and suction control.

Available with the advanced 7900 SmartVent — includes sophisticated ventilation capabilities, helping you meet the needs of neonates, trauma, compromised and routine patients.

**Modern economical anesthesia**

Web ID 1074

---

Avante Waveline Touch

Bright, easy-to-use, touchscreen display with up to 8 adjustable waveforms.

Optional capnography and anesthesia gas.

Wireless and central station compatible. USB and network access to software and data.

Multi-lead ECG monitoring with optional EtCO₂

Web ID 1229

Parameters: ECG, Pulse Oximetry, Non-Invasive Blood Pressure, Heart Rate, Temperature, Respiration.

Vibrant 12.1” user-friendly touchscreen for seamless operation

Avante Waveline Pro

Large (15”), touchscreen with high-resolution flat panel display.

Optional Integrated Dräger Anesthesia Gas Bench expands measurement capabilities.

Wireless and central station compatible. USB and network access to software and data.

Displays as many as 8 waveforms.

Touchscreen O.R. monitor available with EtCO₂, anesthesia gas and 5-agent analysis

Web ID 1077

Parameters: 3-lead or 5-lead ECG with arrhythmia detection, Non-Invasive Blood Pressure, motion tolerant SpO₂, Temperature, and Respiration rate.

Available with a built-in anesthetic agent bench!

Avante Waveline EZ

Transportable monitor with an 8” touchscreen.

Long-lasting battery back-up (up to 4 hours).

Optional CO₂ monitoring.

Capnography available

Web ID 1230

Parameters: ECG, Pulse Oximetry, Non-Invasive Blood Pressure, Heart Rate, Temperature, Respiration.

Optional: EICO₂ and Printer.

Compact design convenient for mobile monitoring

Avante Waveline EZ MAX

10.4” Color TFT LCD touchscreen monitor.

Arrhythmia, S-T Analysis, OxyCRG, large font display.

Non-proprietary CO₂ technology saves you consumable expenses

Web ID 1624

Parameters: ECG, Pulse Oximetry, Non-Invasive Blood Pressure, Heart Rate, Temperature, Respiration.

Optional: Nellcor OxiMax™ SpO₂, 2-IBP, ICP, C.O. Respironics CO₂ (Mainstream and Sidestream)

Avante Waveline EZ MAX

GE Carescape B650

Customize views from eight to 14 waveforms with overlays and insets to suit the caregivers’ and patients’ needs.

Combination monitoring with Apex Pro telemetry for patient mobility.

CARESCAPE Patient Data Module offers seamless patient data capture in HIS/EMR for continuity of care.

Transition patients easily from high to low acuity.

Combines advanced data communication with smart design

Web ID 1640

www.avantehs.com • 1-800-979-6142

Datex-Ohmeda Cardiocap 5

Small footprint bedside monitor with large 10.4” active matrix color display.

4 user-configurable modes for care-specific preconfigurations.

Waveform snapshot to store and recall waveform samples for later analysis.

Built-in back-up battery to handle sudden power down situations.

Web ID 960

Refurbished by Avante

One source to maximize capital equipment performance
Philips Monitor Parts

10.8V Lithium Ion Battery Pack
X2 Front Display LCD Screen & Bezel Assembly
Philips M8023A X2 MMS Charger with Interface Cable

Philips IntelliVue MX100 X3
Offers a broad set of basic and advanced clinical measurements
Each screen can be customized to present exactly what you want to see, the way you want to see it.
Helps to streamline workflow and boost efficiency by reducing the number of steps to prepare patients for transport.
Web ID 14375

www.avantehs.com • 1-800-979-6142

Philips IntelliVue MX450
Optimized for high-demand applications: ED, step-down, conscious sedation, and NICU.
Ambient light sensor automatically adjusts screen brightness to maintain readability in nearly any lighting environment.
Comprehensive patient monitoring in a compact, easy-to-use design
Web ID 14385

Philips IntelliVue M3002 X2
Redesigned user interface to improve visibility of patient data, for ease of use and software compatibility.
Dynamic Wave area features waves that automatically adjust in size depending on the number of waves configure.
Designed to be light, small, and rugged compared with critical care transport monitors in its peer group.

Designed for clear decision making
Web ID 1513

Philips IntelliVue MP50
Highly flexible screen configurations.
Extensive clinical measurements menu.
Built-in clinical support tools such as Event Surveillance, conventional diagnostic 12-lead ECG, and arrhythmia analysis.
High-performance monitoring for flexible care situations
Web ID 1389

Philips IntelliVue MP70
Smart prioritization of patient information, and allows for customized viewing options.
Built-in clinical support tools such as Event Surveillance, conventional diagnostic 12-lead ECG, and multi-lead arrhythmia.
Touchscreen operation makes many functions accessible through simple, one-touch commands.
Web ID 1510

GE Dash 5000
Advanced clinical parameters including 12SL™ for simultaneous ECG monitoring, GE EK-Pro™ for multi-lead arrhythmia analysis, ICG, mainstream and sidestream CO₂ and GE DINAMAP® NIBP with SuperSTAT™.
Networking options include wired and wireless.
Up to 7 waveforms and up to 4 invasive pressures.
High resolution CRG trends for NICU monitoring.
Light weight, durable, and ergonomic design
Web ID 1374

Philips IntelliVue M50
Highly flexible screen configurations.
Extensive clinical measurements menu.
Built-in clinical support tools such as Event Surveillance, conventional diagnostic 12-lead ECG, and arrhythmia analysis.
High-performance monitoring for flexible care situations
Web ID 1389

Philips IntelliVue MP5
Provides a clear connection to your patients, delivering IntelliVue monitoring power and functionality in a compact, rugged housing to match the demands of a wide range of care environments in and out of the hospital.
Wired and wireless networking for continuous connection, no matter where patients are located on the network.
Web ID 1512

Philips IntelliVue MP5
Very flexible user interface for easy and intuitive use.

dynamic wave area, which automatically adjusts the size of waves depending on the number of waves configured.

