Create a realistic medical environment with Medical Equipment from DRE

Give your students hands-on training with our complete line of simulation-configured medical equipment

Cost Effective Solutions for
Operating Rooms | Exam Rooms
Birthing Suites | Perioperative Care | EMS

 **DRE**
An **Avante** | Health Solutions Company

Help your students become practice-ready with affordable medical equipment from DRE

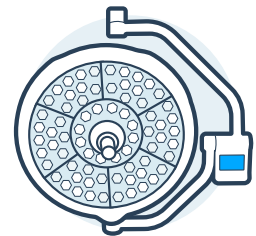

For more than 30 years, educational facilities have purchased medical from DRE to create realistic simulation environments. Our wide range of equipment is economically priced, and can fit the budget of nearly any teaching institution.

Trust our dependable new and refurbished medical equipment to provide valuable hands-on experience, helping prepare students for careers in hospitals, physician's offices, rest care facilities, and surgery centers.

Give us a call at **1-800-979-1635** to discuss the needs of your medical teaching program. Together, we can determine the equipment that will provide the best possible training to your students.

Choose the refurbishing level that best fits your program.

COSMETIC REFURBISHED

A low-cost option, we refurbish the exterior of the equipment to look like new.

REFURBISHED FOR SIMULATIONS

Equipment is refurbished to a level needed for your specific use, leaving out refurbishing elements that may be costly but not impact the desired performance.

CERTIFIED REFURBISHED

We refurbish equipment to manufacturer specifications, with all the features found in real world medical environments.
