- 📊 Elektronik & hightech
- 🍷 Food & beverage
- 🧵 Textile & fashion
- 🚚 Logistics & transportation
- 🌱 Environment & recycling industry
- 🤝 Service

Not covered: Chemicals & pharmaceuticals

Our vision – our mission

Our strength is our passion for success – our priority are our customers!

Our aim is to work together on your company's success. Using existing resources, we create practicable, effective solutions and optimizations regarding the conflict between price – performance – quality.

From the strategic analysis of the current situation to the implementation of the developed concept and the complete achievement of the project objectives, our consultants provide active support.

Your vision becomes our mission!

Consulting focus

We advise you right from the planning and conception phase of your projects, but also strategically in relation to the company and find the tools and solutions that exactly match your needs.

- ☑ Process optimization & increased efficiency
- ☑ Cost reduction & lean Management
- ☑ Supply Chain & logistic optimization
- ☑ Production & factory planning
- ☑ Digitalization & industry 4.0
- ☑ Quality management & certifications
- ☑ Interim management & change management
- ☑ Energy & sustainability management
- ☑ Restructuring & crisis management

TSM Academy - Our training platform

We create sustainability through modern, forward-looking qualification of organizations, consulting and implementation support. As an innovative consulting company, we create competitive superiority through tangible results.

We think strategically and act pragmatically!
