- Janitorial hygiene
- Disinfection

What does this catalogue offer?

What is there to discover?

What do I get to see?

Technology?

Innovation?

Future?

See for yourself.

A product can fascinate, on its own,
however, it remains only an item.

Knowledge.

Curiosity.

Experience.

That allows a product to take effect – in the
interaction from person to person.
Operation is intuitive.

Service.

Stance.

Consultation.

This ensures complete hygiene.

It's about you and people in your immediate
environment.

Thank you for your trust in the third gener-
ation

Katharina and Stefanie Hagleitner.

About the company

Hagleitner designs hygiene: cleaning, disinfectant and care products, cosmetics – plus dispensers, dosing units and apps. The products are created in Austria in Zell am See. This is where Hagleitner has its headquarters and it is where research, development and production take place. At the same time, the company operates consulting, sales, logistics and training facilities at 27 locations in twelve European countries. Products are also available through partners in 66 countries worldwide. Hagleitner's range of products is geared towards companies and public institutions (with the hagi brand directly aimed at private customers). Hagleitner employs around 1,300 people.

Vision and values

Hagleitner products are made in Austria and meet the utmost quality standards. For the company, however, quality doesn't stop with the finished product, but where it makes its first impact – also by virtue of outstanding service.

Hagleitner is shaping the hygiene world of tomorrow, today. In the spirit of innovation, the company develops hygiene solutions for the future, making sure you are always one step ahead when it comes to hygiene.

To be at the forefront of innovation, you have to be passionate about what you do: improving hygiene every day – that's what spurs Hagleitner on, out of passion and enthusiasm.

Research and knowledge

Hagleitner runs its own chemical laboratory on site. Hagleitner designs future devices on site. Hagleitner creates digital applications on site; hygiene needs to be configurable, and information and knowledge need to be retrievable.

Talking of knowledge: The in-house academy organises training courses and seminars; the offer extends to customers, partners and employees alike.

Family

Hagleitner is firmly in family hands; the company has been operating since 1971. Johann and Katharina Hagleitner first lay the foundation stone. Their son Hans Georg takes up the helm in 1988; his wife Brigitte is a permanent fixture in the company. Hans Georg and Brigitte have two daughters, Katharina and Stefanie. Since April 2025 the two of them have been on the management board, their father Hans Georg initially accompanied them there for one further year. At the end of March 2026, Hans Georg withdrew from his operational role. Katharina and Stefanie are now jointly steering Hagleitner.

Made in Austria

Guarantor of quality and independence

Innovation from our own production

Research & Development

All products have their origin at our headquarters in Zell am See; from the idea through design to the formulations, processes and software solutions. But that's not enough – production is also brought together at the site and comprises three manufacturing areas:

Hygiene and disinfection plant

The chemical-technical part produces hygiene products. These are disinfectants, including medical products. Soap, shower gel, moisturiser and body lotion are also produced. Hagleitner makes professional cleaning, laundry and dishwashing products – as well as room fragrances.

Dispenser and injection-moulding plant

In dispenser construction, high-tech is born, our devices dispense hygiene and data. Hygiene means soap, paper, skin care, disinfection, cleaners, room fragrance; data means consumption, filling level, energy status, service requirements. The plastic components for the dispenser structure come from 25 metres away, and the in-house injection moulding plant shapes them.

Paper and non-woven processing

Paper and non-woven processing transforms materials: Base paper becomes hygiene paper, non-woven turns into disinfectant wipes.

Internet of Things & Software

The hardware is joined by the digital twins. Our industry-leading software solutions are also developed in-house: Web applications, mobile apps and firmware for our dispensers and dosing devices. With this, we interconnect hygiene processes intelligently and optimise service processes in terms of efficiency and effectiveness.

More about production

Greenovative® by Hagleitner

Greenovative means sustainability that is always reinventing itself. It's about the product, the service, our environment. But most of all it's about people. Ensuring quality of life means acting with grandchildren in mind. Mindfulness is key: we humans are the ones shaping technology and the future. Greenovative® is Hagleitner's sustainability strategy.

Commitment

This isn't just about a brand. Greenovative is an obligation. Greenovative affects everything we do and don't do. Greenovative has a bearing on the entire value chain.

What would any ecological raw material be if it wasn't used in the right production process? What would made in Austria be if it only applied to the final production stage? What would sustainable ingredients be if water wasn't saved? What would sustainable packaging be if there was no recycling? These aspects should dovetail more and more – that's the basis of it all.

Technology and location

Hagleitner researches, develops and produces in Austria, at its headquarters in Zell am See. The vertical range of manufacture is high, all pathways are short: in other words, components don't travel around the globe for their paths to cross. The hygiene and disinfection facility, paper processing and dispenser production are combined on site.

Dispensers and dosing units send data as standard. Timely notification is given when an order is necessary. Maintenance is proactive. This also affects logistics: the aim is to run each tour as efficiently as possible. In addition to mains power and a recyclable energy unit, dispensers have a rechargeable battery as an energy option.

A single approach with multiple facets

vacuumBAGs prevent waste. Dosing units allow cleaning agents to be produced where they are used; this reduces the transport weight, which in turn cuts greenhouse gas emissions, and also saves tonnes of water from being transported. There are a whole host of aspects to being Greenovative. Have a look at the catalogue to find out more.

Experience
Greenovative

The Greenovative Circle

Product

Innovative hygiene

Technology should combine innovation with sustainability. Hagleitner designs hygiene for tomorrow.

Developed and produced in Austria

Hagleitner always makes whatever it can itself. The headquarters in Austria is a centre of expertise: research, development and production take place on site in Zell am See.

Sustainable value-added chain

Every chain is as strong as its weakest link. This is why an integrated approach to sustainability is essential – from raw materials through to recycling. Another aspect: Hagleitner works continuously to optimise its own overall facility efficiency in all areas of production. For example: the distance from the plastic granulate to the finished dispenser is only 25 metres.

Systematic refills

Up to four times as much toilet paper fits on rolls made by Hagleitner. This reduces the transport volume and means that refilling is less frequent. The vacuumBAG has been awarded a gold medal at the International Exhibition of Inventions in Geneva. Its packaging film is just a few micrometres thick. As it empties, the vacuumBAG contracts, resulting in a general decrease in waste volume.

Power supply

Hygiene dispensers offer three energy options: mains power, rechargeable battery and a recyclable energy unit. In 2020, Hagleitner was the first supplier in the industry to incorporate the rechargeable battery into its dispensers.

Recycling

The plastic core for the sanitary paper is recycled, and the outer shell of the energyBOX is too. Eco products come in one-litre

bottles made from 100% recycled material.

