# 1. INFORMATION OF COMPANY

<b>NAME</b>	<b>THE WON LIVING CO., LTD.</b>	<b>PRESIDENT</b>	<b>WON-BAE LEE</b>
<b>BUSINESS</b>	<b>MANUFACTURING</b>	<b>MAIN PRODUCT</b>	<b>Warming Plate, Cooker, Air Purifier</b>
<b>ADDRESS</b>	<b>#1503, 95 Gasan digital 2 Ro, Kumcheon-gu, Seoul, Korea</b>		
<b>Homepage</b>	<b>www.thewonlv.co.kr</b>	<b>E-mail</b>	<b>wblee21@naver.com</b>
<b>TEL</b>	<b>82-2-848-5570</b>		

## 2. HISTORY OF COMPANY

- OCT. 2018: Establishment of company
- AUG. 2019: Obtaining **PSE(JAPAN)** of Electric Appliances Safety Certificate for AC 100V type HOTTOP
- SEP. 2019: HOTTOP, **Export to JAPAN**
- JAN. 2020: **SMART HOTTOP**, **Developed**
- FEB. 2020: **Air Purifier** for Indoor , **Developed**
- APR. 2020: HOTTOP, obtaining **CE mark** for Europe
- Aug. 2020: : HOTTOP, obtaining **NRTL mark** for U.S.A. & CANADA
- FEB, 2021: **HOTTOP BIEN WARMER**, producing & selling, obtained PSE, CE
- MAR 2022: HOTTOP SENS WARMER, obtained PSE, FCC, NRTL, CE
- DEC 2022: AIR PURIFIER, obtained FCC, CE, PSE(ADAPTER), KC

# 3. ITEM of BUSINESS

## 1) AIR PURIFIER

**Three major indoor pollutants!**

⚠️ KITCHEN SMELL & SMOKE | INTERIOR PAINT ODOR | PET SECRECTIONS ⚠️

SSOK has a built-in rotating air suction device to quickly remove indoor pollutants!

Model	TW-SSOK-24V-3822
Size	380mm in height * 220mm in diameter
Weight	2.6 Kg(including filter)
Power supply method	Adapter DC 24V 1A
Power Consumption	24W
Air volume	200 m <sup>3</sup> /Hr
Area of use	16.5 m <sup>2</sup>
HEPA filter set	Replace every 6 months
Adsorption filter	Replace every month

Whirlwind SSOK air purifier  
Good to put in a place like this!

- Near the kitchen
- Near pets
- Near study room
- Near the baby room
- Near parents' room
- Near private office space

**SSOK Air Purifier**

**1 It sucks up quickly!**  
A tornado air purifier is a rotating body that causes a swirl wind. It is built into the air intake port and causes fluid vortex flow. Pollution sources are removed by inducing and inhaling pollutants from a distance. It sucks in quickly.

**2 Contaminants are reliably removed!**  
SSOK Air Purifier removes liquid contaminants, harmful gases with fine dust by three steps SSOK filtering system.

**3 Excellent performance!**  
SSOK Air Purifier make clean whole space with using swirl wind technology. By three steps filtering system most pollutants are removed.

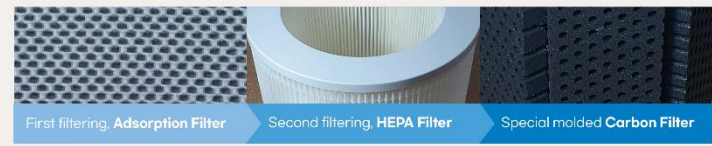

**General Air Purifier**

**1 Inhale the air around the air purifier.**  
Due to its structural limitation, it sucks in the air around the air purifier and sends the purified air away. At this time, the exhausted air acts as the wind and spreads the polluted air more quickly.

**2 It rather spreads the polluted air.**  
If a general air purifier is placed near a kitchen or pet where pollutants are generated, it is more likely that the pollutant will spread throughout the space due to the strong exhaust air.

**3 A limit to removing bad smells or gases.**  
SSOK Air Purifier make clean whole space with using swirl wind technology. By three steps filtering system most pollutants are removed.

SSOK reliably removes contaminants with a three-stage filter system.

Most pollutants contain moisture. So as first step, adsorption filter remove moisture components and large particles.

The HEPA filter is made in Korea and more than 13 grade. The HEPA Filter removes 99.97% of fine dust more than 0.3µm size.

As special molded carbon filter have a lot of adsorption area, it removes contaminants gases or odors with excellent performance and can be used for a long time.

# 3. ITEM of BUSINESS

## 2) HOTTOP(Mug Warmer)

••• **Warmer** for maintaining around 60 °C water temperature of mug or teapot

- No needed electro-magnetic wave! No boiling!
- Cold water to be warm water on 'HOTTOP'
- Have enjoy yourself a warm food with 'HOTTOP'
- Low energy, high safety

Mug

Teapot

Dishes

# 3. ITEM of BUSINESS

## 3) HOTTOP BIEN

WARMER for Drinking, Food, Baby, Wax, Aroma

### THE WARMTH

KEEP + ENJOY + SHARE

화이트\_White      민트\_Mint      블랙\_Black

**HOTTOP BIEN is a WARMER!**

- Keeping temperature
- Two kinds of temperature control (60°C, 80°C)
- No electromagnetic wave! Just 48watt, low energy consumption!

# 3. ITEM of BUSINESS

## 4) HOTTOP SENS

... A equipment for warming & heating with low energy consumption at a kitchen or restaurant

### Features and advantages

#### Temperature control

Depending on the type or amount of food or beverage, the temperature can be controlled by dividing it into 1st, 2nd, and 3rd level. You can select it with a touch-type power switch.

#### Safety function by container detection sensor

If you do not place a container on a metal hot plate, HOTTOP SENS does not heat up because the power switch does not work. If you put a container on it and remove the container after use, the heating power is automatically cut off, so you don't have to operate a separate power-off switch.

#### Timer function

HOTTOP SENS can be used for 2hours, 4hours, 8hours and continuous by the timer touch switch. After the set time elapses, the heating power is cut off.

#### Applied food by temperature

1st LEVEL (around 60°C)  
Drinks

2nd LEVEL (around 80°C)  
Steamed or stir-fried dishes

3rd LEVEL (around 100°C)  
Stew, Soup

### Specifications

Model	HT-SENS-AC120
Size	Width 200mm X Length 220mm X Height 32mm
Power code	120VAC Power code
Input Power	120VAC, 60Hz, 98W
Power control (temperature)	1 <sup>st</sup> Step : around 60°C 2 <sup>nd</sup> Step : around 80°C 3 <sup>rd</sup> Step : around 100°C
Timer	2Hr / 4Hr / 8Hr / Continuous

Available materials : Metal [Stainless steel, aluminum etc], porcelain, and heat-resistant glass.  
(But combustible materials such as plastic, rubber, paper are excluded)

\*The most suitable type of container to use on a metal heating plate is one with a flat bottom and not exceeding the size of the metal heating plate.

### Applications

Drinks [1st Step / 2nd Step]

Stir-fried dishes [1st Step / 2nd Step]

Stew / Soup [3rd Step]

### 3. ITEM of BUSINESS

#### 5) CAR^HOTTOP(Mug Warmer)

▶▶CAR^HOTTOP is an WARMER for paper cup or can with coffee or tea when we drive in a car.

- ▶ Applications : In-car
- ▶ Spec.: 12V 2A with cigar jack power line
- ▶ Features :
  - Keeping coffee or tea warmly
  - for a paper cup or metal can with coffee & tea and baby bottle
  - Low energy less than 24W
  - Make a cold water warm around 50 °C
