

DRE Milano D440

Surgical Procedure Chair

Sleek, multi-functional procedure chair with a small footprint

The DRE Milano D440 is a highly versatile procedure chair perfect for dentistry, dental procedures, implantology, orthodontics, ENT examinations, diagnostics and minor surgeries. Using the handset remote or foot controls, operators can adjust the height, backrest angle, leg rest angle and Trendelenburg positioning.

The Milano D440 comes standard with 180° chair rotation, medical accessories guides and is available in a variety of colors. For more information on the Milano D440 Procedure Chair, contact a DRE representative today.