Service

Hagleitner senseMANAGEMENT

Hagleitner dispensers and dosing units transmit digital data about the dispensed amount, fill level and servicing requirements. Those who are aware of what's going on work efficiently.

Digital repeat orders

Hagleitner delivers in good time before something runs out. Hagleitner's online shop and scanME make it a whole lot easier.

Proactive maintenance

The technology reports service needs. The units are serviced accordingly, which increases their longevity. Dispenser data can also be used to plan routes efficiently, eliminating empty runs.

Company

Family-owned

Hagleitner was named Austria's best family-run company in 2019.

Management

Hagleitner was one of Austria's Best Managed Companies in 2024. It is also one of Austria's leading companies.

Seal of quality and certificates

A number of Hagleitner products bear the Austrian Ecolabel, the EU Ecolabel, the FSC seal and the Blue Angel. The hygiene company is also certified in accordance with ISO 9001, ISO 14001, ISO 45001, ISO 29990, ISO 29993, ISO 22716 and ISO 13485.

Academy

Those seeking to be technology leaders need to ensure the transfer of knowledge. This is the purpose of the certified Hagleitner Academy. Its programme is aimed at employees, partners and customers. The Hagleitner Academy won the E-Learning Award 2024 – in the customer training category.

People

People are the measure. Hagleitner designs hygiene for them – with a view to now and future generations. Our aim is to spread this enthusiasm among people.

Innovative systems

First rechargeable battery system

Hagleitner has developed the first rechargeable battery system for hygiene dispensers. This makes high battery consumption and recurring battery disposal a thing of the past. The battery solution offers further advantages in the form of independence and flexibility.

Recycled plastic

Hagleitner not only manufactures the plastic rods for its toilet and towel rolls from recycled plastic, but also the energyBOX for its hybrid hygiene dispensers. So when the roll is used up or the lifetime of the energyBOX has expired, Hagleitner takes back both and the recycling cycle starts all over again.

Four times more paper

There is room for four times more paper on a Hagleitner toilet paper roll than on its commercially available counterpart; this is due to its unique core: a thin plastic rod. The high paper carrying capacity makes the Hagleitner toilet roll particularly environmentally friendly – reducing transport volumes.

Less rubbish

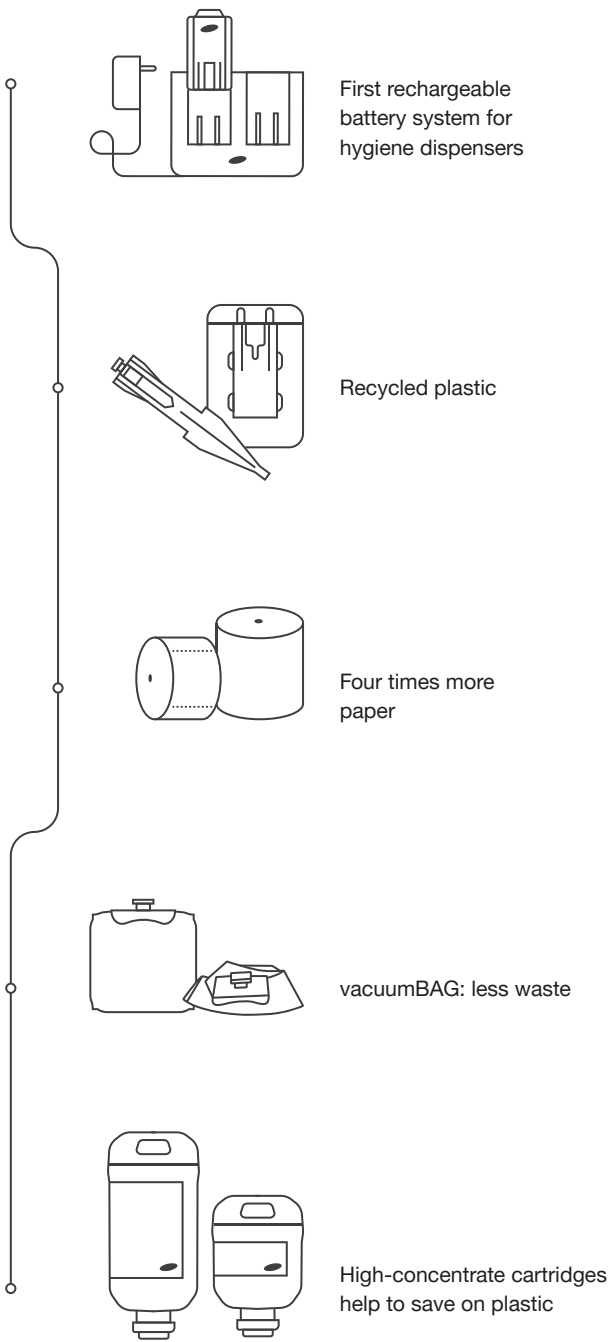

The refills for disinfectants, soaps and lotions come from Hagleitner in the patented and award-winning vacuumBAG. This type of vacuum bag weighs 60 percent less than conventional refills. Its packaging skin is only a few micrometers thick and weighs only 21 grams. As the contents of the vacuumBAG empty completely, the bag shrinks to about ten percent of its original volume. A standard waste container can hold over one million vacuumBAGs.

Strong concentrates

Hagleitner has been pursuing one philosophy for over 15 years: manufacturing concentrated products of the highest quality, reducing the transport of water to the absolute minimum and to protect the environment. The high-concentrate cartridge for Hagleitner dosing units for cleaning and disinfection is one of the numerous patented in-house developments.

The cleaning agent is produced on site, where the dosing device with water connection produces it. This significantly lowers the storage and transport volume; this approach also helps to reduce plastic waste.

A multiFILL cartridge containing 2.6 litres allows you to produce up to 1,300 litres of cleaning solution.

The claim to market leadership is yours

Just imagine ...

Technology

You are five years ahead of the hygiene industry in your region. Because you have come a long way with technology, knowledge and expertise.

Digitalisation

The future is here with you: dispensing and dosing systems work digitally.

Efficiency

Data is proving to be the key to efficiency and sustainability

Brand message

You set the bar for professional hygiene in your region.

You proclaim innovation.

You proclaim quality.

You proclaim service.

You proclaim excellence.

You proclaim stability.

You represent a strong brand – with the claim to have a global impact.

You represent digital 360-degree system solutions.

You represent Hagleitner.

You are our brand ambassador for the Hagleitner customer experience

Reliability

Your customers can rely on Hagleitner. You can rely on Hagleitner.