Designed for clear decision making

www.avantehs.com • 1-800-979-6142
Avante Echo Series

Cost-effective vital signs monitor.
5.7” high resolution display clearly presents vital sign information.
Optional thermometer for obtaining temperature in approximately 15 seconds.
Available with your choice of Pulse Oximetry, Non-invasive Blood Pressure and Covidien Quick Temp. Wireless Capable.

Ultra-lightweight and portable with a 10-hour battery
Web ID 1380

Avante Envoy Plus

The state-of-the-art Avante Envoy Plus allows for increased efficiency and better quality

The Avante Envoy Plus brings you a comprehensive central monitoring solution. It offers seamless remote monitoring management from transportation, hospitalization, and intensive care to anesthesia care and beyond, bringing easy access to health care providers with well-organized monitoring technology.
Web ID 13862

GE Carescapce B450

Standard Parameters: ECG, SpO2, NIBP, InvBP, TEMP, Cardiac output Especially designed for intra-hospital transport.
Web ID 14372

GE Procare B40

12.1” color display and one-button access to commonly used features.
Modular and configurable with advanced parameters.
Web ID 11706

Avante Echo CO₂

Respironics Loflo sidestream or CAPNOSTAT 5 EtCO₂ mainstream measurement.
Bi-directional communications with central station by wired or wireless network.
Built-in rechargeable Lithium-ion battery for 10 hours continuous operation.
Lightweight, portable design and user-friendly interface.
Flexible configurations to meet different clinical needs.
Real-time parameters measurement display with trend table for easy reviewing.
Standard SpO₂.
PR measurement.

5.7” high resolution display for easy reading

Philips MX40

Allows for comfortable monitoring on the go

Wearable monitor gives patients the freedom of movement.

Features a unique cable connector designed to reduce collection of soil and liquids, and a case design that withstands high level disinfectants, including periodic sterilization.

Alarm management based on your clinical protocols.

Web ID 17184

Philips M4841A

Smart hopping technology locates the strongest available signal wherever the patient is located.

Integrated rechargeable Lithium-ion battery.

Out-of-range audible alert.

Wireless telemetry as a parameter.

Web ID 1473

Philips M2601B

FAST-SpO2 (Fourier Artifact Suppression Technology) for improved motion artifact rejection and low-perfusion performance.

Clinician-selectable Standard or EASI leads in same transmitter, at the bedside.

Powered by two AA Alkaline batteries.

Freedom for patients and flexibility for clinicians with impressive wireless coverage.

Web ID 1436

GE ApexPro CH

Uses the GE EK-Pro clinical algorithm, which processes and analyzes four independent, simultaneous ECG leads - meeting and exceeding stringent AHA guidelines.

Supports advanced atrial fibrillation detection and alarming.

Capable of monitoring two V-leads on each patient.

Web ID 17153

GE ApexPro

Allows each transmitter to monitor only the parameters each patient requires.

Continuous monitoring of ECG and SpO2, and episodic monitoring of NIBP and temperature allow caregivers to tailor monitoring according to the patient’s acuity.

Capable of monitoring two V-leads on each patient.

Web ID 17154

GE ApexPro FH

Offers an expansive and scalable telemetry option designed to support large healthcare enterprises.

Works seamlessly with CARESCAPE™ Enterprise Access. This powerful combination provides a coverage area of up to 1.2 million square feet, enabling you to monitor up to 640 patients across the enterprise.

Capable of monitoring two V-leads on each patient.

Pace detection across two vectors improves the system’s ability to see and recognize a wide variety of pacemakers.

Telemetry for large healthcare enterprises

**Avante Vista LED**

Maximum output rated at 50,000 Lux.
4,300° K bright white illumination.
Life rating of 50,000 hours.
2-stage dimming.
Compact head design with smooth arm articulation.

**Bright illumination at an affordable price**
Web ID 1425

**Avante Vista Flex LED**

Cost-saving, energy-efficient LED bulb produces up to 50,000 hours of illumination.
Provides a color temperature of 5,300° K.
Light produces 70,000 Lux at an 8 inch working distance.
Available in a variety of mounting options including mobile stand, wall mount or table mount.

**Versatile light with maximum positioning capabilities**
Web ID 11911

**Avante SLS 2500 LED**

Shadowless lamps provide color temperature close to natural sunlight with 3,500 – 5,000° K.

**Avante Vista PRO 3 LED**

Alternate between 3 preset color temperatures: 4,400°, 3,800°, and 3,000° Kelvin.
40,000 lux output at 0.5 meters.
Web ID 1629

One source to maximize capital equipment performance
Avante SLS 9000 Plus
Maximum output rated at 140,000 Lux.
Rated for 50,000 hours of LED life.
Expertly engineered design makes it easy to position and adjust light heads for any surgical procedure.
LCD touchscreen operation measures illumination intensity, color temperature and Chromogenic index.

