## Israel's Tech Ecosystem at Your Fingertips

Providing accurate, up-to-date, searchable information on more than 6,500 of Israel's innovative companies, Start-Up Nation Finder is the place to go for anyone wanting to learn about exciting innovations and developments in Israel's highly-developed and rapidly expanding tech ecosystem. Whether you are interested in manufacturing, digital health, AgriTech, FinTech or any other tech sector, our dedicated team of researchers and information specialists meet and talk to the main movers and shakers in each industry and maintain up-to-the-minute, relevant data. And it doesn't stop there - our team is constantly refreshing the data and assuring that you receive the most current and relevant information.

As part of our ongoing effort to bring you a complete picture of the ecosystem, we also monitor the activity of investors, multinational R&D centers, innovation labs, accelerators, incubators, hubs, Tech communities, and co-working spaces operating in Israel. We also provide a window into new technologies available for commercialization in Israeli Universities and hospital Tech Transfer Offices (TTOs).

## Cut Your Research Time

Quickly and easily locate the information you need using Finder's intuitive search engine. Save, download, or email lists of companies that interest you the most to facilitate and shorten your research process. Instantly understand current trends in the Israeli ecosystem with our easy-to-use dashboard continuously updated with information about recent deals and investments, funding rounds, newly-founded companies, and more.

## Get Connected!

Finder allows you to request an introduction to any listed company. All introduction requests are reviewed by our staff and, wherever relevant, relayed to the company.

## Who Can Benefit from Finder?

**Investors** - filter-down the list of companies you want to connect with, perform relevant research, make contacts and do the early groundwork necessary to secure the best deal flow. Most importantly, use Finder to make **educated, data-driven investment decisions**.

**Corporations** - tackle your business challenges by finding new technologies and innovations that address these issues. Scout out disruptive technologies that will help you maintain your competitive edge.

**Startups & other companies** - showcase your innovations, projects, and activities to innovation hunters, potential investors, and future partners. To date, hundreds of successful startup-investor partnerships have been secured through connections initiated via Finder. You may have the opportunity to be featured in one of our analyst industry reports or be invited to present to one of many international corporate delegations we host each year.

**Other entities** - government representatives, analysts, or anyone else looking for in-depth information about the Israeli ecosystem can use Finder to conduct research and identify trends across the startup scene.

## What our users are saying

“

“When looking for a disruptive innovation or a solution to a new corporate challenge in the Israeli innovation ecosystem, the SNC Finder is my go-to source of information. It enables you to do a quick search based on the specific category you are looking for, prepare a short list of startups to contact, and can lead to a partnership, JDA or pilot. It’s been a great resource for us.”

**Gil Horsky Director of Innovation SnackFutures, Mondelez International**

“

“Finder is a powerful tool for us at all stages of the investment process from conducting market research to performing competitor analysis in the Israeli market. Finder’s intuitive tagging system is key in helping us filter through all the data and get the information we need”

**Avigail Levin, Head Of Marketing, Samsung Next**

## About Start-Up Nation Central

Start-Up Nation Central is an independent nonprofit that builds bridges to Israeli innovation. We connect business, government, and NGO leaders around the world to Israeli innovation; we help develop technological sectors with high-growth potential; and we accumulate knowledge and generate in-depth insights about Israel’s innovation sector.