Support

For Hagleitner provides you with personal support, just as you provide personal support to your customers. It's also about the transfer of technology, knowledge and expertise.

Market leadership

It's about passion and a common goal: double-digit annual growth.

... You are market leader in your region.

The Hagleitner Academy

Hygiene demands knowledge

Academy

Half a century of hygiene experience

At the company headquarters in Zell am See, Hagleitner provides professional hygiene expertise in all areas of application. At the in-house Academy, internal and external experts lead courses on a wide range of topics. The practice-oriented seminars can be attended directly on site at the modern training centre or conveniently online as e-courses. The wide-ranging educational offering is aimed equally at employees, customers and partners.

Certified and practice-oriented

In all of the Academy's practice rooms, training and practice are conducted under realistic conditions – whether in a hospital room, a hotel room, a laundry, a kitchen or a workshop.

We can offer the entire training programme for monument, façade and building cleaners on site: Our training rooms are equipped in accordance with ÖNORM D 2040.

The Hagleitner Academy also meets the quality standard of the ISO 29993 International Standard for Learning Service Providers.

More information

State-of-the-art seminar technology: maximally flexible

Our seminar and group rooms are equipped with the latest seminar technology. This is how education makes you happy.

A rail system in the ceiling allows the walls to be retracted as required; this means that up to 400 people can be seated in one room.

All-round digital: Interactive displays replace conventional blackboards and whiteboards; beamers and retractable screens make for great presentations even in front of large audiences.

Dispenser & IoT data transmitter

The intelligent system products such as XIBU hybrid and integral dosing dispensers send application data from the washroom, the kitchen, the laundry or facility cleaning via smartphones or a gateway to the secure cloud of our Internet-of-Things environment.

All digital building blocks of a perfect hygiene world for all employees at one address

Via hagleitner.digital, distributors, building & hygiene managers, cleaning staff and buyers can access tailor-made solutions from the desktop or your smartphone and effectively automate their processes. The goal:

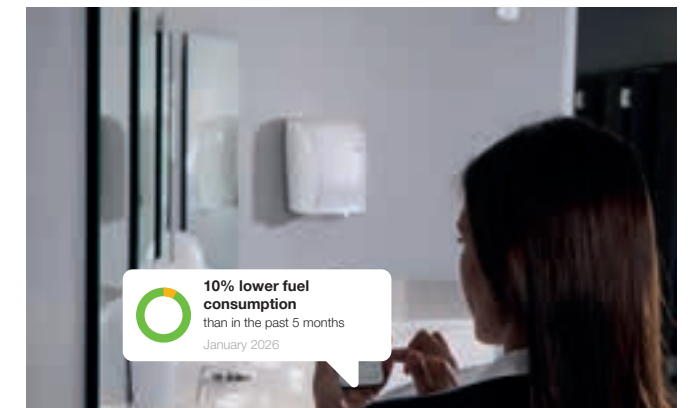

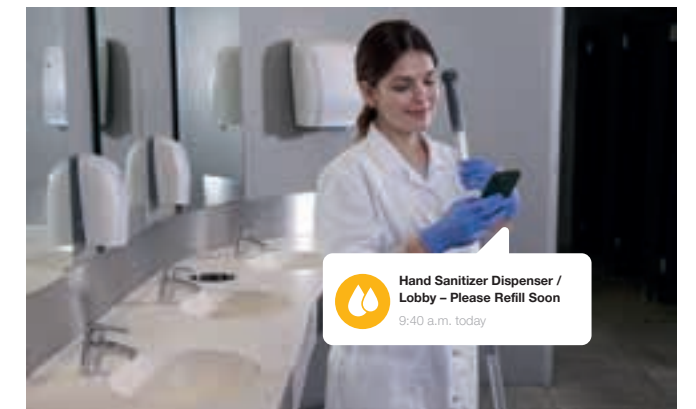

- Higher hygiene quality and safety
- Optimised cost-effectiveness
- More comfort for users
- Automatic, legally compliant documentation

IoT – never empty & everything in view: 360-App and HsM-Web with gateway

- Dispenser data retrieval via app
- Fill & battery status in app & web
- Notification when action is required
- Device settings, software updates, and much more.

IoT – 24/7 realtime monitoring with gateway

Live consumption data in app & web for efficient staffing, permanent availability & documented hygiene

hagi – professional quality for home use

The mini dispenser for on the go

Welcome to a whole new era of hygiene – welcome to hagi! A product line from Hagleitner, it's the result of extensive experience in the B2B hygiene market and has been specially developed for private customers. At Hagleitner, we've noticed that the demand for professional hygiene products is also huge in the private sector. In order to meet this demand, we've conducted in-depth market research and set ourselves the goal of creating special added value for private customers: hagi combines exclusive design, intuitive operation and sustainable materials. After all, hygiene isn't just something that businesses and institutions need, it belongs at the centre of society – it should make people happy and proud.

And it's with pride that we present hagi to you – the result of three years of years of intense development managed by Stefanie Hagleitner and her dedicated team. The first hagi line products hit the market in March 2020 offering a unique combination of quality, functionality and style.

hagi encompasses five outstanding products divided into two main areas depending on the application: hagi desinfect and hagi care. Included in the hagi desinfect range are a hand sanitiser foam, a surface disinfectant foam and a hand sanitiser gel. Each of these three products has been fully assessed and each fully complies with the European Biocidal Products Regulation. hagi care offers outstanding daily care, and includes a foam soap and a gentle care & cleansing foam.