Bright, consistent illumination
Web ID 11908

Available as a single or dual head ceiling mount

Avante Maxx Luxx LED

LCD touchscreen for easily adjustable output.
Cool output LED light source.
Built to last at a rated 50,000 hours.
160,000 lux output (14,800 foot candles).
Adjustable focusing and CRI.
Adjustable color temperature for optimizing human tissue colors.
Available in dual ceiling, single, and wall configuration.
Web ID 1615

Avante Vision LED

Produces unsurpassed illumination with economical energy consumption.
50,000-hour rated LED life.
100,000 lux output at 1 meter.
4,300° Kelvin color temperature and color rendering index of 97.
5-stage dimming and on/off switch on the patented sterilizable handle.
Large diameter LED array with exceptional shadow control.
Provides unsurpassed longevity and flexibility
Web ID 1354

Avante SLS 9000

Cost efficient surgery lighting system.
Cool output LED light source.
LCD touch screen operation measures illumination intensity, color temperature and Chromogenic index.
Shadowless light with a 50,000 hour rated LED life
Web ID 1556

Avante Maxx Luxx LED 160

Highly efficient surgery lighting system.
Extremely cool output – lowest possible heat.
Superb color temperature of 4,300° Kelvin.
Extremely long life at a rated 50,000 hours.
Maximum brightness with extremely cool output for 50,000 hours

Avante Milano E20
Power procedure chair naturally adapts to almost every physician, patient, procedure and environment.

Comfortable for both the operator and patient: the Milano E20 is wider than traditional procedure chairs and lowers to 20.5”, helping patients with mobility difficulties get on and off the chair.

Foot pedal and handset remote adjusts the height, back, Trendelenburg and level positioning with 4 actuators and includes an automatic reset control.

Web ID 1428

Avante Milano OB20
Full electric operation OB/GYN Procedure Chair

Simple, automatic operation with 3 independent movements: height, backrest and Trendelenburg.

20” minimum height ensures easy access for the patient; 40” maximum height ensures optimum position for the specialist.

90° rotation to both sides and adjustable headrest.

Web ID 1502

Avante Milano P20
Feature rich, stylish and affordable Podiatry Chair

Leg supports swivel independently up to 50°.

Foot pedal adjusts the 3 electric movements: height, backrest, and seat tilt.

30° Partial Trendelenburg positioning.

Web ID 1617

Avante Milano T50
A universal power procedure table with fully-electric multifunctionality. Includes 4 actuators and standard foot pedal control.

The electronic control box and the actuators are versatile and easy to service. Featuring an automatic reset switch that returns the table to its starting position.

ABS coated steel frame gives the table a smooth finish while protecting the inner table components.

Designed for Dermatology, Oral, Plastic & Cosmetic Surgery, OB/GYN, ENT, and General Procedures

Web ID 1429

Avante Milano D20
Articulating headrest can be adjusted for a variety of procedures.

Ideal for dental procedures, implantology, orthodontics, ENT, facial procedures, examinations, diagnostics and minor surgeries.

4 Independent Electronic Movements: Height, Backrest, Leg Rest and Seat Rest.

Convenient automatic reset control returns chair to its original position.

Wheeled base for moving the chair throughout your facility.

A highly-adjustable, affordable chair for modern practices

Web ID 11721

Avante Meridian
Ergonomically designed seat section and back section are designed for patient comfort.

Seat section features pelvic tilt for enhanced positioning capabilities.

Foot stirrups angle can be positioned for each patient: 15°, 30°, 45°.

Chair lowers to 18 inches to facilitate the safe transfer of patients with mobility concerns.

Extendable, padded foot rest.

Adjustable height exam table designed for easy patient transfer

Web ID 11959

One source to maximize capital equipment performance
Avante Milano H50
Ideal for: cosmetics, hair transplantation, ophthalmology, any lengthy outpatient procedure.
Plush mattress provides hours of breathable comfort for long procedures.
1 Synchronized Electronic Movement: backrest and leg rest.
Automatic reset control returns chair to original position.
Superior comfort for extended office procedures
Web ID 1637

Avante Patient Exam Table
Durable vinyl upholstery over 2-inch firm, supportive foam padding.
Patient area measures 27 inches in width for patient comfort.
Air-spring adjustable backrest allows clinicians to easily adjust the table without back strain.
Coated, two position adjustable stirrups can be quickly pulled out or tucked away.
Padded, pull-out leg rest on steel track.
Large storage compartment with one shelf is accessible from both sides.
Designed for comfort, economy, overall functionality, and storage
Web ID 1246

Oakworks CFPM400
4-movement C-Arm Table.
Low height for patient transfers to max height.
C-Arm mobility requirements for full lateral imaging.
Trendelenburg tilt +15/-12°
Web ID 933

Midmark 222 & 223
Barrier-free high-low power exam table.
Hideaway stirrups that lock in one of four lateral positions.
Low and high table positioning.
Web ID 472

Avante Torino 550
Multi-purpose positioning capabilities
Longitudinal slide up to 13.78” for easy C-arm access.
Table weight load capacity rated at 550 lbs.
Powered or manual solid leg rest.
Adjustable height from 28” to 40” for good access to the operative field.
Table movements include: Trendelenburg, reverse Trendelenburg, leg and back plate adjustment and lateral tilt.
Large casters and convenient braking system for easy and convenient maneuvering throughout any surgical facility.
Battery backup for continued use in the event of a power loss.
Web ID 12263

