SAFETECH
INNOVATIONS

YOUR TEAM OF
CYBER SECURITY EXPERTS

Company profile

About us

In early 2011, we envisioned a safer cyber environment for companies with deep security needs. We had the knowledge and means to do it, so it was natural to establish the first company dedicated to cyber security in Romania.

For 12 years, Safetech has been providing cyber security services and solutions tailored to the needs of every organization.

"We lay the foundations for a secure digital future, by applying the expertise of the Safetech team and artificial intelligence to protect our customers."

Victor Gânsac,
CEO, Safetech Innovations

What are we doing?

Our expertise in cyber security is what recommends us.

Your trust in our services is what drives us to become better.

Services and solutions

Cybersecurity testing

- Penetration testing
- Code review
- Red Teaming
- Vulnerability management
- Social engineering
- Cyber security training

Governance, Risk and Compliance services

- Security Assessments
- Security Compliance Audits
- Policies & Procedures
- V-CISO
- CISO-on-demand services

Cybersecurity solutions

- Network, Endpoint and Mobile Security
- Identity Assurance
- Web & Digital Asset Security
- Security Management & Automation

Manage, detection & response services (MDR) / SOC Services

- 24/7 Cybersecurity MDR
- Network and Endpoint MDR
- Security-as-a-service
- Incident and Crisis Management

SAFETECH INNOVATIONS

The portfolio of technical solutions

- Network, endpoint, Internet security
- Identity Assurance
- Security of web and digital assets
- Security management and automation

Endpoint, user

- cynet
- STELLAR CYBER
- Bitdefender
- Microsoft Security
- ONE IDENTITY by Quest
- IRONSCALES SAFER TOGETHER
- Phriendly Phishing
- ZIMPERIUM
- HID
- mobileiron Acquired by Ivanti

Perimeter, network

- DARKTRACE
- CHECK POINT
- STELLAR CYBER
- paloalto NETWORKS
- Fidelis Cybersecurity
- CLOUDFLARE
- corero

OT/ICS

- Microsoft Defender for IoT
- Radiflow
- DARKTRACE
- STELLAR CYBER
- OWL Cyber Defense

SOC

- splunk>
- graylog
- STELLAR CYBER
- DARKTRACE
- CQ CYBERQUEST
- Fidelis Cybersecurity
- PICUS
- SAFETECH INNOVATIONS
- RAPID7
- tenable network security

What recommends us?

WE HAVE THE RIGHT PEOPLE,
we know the PROCESSES and
we have expertise in RELEVANT TECHNOLOGIES

What recomments us:

In-house cybersecurity software product research and development team

Completed project:

Integrated Information Security Management System within an Organization (iSAM)

2017-2019, 2,574,967 lei.

Completed project:

Center of Excellence for Cyber Security and Critical Infrastructure Resilience (SafePic)

2020-2023, 26,290,132 lei.

![SAFETECH INNOVATIONS]

What recomments us:

Our Computer Emergency Response Team (CERT)

Safetech's Security Operations Center has been serving clients since 2015 and provides clients with a mature and efficient detection, response and remediation capability designed to deal with cyber threats with 24/7/365 coverage.

Safetech CERT is accredited by Trusted Introducer, the accreditation and certification service established by the European community of Computer Emergency Response Team organizations (www.trusted-introducer.org).

Our Computer Emergency Response Team (CERT)

The center performs:

- Proactive threat and system exposure analysis by interfacing with threat intelligence sources,

- Continuous monitoring and analysis of security events to detect incidents, assess them and quantify risk,

- Automated threat modeling using AI/ML technologies to predict the most likely attack paths,

- Behavioral analysis of systems within the organization's network to detect lateral movements by attackers,

- A comprehensive vulnerability management program using active and passive assessment tactics along with capabilities to identify devices in heterogeneous IT and OT environments,

- In-depth incident investigation by correlating indicators of compromise from multiple sources,

- Risk-based prioritization of risk mitigation recommendations.

Our customers

Safetech has clients from the following economic sectors: utilities, healthcare, insurance, industrial production, retail, public.

Also, seven of the ten largest banks in Romania have chosen Safetech as their cyber security service provider.

The company has over 600 completed projects in the field of security testing and consulting.

Safetech has also been involved in more than 100 critical infrastructure security projects in the United States, Canada, Brazil, Morocco, the European Union, Singapore, the Philippines, India, China and New Zealand.

Our customers

Summary

Safetech has the organization, infrastructure, expertise, experience, credentials and certifications to effectively discover and fix your security issues,

with 24h/7d coverage and fast response guaranteed with Service Level Objective,

as well as to recommend to you the necessary long-term actions to maintain the targeted level of cyber security,

thereby allowing your organization to focus on its business objectives.

Safetech's specialized cyber security services reduce your costs and increase your operational efficiency.

Outsourcing security operations to Safetech reduces the burden on internal teams and ensures compliance with your organization's compliance requirements.

We are at your disposal with additional information about our services, practical demonstrations, technical evaluations or personalized price offers.

Thank you!
