# WHAT IS ESA BIC ANDALUSIA

**ESA BIC Andalusia** is part of the **European Space Agency's network of Business Incubation Centres**, the largest space incubation network in Europe. The programme is dedicated to transforming space-related ideas into successful and competitive businesses.

Based in Andalusia, ESA BIC Andalusia supports startups and entrepreneurs developing innovative solutions by using **space technologies or space-based data**, either for **non-space markets** (downstream applications) or **for the space sector itself** (upstream activities).

ESA BIC Andalusia provides access to ESA's technical expertise, business support, and a dynamic ecosystem of space entrepreneurs, helping startups to accelerate their growth from early-stage development to market readiness.

ESA BIC Andalusia is managed by **CATEC (Centre for Advanced Aerospace Technologies)** and supported by the **European Space Agency (ESA)**, the **Spanish Space Agency (AEE)**, the **Junta de Andalucía**, and the **City of Seville**.

## WHAT WE OFFER

*Startups selected for incubation at ESA BIC Andalusia benefit from a comprehensive support package designed to foster innovation, growth, and internationalisation:*

- **€60,000 in non-dilutive funding**, co-financed by the European Space Agency and the Regional Government of Andalusia
- **Up to 80 hours of technical, business and legal support**, including mentoring, specialised training, IP advisory and investment readiness
- **Up to 24 months of incubation** in a strategic location within the Andalusian and European space ecosystem
- **Access to ESA expertise** and to **CATEC's laboratories and testing facilities**
- **Integration into the ESA BIC European network**, opening doors to international partnerships and visibility

## WHO CAN APPLY

*ESA BIC Andalusia is open to entrepreneurs and startups that:*

- Use **space technologies or space-based data**
- Develop **downstream or upstream** space-related solutions
- Are **less than 5 years old**
- Aim to grow their business in **Andalusia** while accessing the European space ecosystem