Avante Torino Max
Premium table with expanded weight capacity of 1,000 lbs
Designed to suit a variety of procedures, including X-ray and C-arm use.
Features flex and reflex positioning, and a total weight capacity of 1,000 pounds.
Self-leveling floor locks.
Large casters for easy and convenient maneuvering throughout any surgical facility.
Remote lockout ensures table is secure before positioning the patient.
Onboard auxiliary control panel.
Web ID 12283

Standard Accessories:
Kidney bridge
Shoulder support
Arm support
Long fixing clamps
Leg and foot supports

Included Accessories:
Leg support
Arm support
Shoulder support
Body support
Anesthetic screen
Socket clamp
Accessory clamps
Hand remote

Memory padding is waterproof and antistatic

www.avantehs.com • 1-800-979-6142
Steris 4085
4-section tabletop contours to virtually every patient posture.
Removable leg section provides unrestricted perineal access.
Powered, radiolucent kidney elevator for lateral procedures.
Generous height and weight ranges accommodate many patient types.
Compensates for uneven OR floors with unique self-leveling floor locks.
Facilitates quick and safe patient positioning with an easy-to-use, easy-to-read hand control.

Provides outstanding access for C-arm

Avante Delphi CF
C-Arm and Vascular Table with Floating Top Movement
Easy-to-use, 5-movement C-arm table with high-speed actuators.
Rapid positioning via the following table motions: height, lateral tilt, Trendelenburg, longitudinal travel, lateral travel.
Carbon fiber table allows clinicians to get high-quality, clear images with low X-ray doses.
Micromotors ensure quick, smooth, and balanced table movements.
Maximum patient weight of 440 pounds.

Compatible with a variety of popular C-arm systems from industry-leading brands.

Surgery Tables

Steris Amsco 3085 SP
Safely raise and lower larger patients in both normal and reverse orientations.
Unprecedented versatility for all surgical specialties.
Designed for flexibility in patient positioning.
Exceptional image amplification (IA) coverage.

Durable, flexible surgery tables support up to 1,000 lbs

Steris SurgiGraphic 6000
83° of full unobstructed viewing for maximum imaging capabilities.
Table auto corrects deflection caused by patient weight.
Advanced locking mechanism has eight points of contact for critical stability.
Smooth longitudinal and lateral float.
Patient Capacity 500 lbs.

Enables radiology-quality images for minimally invasive procedures

Skytron Hercules 6701
1,000-lb. articulate capacity and 1,200 lb. lift
Adjustable height from 23 to 41 inches.
Designed for general surgery and bariatric patients

Skytron Hercules 6702
1,200 lb lift and 1,000 lb articulation weight capacity.
210° rotation offers superior imaging access at both the head and foot end of the table.
Removable back and leg sections for quick accessory attachment and positioning.
Adjustable table height from 23 ¼ to 41 ½ inches.
30° lateral tilt.
30° Trendelenburg and reverse Trendelenburg.
Power beach chair positioner for one-touch set-up.

www.avantehs.com • 1-800-979-6142
Avante Millennium 5
Backrest lifting controlled by oil hydraulics.
Knee-rest lifting controlled by adjustable crank.
Central braking system with steering function.
Steel bed frame with powder coating.
3” high density PU foam mattress.
Collapsible side rails on both sides that fold manually.
8” steering wheel central brake on 4 casters.
Collapsible side rails on both sides that fold manually.
Base cover made of ABS plastic with space for an oxygen bottle and emergency devices.
Durable patient stretcher available with a fifth wheel system for improved steering

Philips Epiq 7
xMATRIX is the most leading-edge, versatile ultrasound transducer technology.
Q-App quantification applications.
nSIGHT Imaging strengthens the power of PureWave to image technically difficult patients.
The Mitral Valve Navigator: designed to take a Live 3D volume of the mitral valve and turn it into an easy-to-interpret model in eight guided steps.
An uncompromised level of clinical performance

Avante Premio E250
Back up battery.
Side rail controls.
5 functions; including CPR function with reset function.
Locking controls prevent unexpected bed movements.
Safe and firm construction from steel with powder coating and platform of ABS plastic with ventilation holes.
The perfect solution for hospitals, surgery centers and teaching facilities

Philips Affiniti 70
SS-1 transducer with exclusive Purewave crystal technology provides striking 2D clarity and color sensitivity.
Color-flow mapping: 1
X3-1 with xMatrix array technology incorporates the processing power of 150 computer boards for real-time 3D volume rendered imaging
xMatrix transducer technology incorporates exclusive micro-beamforming circuitry designed to support up to 3,000 individual active elements.
A powerful combination of performance and workflow for quick, confident diagnosis

Hill-Rom Affinity II & III
6 functions; including CPR function with reset function.
Locking controls prevent unexpected bed movements.
Side rail controls.
Safe and firm construction from steel with powder coating and ABS plastic with ventilation holes.
The perfect solution for hospitals, surgery centers and teaching facilities

Hill-Rom Total Care
5 functions; including CPR function with reset function.
Locking controls prevent unexpected bed movements.
Back up battery.
Side rail controls.
Safe and firm construction from steel with powder coating and ABS plastic with ventilation holes.
The perfect solution for hospitals, surgery centers and teaching facilities