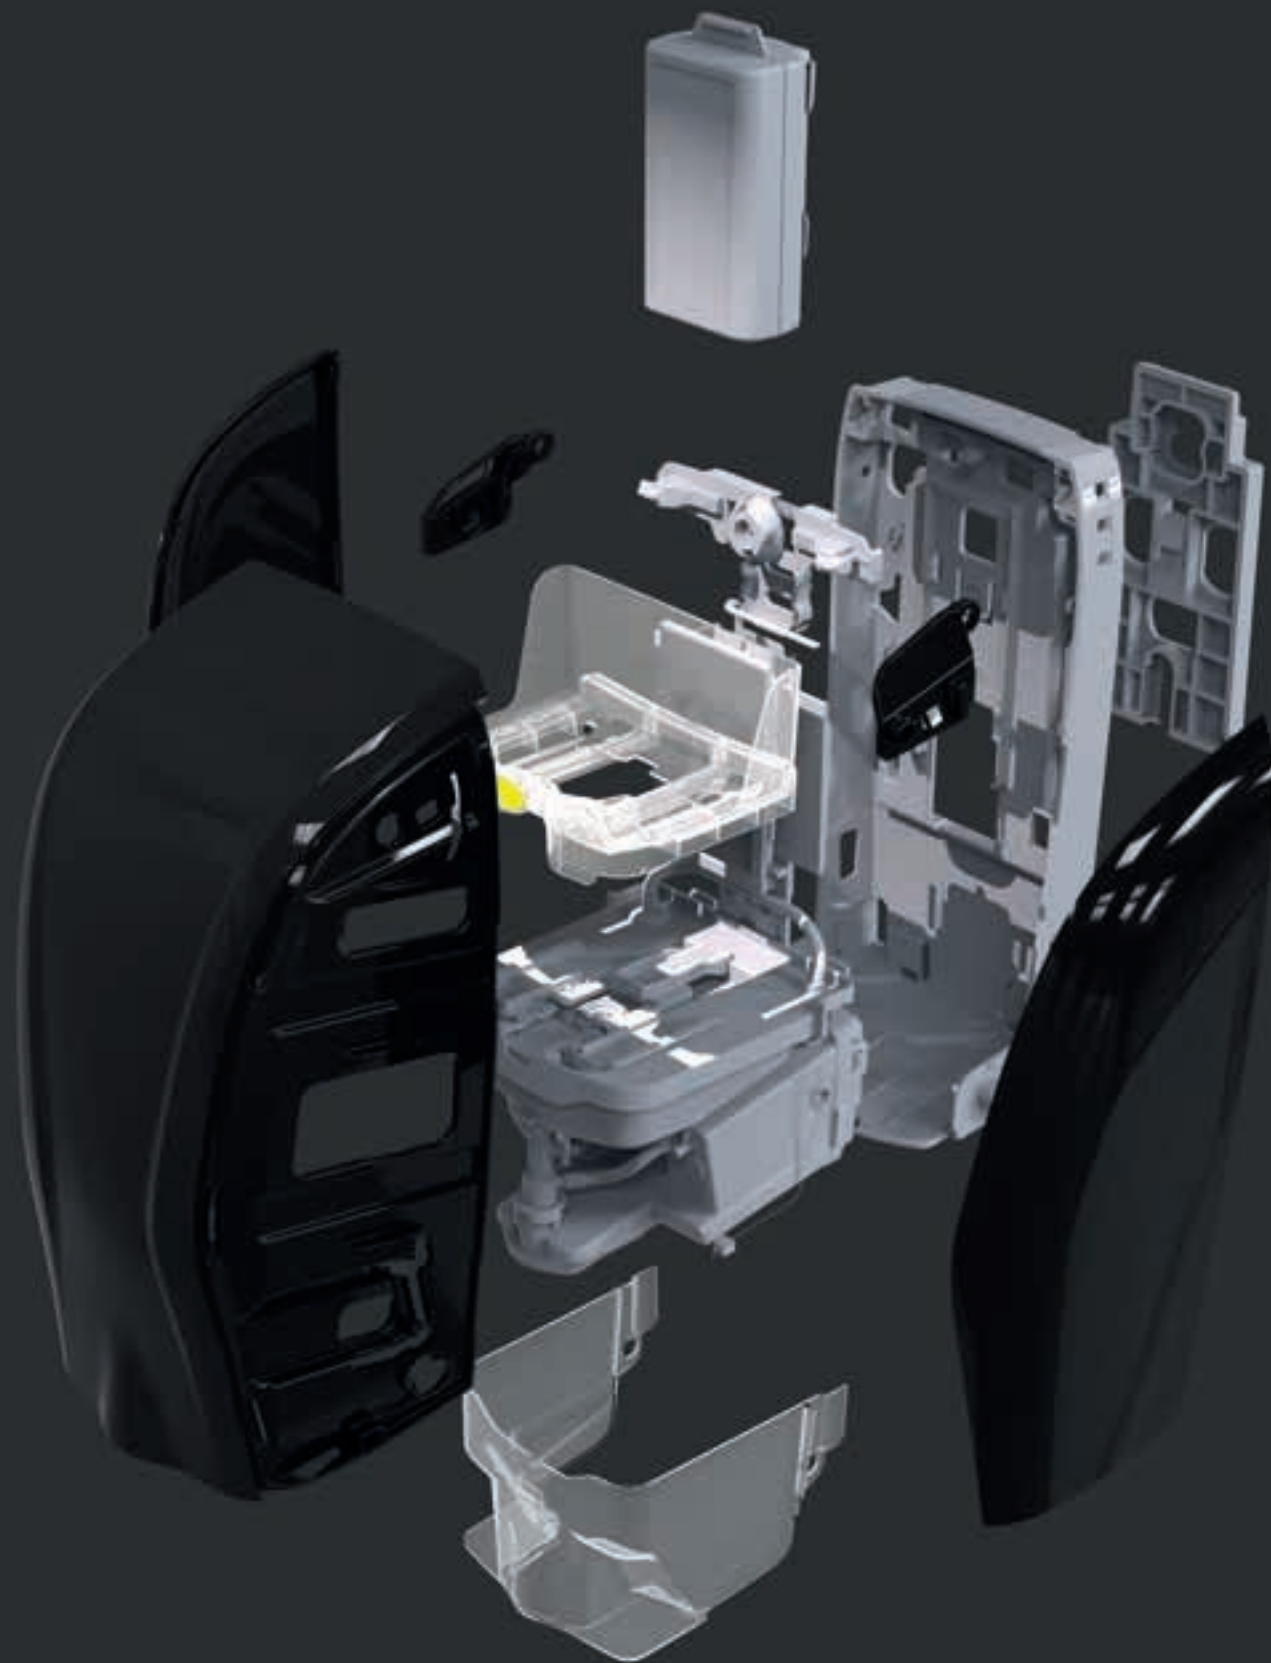

The dispenser for home use

What really makes hagi so special is not only the high quality of each and every product, but also their origin. Every hagi product has a "Made in Austria" label. hagi is developed, produced and packaged all in one place – at our headquarters in Zell am See. Starting from here, professional hygiene of the highest quality not only reaches the shelves, but also goes straight to people's homes via online shops.

Welcome to hagi – where hygiene is an experience in itself, enriching everyday life with the highest of standards. Welcome to a new dimension – designed and developed for people who set great store by hygiene, quality, design and sustainability.

Would you like to offer hagi? Let's discuss what you're interested in.

Transition to Production

Series Production

Your success is our goal. Let's head off on this journey together. Hagleitner is an Original Equipment Manufacturer (OEM). This involves a whole lot more than a supplier relationship: We develop devices, their electronics, the IoT software and consumables. Our mission is not only to create products, but also sustainable partnerships.

