

Let's Create Better Outcomes Together

Pagaya is building a leading artificial intelligence network to help our partners grow their customer ecosystem and deliver better outcomes

Our partners leverage the collective intelligence of Pagaya's AI and data infrastructure, operating in the background of their existing application process via a simple API, to produce a more precise evaluation of their customer applications in real-time.

Grow Revenue

Generate a new non-interest fee income stream

Reduce customer acquisition costs

Improve Capital Efficiency

Pagaya manages the credit risk and capital requirements

Partner maintains the customer relationship

Acquire More Customers

Grow and protect market share

Increase customer life-time value via cross-sell

Drive Customer Satisfaction