GE Logiq S8
Diagnostic ultrasound with Doppler physics and instrumentation.
B-Flow, Elastography, Multi-modality Query Retrieve.
Scan Assistant techniques and program development.
Advanced technologies, i.e. High definition Speckle Reduction Imaging (SRI-HD), CrossXBeam®, Coded Harmonics Imaging and LOGIQView.
Packed with powerful, established technologies that deliver high quality imaging

Philips Affiniti 70
SS-1 transducer with exclusive Purewave crystal technology provides striking 2D clarity and color sensitivity.
Color-flow mapping: 1
X3-1 with xMatrix array technology incorporates the processing power of 150 computer boards for real-time 3D volume rendered imaging
xMatrix transducer technology incorporates exclusive micro-beamforming circuitry designed to support up to 3,000 individual active elements.
A powerful combination of performance and workflow for quick, confident diagnosis

www.avantehs.com • 1-800-979-6142
GE Logiq E9
19” high resolution LCD monitor.
CrossXBeam - Combines several images from different angles into a single, real-time image that allows for improved border definition and high contrast resolution.
Coded Harmonic Imaging - Improves near-field resolution for clearer small parts imaging and for far field penetration
Coded Contrast Imaging - Enhances the view of the Fallopian tubes vs. other tissue
Extraordinary image quality in all applications across all body types
Web ID 12680

GE Voluson E8
Achieve a new standard of color Doppler with Radiantflow—delivering easy, fast visualization of even the tiniest of vessels.
Expand the range of visible blood flow to include low velocities with SlowflowHD™ to visualize blood perfusion in very small vessels.
Easily obtain volume images with unprecedented depth and clarity using the HDlive™ technology suite—an essential problem solving tool.
Handles routine to complex women’s health exams with ease and precision
Web ID 12697

Samsung HS60
Quick Preset - With one touch, the user can select the most common transducer and preset combinations.
S-Flow™ - A sophisticated color Doppler technology with greater sensitivity. S-Flow can detect low-intensity blood flow.
ElastoScan™ - detects the stiffness in tissue and converts it into color images.
S-Vision™ Imaging Engine - effectively removes noise artifacts resulting in clear, detailed resolution and tissue uniformity.
Performance at its best
Web ID 12789

Samsung RS85
Combines exquisite image quality and expert tools, empowering clinicians to make fast, confident decisions.
Quick preset settings combine multiple keystrokes into one, making a full day of scanning simple and easy
Customizable touchscreen allows clinicians to navigate easily between frequently used functions.
13.1-inch tilting touchscreen can be adjusted to accommodate viewing preferences.
Advanced intelligence, enriched view, streamlined workflow, patient-centered care
Web ID 17206

Samsung HM70A
Integrates intelligent imaging technologies to fulfill a wide range of needs with excellent image quality.
A combination software and hardware imaging engine offers faster and more accurate data processing, which means more in-depth and detailed scanning.
Ability to program assigned exam protocol to improve exam efficiency and reduce keystrokes.
SSD technology enables powering up in 60 seconds from the powered off state, and in approximately 14 seconds from the sleep mode.
Deliver excellence wherever you go
Web ID 12782

Ultrasound Probes
With more than 3000 ultrasound transducers in stock and ready to ship, Avante Health Solutions is sure to have the exact probe for your needs. Our wide inventory includes probes from every major brand: GE, Philips, Siemens/Acuson, Toshiba, Samsung-Medison, and Sonosite.
Browse our selection online, and find the right ultrasound probe today.

www.avantehs.com • 1-800-979-6142
GE Corometrics Nautilus Toco Transducer with Knob
Corometrics Nautilus Toco Fetal Transducer with Knob can be used with the following monitors: 116, 118, 120 Series, 150, 170 Series.
Our line of OEM compatible Fetal Transducers provides a cost savings solution without compromising quality.
We also offer NEW compatibles for Hewlett Packard/Agilent/Philips and GE/Corometrics fetal monitors.

Web ID 17192

Philips M2736A Avalon Ultrasound Transducer
The Avalon FM series fetal and maternal monitors are the first and only to offer automated coincidence detection (cross-channel verification) using Smart Pulse. This innovative feature allows automated maternal pulse detection via the Toco MP transducer without the need to monitor maternal Sp$\mathrm{O}_2$, or ECG separately.

Web ID 17197

Philips M2734B Smart Toco Transducer

Web ID 17196

Can be used with FM-20, FM-30, FM-40, and FM-50 Avalon fetal monitors.

Standard length 8ft. on all GE Corometrics Transducers

Refurbished by Avante

GE Corometrics Nautilus Ultrasound Transducer

www.avantehs.com • 1-800-979-6142

One source to maximize capital equipment performance

Avante Health Solutions
GE Giraffe OmniBed
Protects from heat loss while the bi-directional airflow maintains thermal stability.
Infant receives uniform heat regardless of position.
Radiant warmer provides consistent heat in any position.
No need to transfer patient from incubator to infant warmer.
360° rotating patient mattress.
Full-featured incubator and a radiant warmer in one
Web ID 1555

Air-Shields C-2000
Bi-directional air flow for consistent heating and humidifying.
Optional Dual Access Door – Allow access from either side, expediting care.
Large mattress and dual probes allow for simultaneous care of twins in the same unit.
Web ID 1005

GE Panda iRes
Nuisance alarms eliminated for a quiet and stress free environment.
Integrated resuscitation with minimal setup in the event of high risk deliveries.
Unique, hourglass heat profile keeps heat away from the caregiver while providing uniform coverage across the mattress.
Web ID 11949