Take advantage of our development expertise and benefit from over 25 years of experience. We'll give you direct access to high-end technology. This can be the centrepiece of your product: your dispenser, dosing unit, hygienic bin. Your design, conceived according to your needs, will take centre stage.

Would you like to offer customised hygiene? Hagleitner will help you to achieve this. The result is system architecture designed to ensure your customers' success. Their requirements are the common measure.

Hagleitner doesn't just deliver your product – it also delivers all the service you need. Right from the outset. Our expertise is at your disposal: our experts from development, project management, production and sales will be happy to advise you.

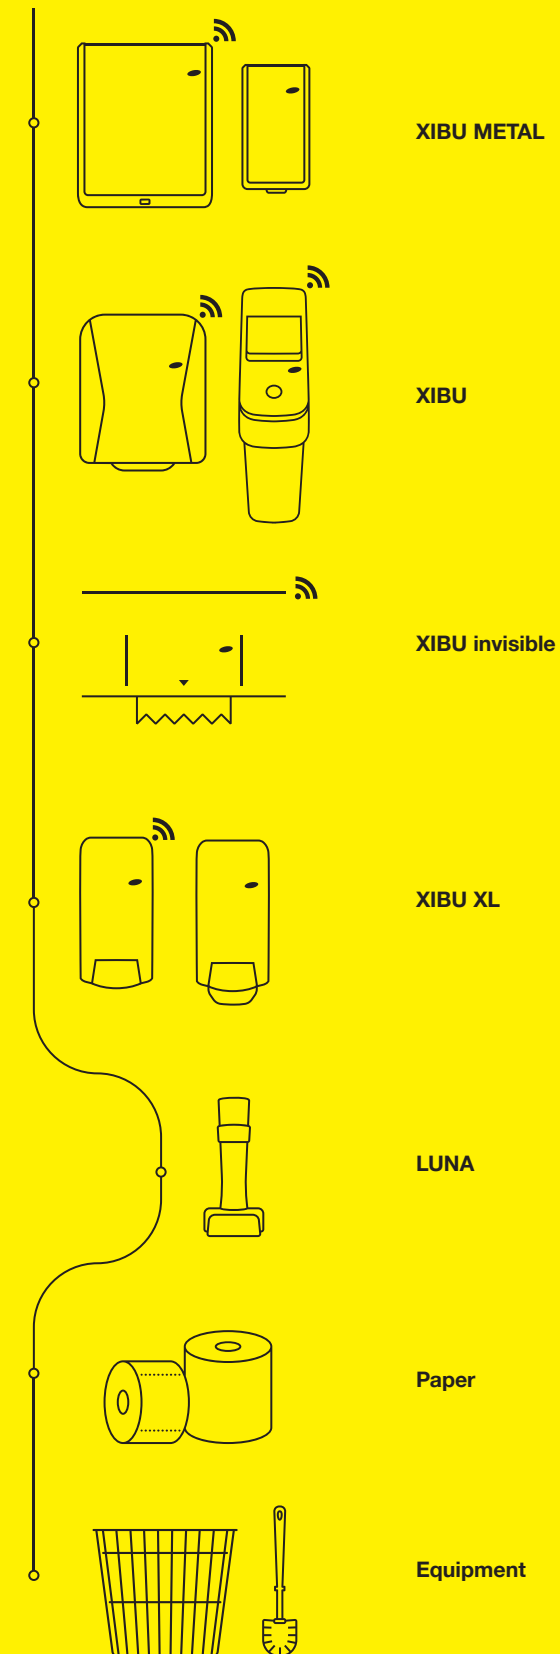

Your time to market then needs to be optimised, which is why Hagleitner bundles expertise: research, development and production are carried out directly at the parent company's headquarters in Zell am See in Austria.

Give yourself the technological edge: with dispensers and dosing devices providing digital data ex works, for example, on dispensing quantity, fill level and energy status. All information is readily available, making hygiene transparent, visible and measurable. Your customers are always in the picture, situation by situation. Processes are streamlined accordingly. Resources are optimally utilised. And the key is your app.

Increase your competitiveness and boost your customer relationships. Having Hagleitner as your OEM partner will be a game changer.

The premier league in the washroom

Washroom hygiene

With Hagleitner senseMANAGEMENT, your customer has an overview at all times of the status of the devices and their consumption values – no matter whether via smartphone or PC. All dispenser and device data are automatically recorded, analysed and displayed in real time. This way, one knows exactly where action is required, and staff can be deployed in a targeted and efficient manner.

The smart devices reliably provide information on fill levels, battery levels or faults. Innovative reserve systems provide sufficient time to refill paper, soap or disinfectant – even before shortages arise. This means the dispensers are always ready for use and visitors will always find clean, functioning devices.

Individual settings for the dispensing of paper hand towels, the dosing of hand disinfection or the control of room fragrance can be flexibly adjusted. Paper and sanitary waste bins also reliably report when they need to be emptied – overfilling is a thing of the past.

Hygiene knowledge as a download:
everything about washroom hygiene

XIBU according to your needs

XIBU plastic

Robust plastic dispensers in the classic, dynamic XIBU style. The hygiene dispensers with their sleek and striking design can be integrated into any washroom.

XIBU Designer

At www.xibudesigner.com, dispensers can be configured with just a few mouse clicks: Simply choose your design and view it right away in the example washroom.

Go straight to
XIBU Designer

XIBU METAL

For that extra level of robustness – XIBU METAL.

The elegant and robust metal dispensers not only impress with their brushed stainless steel in a matt finish, but above all with their clear and architectural design.

Operating mode

XIBU analog

- Manual dispensing/opening
- Visual fill level indicator
- Current-free operation

XIBU hybrid

- Touch-free dispensing/opening
- Information on the fill level, consumption and energy status digitally on demand
- Choice of power supply via rechargeable battery, energyBOX or mains adapter
- Make dispenser settings as required in the Hagleitner360 app

Invisible

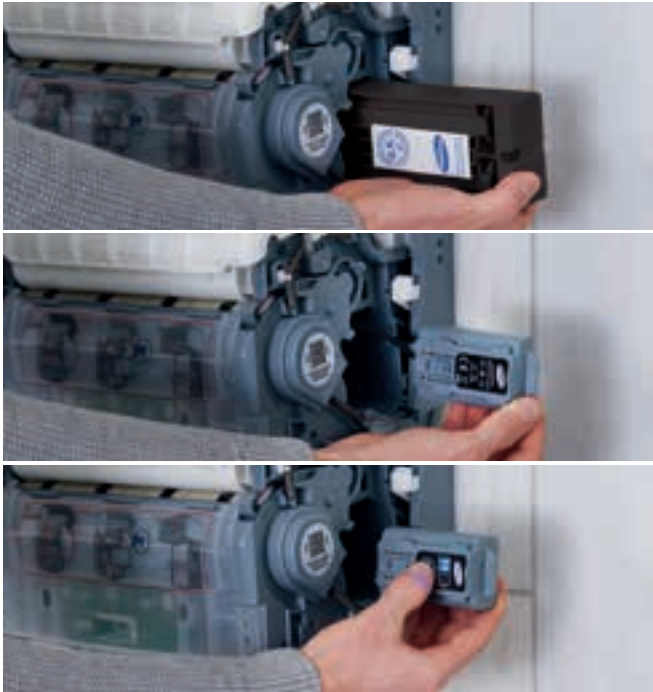

XIBU hybrid invisible Touch-free and invisible

XIBU hybrid dispensers can also disappear behind mirrors, walls and in (mirrored) cabinets if required.

