

Fully electric multi-function chair

The Mediconcept is a multi-specialty chair that is adept in many theaters. Three motors allow independent movement of the seat and backrest. Using the multi-function foot pedal, you can set and recall up to three different positions, including Trendelenburg. Ability to rotate 85 degrees to the left and right allows for greater accessibility.

Features:

- Fully electric table with 3 actuators and standard foot pedal control
- Multi-function foot pedal with 3 position memory including the Trendelenburg position
- 85 degree rotation to the right and left
- Padded and independent armrests
- Available in 110 and 220 V configurations
- The standard configuration includes an anatomic mattress, and removable headrest

Specifications:

Power supply tension	230V - 50Hz
Motor tension	24V
Linak motor low tension	24Vdc
Motor lifting push	6000 N
Seat motor push	6000 N
Lift capacity	200kg/440lbs
Absorbed power	120VA
Chair weight	120kg/264lbs
Base cover length	800mm/31.5in
Legrest max height	1250mm/49.2in