Avante Envoy FM
Central station for fetal/maternal monitors.
Provides continuous trace values and displays all measurement values for the fetus and mother.
Provides audio and visual alerts, making doctors and nurses immediately aware of critical events.
Saves time and effort with a user-friendly interface.
Central station manages up to 32 fetal/maternal monitors at once
Web ID 1241

Avanta Compact FM
Dual fetal heart rate and TOCO monitoring.
10.2” folding color wide-screen.
Multi-crystal pulsed wave transducer.
Web ID 1193

Avanta Compact II
5.5” folding graphics display screen with large, easy-to-read numerals and waveforms.
Backup memory for seamless monitoring.
Web ID 1616

Avante Crystal 4PX
Next generation imaging and software.
High resolution color LCD screen.
Lightweight mobile design.
Easy-to-use patient management system for storing DICOM files.
Web ID 1630

Dräger Babytherm
smartSWIVEL mechanism focuses radiant warmth on infant.
Web ID 1002

Dräger Resuscitare
Precise gas delivery prevents respiratory complications in neonates.
Web ID 1431

GE Corometrics 250cx
Comprehensive perinatal monitoring needed during labor and delivery.
ChartLight with backlit keys and dimmable display.
Web ID 11788

GE Corometrics 171/172
Monitors external uterine activity.
Highly portable unit at just 8lbs.
Dual ultrasound capabilities for twins pregnancies
Web ID 1681

GE Logiq Book
Full ultrasound capabilities in a 10-pound, hand-carried, battery-powered scanner.
Web ID 1081

Stryker Laparoscopy Tower

Customizable, all-in-one units for the visualization and documentation of laparoscopy procedures

Available with a mobile cart (like the one shown at left) and essential laparoscopy components. Also gives you capacity for arthroscopy and other rigid endoscopy procedures.

Web ID 11723

Stryker 1488 HD

HD 3-chip camera with 9 surgical specialty settings designed to provide a clear, bright image.

Web ID 14357

Stryker L9000

400-watt LED bulbs delivers bright, crisp light and long life expectancy

Web ID 14358

Olympus EVIS EXERA III

Provides state of the art imaging quality and user-friendly features

Pre-freeze function automatically buffers a continuous, rapid series of procedural images and saves the sharpest renderings, saving time and frustration.

Advanced compression technology allows extended recording time.

Web ID 11940

Olympus CLV-180

Olympus CV-180

Olympus GIF-XP160 Video Gastroscope

5.9 mm insertion tube

Large, sharp images

Olympus GIF-N180 Video Gastroscope

Avante Compass LED Surgical Microscope

Combination of classic aesthetic and modern technology

0-180° Inclinable Binocular

This ergonomic feature allows for comfortable and exact microscope positioning.

High Quality Lens

German Optical Glass, high resolution, real 3D precise image reproduction, large depth of field, wide field of view, and good contrast

6-Step Magnification

Provides a larger magnifying range and more selection on magnification to meet the requirement of your practice.

Integrated LED light source

Provides long-lasting, pure white color light.

MOUNTING OPTIONS:

- Ceiling
- Wall
- Fixed stand
- Table top clamp
- Floor mount

Avante InView HD

Video laryngoscope ideal for a wide range of applications: ICU, Cardiology, Emergency and Ambulance.

Lightweight and ergonomic design weighs less than 1 pound.

3.5” display provides high-performance visualization capabilities for every intubation.

Low-cost disposable blades gives you huge savings.

Battery life lasts approximately 200 minutes.

Video display rotates 180 degrees, as well as up and down.

Portable and ergonomically designed

Web ID 11910

Designed to provide an excellent view of the glottic opening and improve the success of tracheal intubation.

www.avantehs.com • 1-800-979-6142
Physio-Control Lifepak 20
Lifepak 20 has 7 main operating modes.
AC line operated device with an internal battery as backup.
Fully featured defibrillator/monitor (pacing and SpO2).
5.58 kg (12.3 lbs).
Displays a minimum of 4 seconds of ECG and alphanumerics for values, device instructions or prompts. Option to display 1 additional waveform.
Web ID 950

We test, touch up, replace, and restore these units to manufacturer specifications and offer a great value on recent technology.

Philips HeartStart XL
A combination of manual defibrillation and automated external defibrillator capabilities.
Enables the first caregiver on the scene, whether an ACLS or BLS clinician, to deliver lifesaving defibrillation therapy.
Web ID 789

SMART Biphasic Technology
Clinically proven superior to high-energy, monophasic waveforms for efficacy and for minimizing post-defibrillation heart dysfunction.
Quick Charging
Charges to highest energy level, 200 Joules, in less than 3 seconds.