Two technical installation variants allow for individual solutions (page 54).

XIBU energy concept

The XIBU hybrid dispenser can draw power in three ways:

- per energyBOX,
- per rechargeable battery and
- per mains adapter.

The **energyBOX** made of recycled material bundles power output and supplies the dispenser with energy over an extended period of time. At the end of their service life, Hagleitner takes them back through a deposit system and ensures environmentally friendly reprocessing.

The mains adapter **powerPACK ADAPTER hybrid**, the surface-mounted power supply unit **powerPACK ex** and the flush-mounted power supply unit **powerPACK in** allow the dispenser to be connected to the available power supply.

Up to two **rechargePOWER hybrid** batteries can be recharged with the **powerSTATION**; the **powerSTATION** extension enables an expansion to up to eight battery charging units.

Dispenser data in real time

Haglaitner360 App
Changing the dispenser settings via the app

HsM web portal

The digital washroom

With Haglaitner senseMANAGEMENT, your customer has an overview at all times of the status of the devices and their consumption values – no matter whether via smartphone or PC. All dispenser and device data are automatically recorded, analysed and displayed in real time. This way, one knows exactly where action is required, and staff can be deployed in a targeted and efficient manner.

The smart devices reliably provide information on fill levels, battery levels or faults. Innovative reserve systems provide sufficient time to refill paper, soap or disinfectant – even before shortages arise. This means the dispensers are always ready for use and visitors will always find clean, functioning devices.

Individual settings for the dispensing of paper hand towels, the dosing of hand disinfection or the control of room fragrance can be flexibly adjusted. Paper and sanitary waste bins also reliably report when they need to be emptied – overflowing is a thing of the past.

New at Haglaitner: LoRa technology for maximum efficiency

Thanks to the newly introduced LoRa technology, the number of required gateways can be reduced to a minimum. Only a power connection is required – no additional network cabling. As a result, your devices' data are available around the clock, everywhere and at any time.

The advantages of LoRa at a glance

- Long range: ideal for extensive buildings or complex structures
- Minimal infrastructure: fewer gateways, less installation effort
- High reliability: stable data transmission even over long distances
- Energy-efficient: optimised for long device battery life

Products for 24/7 real-time data

NEW

HsM gatewayCONNECT

Art.-No. 4131400600

- Router for data transfer
- Delivers data around the clock from our LoRaWAN-enabled devices within range
- Receives device data via LoRaWAN
- Transmits received device data to the cloud
- Including power supply and built-in SIM card

SET XIBU COUNTER hybrid

H × W × D: 16.0 × 4.8 × 2.0 cm

Art.-No. 4131301950

- Digital continuity counter
- Set comprising transmitter and receiver
- Energy supply via energyBOX S
- Data evaluation via HsM web portal
- Enables target-oriented scheduling of cleaning activities
- Hygiene measures can be derived in combination with dispenser data

HsM gatewaySIM

H × W × D: 28.5 × 12 × 2.5 cm

Art.-No. 4131400500

- Router for data transfer
- Delivers data around the clock from all digital devices within range
- Receives device data via BLE
- Transmits received device data to the cloud
- Can also be operated in SIM card mode without a network connection
- Optional operation via LAN or WLAN network possible
- Configurable via the Haglaitner360 app
- Includes power supply unit and LAN cable (cable length: 100 cm each)
- SIM card not included (required type: micro SIM card)

HsM gatewayLAN

H × W × D: 9.5 × 9.5 × 3.8 cm

Art.-No. 4131400400

- Router for data transfer
- Delivers data around the clock from all digital devices within range
- Receives device data via BLE
- Transmits received device data to the cloud
- Straightforward integration into the existing LAN or WLAN network
- Configurable via the Haglaitner360 app
- Includes power supply unit and LAN cable (cable length: 80 cm each)

The XIBU METAL dispenser series

Brushed stainless steel in top form

Is your customer looking to create a unique feature in a washroom?
Then look no further.

The XIBU METAL dispenser range unites the technology from our digital XIBU wash room products with all the benefits of solid stainless steel.

The high-quality surface of this brushed material is extremely robust and resistant to fingerprints. The dispensers make an impression with their clear, architectural design.

The housings of the XIBU METAL dispenser range are made of high-quality, robust stainless steel with anti-fingerprint coating.

XIBU METAL TOWEL hybrid

H x W x D: 42.0 x 32.7 x 23.8 cm

Art.-No. 4131101765

Art.-No. 4111223800

The toilet seat, which disinfects itself

All-in-one hygiene: Disinfection and cleaning in one step, fully automatic and digitalised

Where hygiene is particularly sensitive, more than visible cleanliness is required

The XIBU DISINFECTION SEAT hybrid sets a new standard: Toilet seats disinfect and clean themselves fully automatically for the first time – in a single step.

The innovative wiper lip system removes possible dirt particles. The disinfecting cleaner ensures a hygienically clean toilet seat. All steps interlock seamlessly and run automatically – without additional effort. For the next use, a disinfected, dry seat surface is ensured.

Especially with high-traffic contact surfaces, what counts is the actual effectiveness. The integrated Disinfection ensures a consistently high level of hygiene and creates tangible safety – for operators as well as for users.

Added value through digital data

XIBU DISINFECTION SEAT hybrid provides relevant operational and status data in real time via IoT technology and cloud connectivity. The newly integrated LoRaWAN technology enables the reliable networking of numerous digital dispensers with the Gateway over long distances. Thus, servicing effort is reduced, operational reliability increased and processes transparently supported.

A hygiene standard is being created that has not existed in this form before. Not only cleaned, but consistently protected. Hygiene becomes visible, traceable and efficiently managed.

