Our Portfolio

Company Formation

Like every country in the world, Austria has its own peculiarities when it comes to founding companies and setting up corporations. Fortunately, Austria has a very stable and predictable legal framework. We will be happy to take care of the necessary applications and administrative procedures for you.

Registration

From a sole proprietorship to setting up a GmbH or a joint-stock company: The choice of legal form must be tailored to the purpose of the company. We advise you on the pros and cons of the Austrian company forms.

Work Permits and Sales Support

It is not always easy to deploy your own staff in foreign countries. We support you both in applying for work permits and, by request, with employees who will present your products and services to potential customers in Austria.

Location

Office space or warehouse? City center or motorway access? Your company is unique and requires a special infrastructure. We will find suitable business premises for you.

Authorities

We know about the peculiarities of dealing with all the authorities involved and provide you with the best possible support for your requirements.

Bank Account Opening

Not every bank is suitable for opening bank accounts for companies from third countries. We support you in opening an account and prepare the contracts.

Residence

Your company is established in Austria and you have come to appreciate and love our country? We look forward to support you in finding a suitable home for you!

Why Austria?

The Heart of Europe

Austria combines many characteristics of Europe in one single, small country:

With the cosmopolitan city of Vienna, Austria has a pivotal point both to the north and south as well as to the eastern countries. The south of Austria is characterized by Mediterranean flair and unspoilt nature.

With its world-famous festival, Salzburg is the center of culture every year! The west of Austria is partly high alpine and the scene of the world's most exciting ski competitions.

Economically and politically stable

Since the middle of the last century a stable democracy was established in Austria, which has endured to this day. Austria has been a neutral, safe venue for talks on world politics on several occasions.

With a low crime rate and a lawful and predictable administration, Austria offers the best location for doing business in Europe.

Btw: „The Economist“ ranked Vienna in 2022 in first place world-wide in terms of quality of life, again!

§ Did you know, that ...?

Each country has its own peculiarities in terms of documents, employment and legal regulations. Here are some Austrian peculiarities:

Documents:

In order for a work permit to be issued, foreign certificates must be translated into German, usually. This may only be done by sworn interpreters.

Visa D:

A work visa „D“ is not sufficient to start work. A work permit from the Labor Market Service is also required.

Wages and salaries:

The level of wages and salaries cannot be determined freely. Statutory minimum wages must be taken into account. In a normal employment relationship, wages and salaries are to be paid 14 times a year.

Business Manager:

In Austria, special provisions apply to managing directors who comply with the trade regulations. For example, the managing director's place of residence must be close to the company.

Of course, there are many more.
We guide you through all circumstances!
