Organisation type: Professional self-government / healthcare innovation community

Contact person: Małgorzata Wywrot

Role: Health Innovation Programs Manager NIL IN

Website: nilin.org.pl

Contact: innowacje@nil.org.pl

NIL IN - Community of Physician Innovators

We connect doctors, healthcare structures and innovation partners

NIL IN is an initiative of the Polish Chamber of Physicians and Dentists, created for doctors and healthcare leaders who want to shape the future of medicine.

We bring together medical professionals, public institutions, technology partners and innovation experts to support solutions that respond to real needs in healthcare.

Our focus areas:

- digital health
- AI in healthcare
- medical data and interoperability
- cybersecurity and patient safety
- implementation of innovation in clinical practice
- education and trust-building among physicians

Our role in the innovation ecosystem

Your bridge to real-world healthcare implementation in Poland

If you are looking for the right area to implement innovative health solutions in Poland, NIL IN can be your first point of contact.

We act as a connector between healthcare structures and physicians. We help partners understand how the Polish healthcare system works in practice, what doctors actually need and where innovation can bring real value.

What we bring:

- access to the physicians' perspective
- understanding of clinical workflows and implementation barriers
- identification of real medical needs and use cases
- engagement of medical experts for consultation and validation
- support in building trust between innovators and healthcare professionals
- dissemination and education within the medical community

Key message:

We help make health innovation clinically relevant, trusted and ready for adoption.

Areas for collaboration

We are interested in projects that combine technology with practical value for doctors, patients and healthcare organisations.

Areas of interest:

- trustworthy AI and decision-support tools for clinicians
- digital tools improving clinical workflows
- safe and effective use of medical data
- interoperability and European Health Data Space readiness
- cybersecurity in healthcare
- patient safety and quality of care
- tools supporting doctor-patient communication
- implementation models for hospitals and outpatient care

Relevant programmes:

- Horizon Europe Cluster 1: Health
- Horizon Europe Cluster 4: Digital, Industry and Space
- EIT Health
- European Partnerships and other international calls

Let's collaborate

Looking for a partner to implement health innovation in Poland? Let's talk.

NIL IN can support international partners in exploring, validating and implementing innovative health solutions in Poland.

We can help you:

- identify relevant implementation areas
- understand clinical and organisational needs
- connect with physicians and medical experts
- consult and validate use cases
- assess barriers to adoption
- build trust and engagement among healthcare professionals

Collaboration offer:

If you are developing solutions in digital health, AI, medical data, interoperability, cybersecurity, patient safety or new models of care, NIL IN can help you understand where and how they could be implemented in the Polish healthcare system.