NEW

XIBU DISINFECTION SEAT hybrid
H x W x D: 25.5 x 45.2 x 56.6 cm Art.-No. 4110106200

XIBU DISINFECTION SEAT hybrid

- Toilet seat that disinfects and cleans itself
- Fully automatic
- Additionally, contactless, sensor-controlled triggering before use is possible
- Two operating modes: Disinfecting cleaning at every actuation or cleaning with disinfection at regular intervals
- Particularly suitable for highly frequented sanitary areas
- Sends operating data (LoRaWAN-capable)
- Power supply either via rechargeable battery or mains adaptor (page 29)
- Can be used with or without a water connection

Refills

- For use in the innovative wiper lip system
- Highly flexible silicone surface ensures a flawless, dry seat surface
- Supports complete surface wetting with a disinfecting cleaner
- Durable, dimensionally stable and abrasion-resistant

* explanation of the spectrum of activity on page 120

The toilet is not a bin!

Sanitary products do not belong in the toilet

Toilet paper dissolves in water. The story is completely different for sanitary pads, tampons and wet wipes, as these do not dissolve in water. If a pipe is then clogged, this will get expensive.

The Hagleitner sanitary bin is the answer to this dilemma.

The XIBU SANITARY BIN solves the problem here, securely and discretely. The highest standards of hygiene apply here: No unpleasant odours, and completely contact-free, if desired.

XIBU SANITARY BIN hybrid 

- Touch-free flap opening (sensor)
- For safe and die discrete disposal of sanitary products such as sanitary pads, tampons, panty liners etc.
- Sends operating data (LoRaWAN-capable) – provides information about fill level and energy status
- Opening time of the flap can be configured – via Hagleitner360 app
- Two energy options: Rechargeable battery or recyclable energy unit
- Electronic fill level indicator – (flashing LED light)
- Sanitary insert – protects the flap against contamination
- Roll holder for garbage bag and hygiene powder – simplifies service on site
- Screen
- Sturdy and durable
- Two sizes: S and L

Invisible dispenser installation

XIBU LIQUID vertical lift

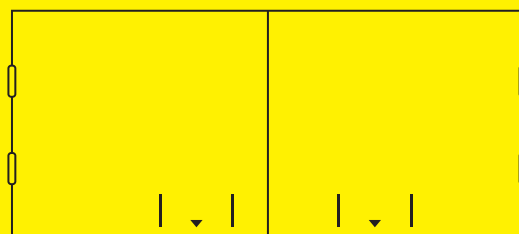

in operation

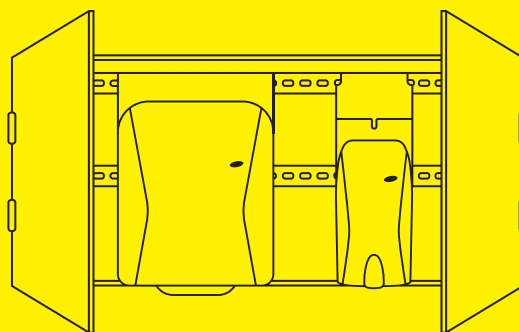

during refill

XIBU variable adapter

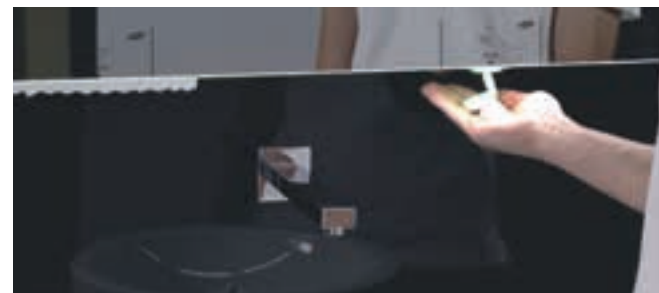

in operation

during refill

XIBU hybrid invisible

The dispenser itself remains hidden from view, it is invisible and yet there – just like the data it transmits. The dispenser provides digital details about itself, informing about dispensing quantity, fill level, usage and energy status; with a Gateway, it even transmits 24 hours a day, 7 days a week and 365 days a year (page 31).

Installation behind fixed mirrors and walls

XIBU LIQUID vertical lift – for dispenser installation behind rigid fronts that cannot be opened.

The dispenser holder can be lowered; this makes it easy and safe to fill liquid dispensers.

Installation behind mirrors and cupboard doors

XIBU LIQUID variable adapter – for dispenser installation behind fronts that can be opened with a flap or door.

XIBU hybrid invisible

Installation behind mirrors and walls

XIBU LIQUID vertical lift

H × W × D: 32 × 11.4 × 9.9 cm

Art.-No. 4111222500

- Dispenser holder
- Lowerable
- For installing liquid dispensers behind rigid fronts
- Rail system with safety hooks
- Automatic locking in the working position
- Suitable for XIBU FOAM hybrid (page 35) and XIBU DISINFECT hybrid (page 46)
- 4,000 ml refills cannot be used with this dispenser holder (see XIBU LIQUID extension below)

Installation in (mirrored) cabinets

XIBU LIQUID/TOWEL rail

2 × 1 m

Further information on Hagleitner senseMANAGEMENT at hagleitner.digital.

Workshop and industry

XIBU XL dispenser

Oil, grease, paint, varnish, adhesive, dust and soot are difficult to wash off hands; commercially available soap can't cope with that. What's needed is a friction body; Hagleitner has banned the use of microplastics in its products.

Besides, hand hygiene must also be practical and convenient in the workshop; the bucket with the hand washing paste is not only unwieldy, but also unhygienic. That's why Hagleitner's abrasive soaps come out of a touch-free dispenser; it can be mounted on the wall above the washbasin.

Skin protection data

Skin diseases account for the majority of occupational illnesses. Application data helps to identify weak spots and to promote skin protection in the workplace.

Skin protection plan

Use our browser app to offer your customers professional skin protection plans. So that your customer always knows when to use which product.

Download the sample skin protection plan [here](#)

XIBU XL FLUID hybrid

Everything from a single source

Kitchen hygiene

Preparing good food in a hygienically clean environment – that's what the kitchen is all about. Work is stressful, so this is where practical hygiene plays an especially important role.

This can be achieved with system solutions; they are designed to work together, ideally as if they were running by themselves.

The digital kitchen cleaning system

Clean and safe work in the kitchen begins with transparent data – this is where Hagleitner senseMANAGEMENT comes in. It provides real-time information on consumption, dosing and device status and automatically documents all hygiene parameters. This way, your customers are always perfectly prepared for hygiene inspections and can plan consumption, stock levels and costs optimally.