Zoll M Series
Lightweight for easy handling – the built-in AC power/battery charger does not add size or weight.
Zoll Uniform Operating System features consistent, straight-forward controls; and intuitive menus lessen training costs, minimize operator confusion, and reduce the chance of error.
Zoll’s proprietary Rectilinear Biphasic low-energy waveform.
Web ID 601

Physio-Control Lifepak 12
Component-based and upgradable system is designed for long-term use.
Standard paddles, pediatric paddles, and/or sterilizable internal and external paddles available.
Compact and portable defibrillator/monitor
Web ID 738

Physio-Control Lifepak 15
CPR Metronome uses audible prompts to guide you without distracting vocal critique.
Noninvasive Pacing (Demand & Non-Demand).
3-Lead ECG Monitoring.
Manual & AED External Defibrillation.
Advanced monitor/defibrillators for EMS and hospitals
Web ID 1567

Zoll E Series
Patient Connection:
3-lead, 5-lead or 12-lead ECG cable, paddles or MFE pads, selectable by front panel switch.
Web ID 1566

Zoll R Series
Pacing, end-tidal CO2, non-invasive blood pressure, and SpO2 monitoring capabilities.
Cost-effective advanced resuscitation
Web ID 1605

Zoll AED Plus
Gives even infrequent rescuers the confidence they need to help save lives.
Simple audio prompts and pictures reinforce every step in the resuscitation process.
Real CPR Help with instant feedback on rate and depth of compressions.
Easy-to-use CPR-D-padz for fast, accurate placement.
Step-by-step support for the entire chain of survival
Web ID 499

www.avantehs.com • 1-800-979-6142
Valleylab Force FX-C
For monopolar and bipolar procedures.
Power for cutting, desiccating, and fulgurating tissues.
Instant Response™ technology ensures that the power delivered remains virtually constant, regardless of the tissue type.
A smoother cut through all tissue types
Web ID 739

Valleylab Force Triad
Provides surgeons with one generator for electrosurgical and tissue fusion needs
All-in-one unit is compatible with common electrosurgical instruments and all current and new LigaSure instruments.
Fusion cycles are faster than the original LigaSure vessel sealing generator.
Easy-to-use touch screen setup.
Reduces demands on staff during procedures.
Automatic instrument recognition.
Quick and efficient power and mode adjustments from within the sterile field for shorter procedures.
Advanced LigaSure tissue fusion technology permanently fuses up to 7mm vessels, lymphatics, tissue bundles, and pulmonary vasculature.
Web ID 1371

Bovie Smoke Shark II
35-hour filter combines filtration in one casing, keeping cost down and minimizing waste.
Filter captures particles down to 0.01m with 99.99995% efficiency.
24 ounces of carbon for superior odor elimination.
Quiet, effective smoke evacuation
Web ID 1631

Bovie Derm 101
10-watt high frequency monopolar desiccator to perform in-office, minor skin-related procedures.
Bright LED display for clear readings anywhere in the procedure suite.
Web ID 1628

Valleylab FT10
Move through procedures more efficiently
Used for monopolar and bipolar applications.
Smart TissueFect tissue sensing technology reads tissue composition in real time.
7 inch LCD touchscreen.
Up to 50% faster sealing times.
Web ID 13836

Valleylab Ligasure
A sealing system that provides permanent vessel occlusion
Revolutionary technology replaces almost all other hemostatic tools – it actually fuses vessel walls to create a permanent seal.
Two digital seven-segment displays.
Web ID 952

Bovie Derm 942
Digital desiccator with 40 watts of power.
Power dial is adjustable within 1/10th watt increments.
Web ID 11915

Optional durable cart available

www.avantehs.com • 1-800-979-6142
**Ohmeda 1251**
Offers dual modes to provide the option of an intermittent mode for nasogastric drainage and a continuous mode for tracheal, pharyngeal or surgical suctioning.

The unique, patented unilogic module provides a reliable, quiet means of cycling the regulator on and off during intermittent suctioning.

Fully adjustable timing cycles (3 to 30 seconds), On and Off independently adjustable.

Durable design and construction with few mechanical parts.

Web ID 17190

---

**Ohio Push-To-Set 1224**
Features the unique, patented Push-To-Set function, which provides a reliable means of setting the regulator for proper suctioning.

Provides regulated, continuous suction for tracheal and pharyngeal airway man-management, surgical procedures, and continuous nasogastric drainage.

Bright glow-in-the-dark gauge increments and needle.

Small, sleek design for tight spaces.

Instantaneous MAX Vacuum mode.

Web ID 17188

---

**Gentec 881VR-300**
Provides both continuous regulated suction and intermittent regulated suction.

Available in three regulated vacuum ranges: 0-160, 0-200, and 0-300 mmHg.

Features a dual scale mmHg and kPa, 2-1/2” in diameter, glow-in-the-dark gauge.

Has reinforced inlet and outlet ports to prevent breakage.

Web ID 17205

---

**Philips M1019A G5**
Automatically identifies agents, and features mized agent measurement capability.

A fast oxygen measurement based on advanced paramagnetic technology is standard with the G5.

Durable, compact, and easy to maintain

Web ID 1589

---

**Philips M1026B**
Uses infrared absorption technology to measure the five most commonly used anesthetic gases, plus N₂O and CO₂.

Oxygen is measured using a paramagnetic technique.

Automatic identification of anesthetic agents

Web ID 17191

---

**GE SAM**
Provides analysis of respiratory and anesthetic gases when used in conjunction with GE patient monitors.

This compact module provides CO₂ waveforms, and automatically identifies anesthetic agents and quantification.

Web ID 17204

---

**Bird Small Block Oxygen Blender**
Perfect for air, ground, and in-house transports as well as infant applications.

The Low Flow Blender features a flow range of 3-30 L/min with no gas bleed flow, or 0-30 L/min with a minimal 2.5-3.5 L/min gas bleed flow.

Web ID 17189

---

**Avante offers complete services on large and small block blenders.**
**Puritan Bennett 840**

High-performance pneumatics, dual-microprocessor electronics and DualView™ touchscreens.

