

# MICRO & NANO event

15<sup>th</sup>  
EDITION

01 > 02  
OCT. 2026

## WHY?

- Showcase your proposals, skills, and expertise by clearly setting out the benefits you can offer the sectors you are targeting.
- Find the partners you need to put your projects into practice.
- Find useful technologies or suppliers of innovations:
  - A participant may post several profiles, supported by documents or videos and be both supplier and demander at the same time.
- Enhance your international business, increase your visibility to potential customers, forge partnerships before, during and after the event.

## HOW?

- A single online platform to manage everything: registration, profiles describing your know-how, products, processes, searches for suppliers, customers or technologies.
- A quiet place in a specially reserved area for pre-scheduled meetings.
- Pitches selected for their innovative content (selection before summer 2026).

**THE MICRO & NANO EVENT  
IS THE PLACE TO BE TO SET UP  
NEW PARTNERSHIPS & PROJECTS  
VIA B2B MEETINGS.**

## FOR WHOM?

- All Micronora trade fair exhibitors or visitors looking for or have innovative solutions to offer.

## CONCRETE OUTCOMES FOR PARTICIPANTS

*"Two participations: 1 partnership with a new customer in 2022, a diary filled with appointments in 2024. Attending this event proved to be very fruitful for us from the outset. We SMEs are often short on time and optimising our schedules really means making the most of the time we have. You have to prepare in advance, but it's well worth it. We really can recommend it."*

*"It's easy. Being selected to give a pitch was a real plus for our firm and it gained us a lot of visibility. We plan to take part again."*
