

## Medical Simulation Equipment Checklist

Are you setting up a new medical simulation suite for your educational facility? Make sure your students have the simulation-configured equipment they need to get the hands-on training they need. Here's a basic list of equipment for operating room, exam room, birthing suite, perioperative care, and EMS simulations.

### Operating Room Simulation Equipment

- Anesthesia Machine
- Endoscopy Tower
- Syringe Pump
- Surgery Table
- Surgical Tourniquet
- Anesthesia Monitor
- Electrosurgical Unit
- Surgical Light
- Stainless Steel Furniture & Accessories

### Exam Room Simulation Equipment

- Medical Exam Table
- Medical Cabinetry
- Medical Stool
- Side Chair
- LED Examination Light

### EMS Simulation Equipment

- Defibrillators
- Infusion Pump
- Video Laryngoscope

### Perioperative Care Simulation Equipment

- Patient Monitor
- Privacy Screen
- Hospital Bed
- Diagnostic System
- Medical Furniture
- Infusion Pump
- Vital Signs Monitor
- ECG System
- Headwall Simulation System
- Crash Cart

### Respiratory Therapy Simulation Equipment

- Respiratory Ventilators

### Birthing Suite Simulation Equipment

- Fetal Monitor
- Infant Warmer
- Infant Incubator
- Infant Bassinet and Frame
- Infant Crib
- Infant Ventilator