Supports communication with patient monitoring and information systems, and provides seamless electronic data transfer to a patient’s medical record.

Enhanced non-invasive ventilation (NIV): improves comfort for patients and performance for clinicians.

Delivers sensitive, precise breaths to critically ill neonatal, pediatric and adult patients

Web ID 545

---

**Pulmonetic LTV Series**

Ventilator pre-sets allow for the quick set-up of new patients. Automatically configures the initial ventilation settings for infant, pediatric or adult patients.

Intuitive interface features color-coded controls and alarms.

Invasive and Non-invasive modes of ventilation for patients as small as 5kg.

Features an innovative Spontaneous Breathing Trial.

Ease of use and versatility help ensure optimal patient care in clinical settings

Web ID 1130

Visit avantehs.com/medical for more LTV Series ventilators

---

**Siemens Servo-i**

Flexible ventilator is adaptable for all patient categories.

4 configurations are available: SERVO-i Infant, SERVO-i Adult and 2 editions of SERVO-i Universal.

SERVO-i supports both invasive and non-invasive ventilation.

Ease of training, operation and maintenance as well as flexibility and modularity ensures a low life cycle cost.

High performance, mobile, cost-effective respiratory system

Web ID 943

---

**Respironics Trilogy 100**

Intuitive interface combines ease of use with access to high levels of versatility and performance during hospital titration or home use.

Offers up to 6 to 8 hours battery capacity for continuous use.

Designed for versatility

Web ID 11729

---

**Puritan Bennett 980**

Engineered to help patients breathe more naturally

Versatile respiratory ventilator offers non-invasive SIMV and CPAP.

Tube compensation accurately overcomes the work of breathing imposed by the artificial airway.

Standby mode pauses ventilation and maintains settings while the patient is disconnected and auto-detects reconnection.

Networking capabilities allow interfacing with existing EMR systems.

Web ID 11905

---

**Philips Respironics V60**

Non-Invasive ventilation with an interactive display.

Baxter Sigma Spectrum
Lightweight and compact pump with bright color screen and lithium-ion battery pack. Replacement battery modules available.
EMR Integration and Quick-Search MDL Access.
Safety features include: titration error prevention, check flow information alerts, automatic MDL updates.
Quick search drug libraries assist is easy set-up of infusion.
Standard IV administration set compatible.
Web ID 1627

Medfusion 3500
Programmable dose limits.
Rapid occlusion detection; Post-occlusion bolus reduction.
Up to 10 hours internal battery capacity.
Accepts all syringe sizes cc - 60cc.
Mounts easily to an IV pole, an infant’s islet or radiant warmer and rotation capabilities.
Connectivity with Patient Data Management Systems.
Web ID 1017

Medfusion 4000
Safe for use with patients in pediatric and neonatal intensive care units, adult critical care units and in the operating room.
Proprietary smart pump technology encourages the use of configurable drug libraries, more reliable than traditional infusion methods.
Smart pump technology allows clinicians to identify problems and trends in infusion delivery.
Accurate delivery at +/- 2% for 0.01 mL/hr to 1130 mL/hr flow rates.
Delivers safe, accurate medication delivery in a variety of clinical settings
Web ID 13805

Shop online for 30,000+ Products from the Brands You Trust. Masks, Airways, Oxygen Cells, Table Pads, Bougies and more.

GAS SYSTEMS

SUPERIOR OUTLETS
Double O-ring seal that doesn't deform and leak when weight is added to the outlet front. Outlet is capable of supporting 10 lbs. at 2" without leaking. Outlets incorporate protective vinyl labels that are durable and scratch resistant.

GAS DELIVERY MANAGEMENT
Headwalls, consoles and rail systems
Gas outlets, manifolds and air compressors, alarm systems and pressure switches
Fittings and hose assemblies
Emergency oxygen inlet box
Nitrogen control panel and conversion kits
Flowmeters and accessories
Check, relief and ball valves, and zone valve boxes

AUTO SWITCH MANIFOLD
Ideal for applications requiring automatic switching of cylinders or banks of cylinders.

MEDICAL ZONE VALVE BOXES
Incorporate dual ported valves. May be piped from left to right or right to left. The installation and pipeline design have been simplified, which can save time and money for the contractor and facility.
Avante Health Solutions is your source for Precision Certified linear and accelerators and CT systems worldwide. We are the world’s largest supplier of re-certified linear accelerators, and our equipment is being used in more than 30 countries on six continents. We welcome the opportunity to provide our high-quality, low cost oncology equipment to more cancer centers throughout the world.

While Avante’s service saves you money, our uptime guarantee ensures that your qualified radiation therapy equipment will be up, running and generating income. It’s a combination of benefits that ensures both a better return of your equipment investment and reliable, accurate therapy for your patients.

The Ultimate Combination of Performance & Economy

Avante professionally serviced linear accelerators and CT simulators provide the performance and reliability of a new model, while maintaining a lower price point. When choosing Avante, you also benefit from professional installation and an iron-clad warranty backed by the best independent service organization in the industry.

Nobody sells more refurbished linear accelerators or has a larger inventory of radiation oncology devices, including:

- Linear Accelerators with IMRT/IGRT delivery capabilities
- CT Simulators
- Record and Verify Systems
- Treatment Planning Systems
- MV Imaging Upgrades
- MLC Upgrades