Digitalisation makes kitchen hygiene efficient and plannable: The system detects shortages at an early stage, so that operations continue without interruption.

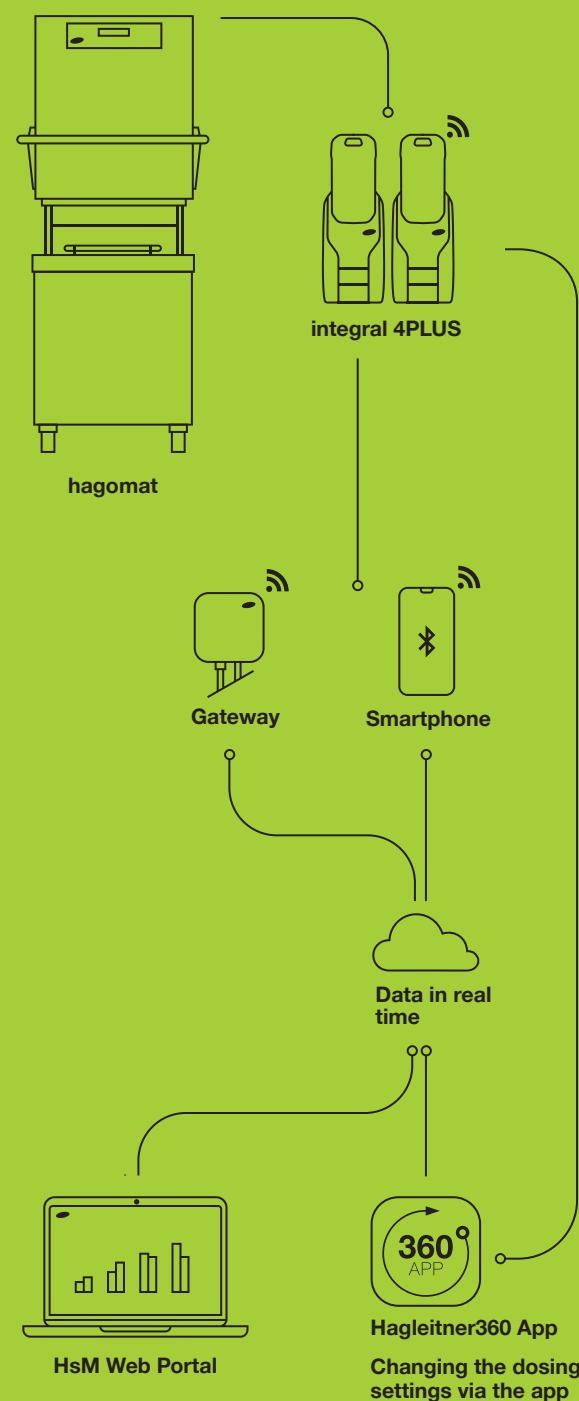

Thanks to this intelligent networking, time is saved, staff workload is reduced, and this ensures that the kitchen can be operated in a hygienically clean, safe and efficient manner.

Hygiene knowledge as a download:
everything about kitchen hygiene

The digital scullery

Dosing system for highly concentrated cleaners and rinse aids

Highly concentrated detergent for dishes and glasses, highly concentrated rinse aid, a dosing system: imagine your scullery running itself – 24 hours a day with sparkling results, 7 days a week with no downtime, 365 days a year.

The dosing device

- Effective: four kilograms of high concentrate clean up to 1,500 baskets
- Flexible: suitable for both wall and under counter installation
- Simple: just one cleaner for dishes and glasses.
- Compact: less weight, less effort – more space, more room to move
- Innovative: detergent and water are automatically mixed in the correct proportions
- Never empty: thanks to reserve tank
- Safe: thanks to RFID technology, product mix-ups are out of the question

Find out more

New at Hagleitner: LoRa technology for maximum efficiency

Thanks to the newly introduced LoRa technology, the number of required gateways can be reduced to a minimum. Only a power connection is required – no additional network cabling. As a result, your devices' data are available around the clock, everywhere and at any time.

The advantages of LoRa at a glance

- Long range: ideal for extensive buildings or complex structures
- Minimal infrastructure: fewer gateways, less installation effort
- High reliability: stable data transmission even over long distances
- Energy-efficient: optimised for long device battery life

- integral COMPACT DISPLAY: displays the current status and key messages of dosing devices
- integral COMPACT CONNECTOR: for subsequent processing of machine signals (connection box)
- Carbon electrode: for dosing by means of conductivity measurement

integral FLUID

is a computer-controlled dosing device and must always be used in combination with the integral 4PRO or integral COMPACT dosing device. It doses the ecosol BRITE rinse aids and the additional products for integral FLUID.

integral FLUID

H x W x D: 51 x 23.5 x 22 cm Art.-No. 4700203170

- Computer-controlled dosing device

integral 4CD

Art.-No. 4220903100

- Central dosing system for commercial kitchens
- Can supply up to four machines with detergent and rinse aid

chemTRAY SPECIAL

H x W x D: 19 x 120 x 65 cm, 60 l Art.-No. 4450704400

- Drip pan
- For the safe storage of canisters and large containers in the laundry area
- Suitable for holding containers up to 60 l
- Approved and tested design (DIBt)

Replacement parts – integral 4PRO/integral FLUID

integral 4PRO PUMP POWER

Art.-No. 4220902870

- Pump for dosing highly concentrated liquid detergents

(All spare parts for dosing devices are included in the maintenance service and are replaced proactively.)

Option

Temperature monitoring

Art.-No. 4910500400

- Washing and rinsing temperature monitoring for complete temperature recording according to HACCP by means of an inductive conductance probe; access to Hagleitner COMMUNICATION light software included

ecosol detergent for integral dosing systems

for integral 4PLUS and integral 4PRO

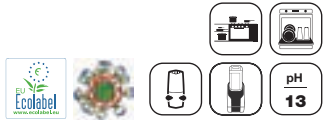

ecosol POWER PLUS

4 x 4 kg

Art.-No. 4220101819

- Eco-friendly detergent for dishes and glasses
- Highly concentrated, liquid
- Powerful and effective against dirt for sparkling results
- Highly economical
- For water hardnesses from 0 to 20 °dH.

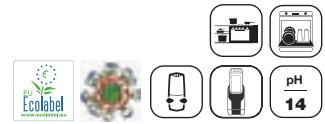

ecosol POWER OSMO GL

2 x 3.5 kg

Art.-No. 4220101219

- Eco-friendly detergent especially for glasses in osmosis water
- Highly concentrated, liquid
- Powerful and effective against dirt for sparkling results

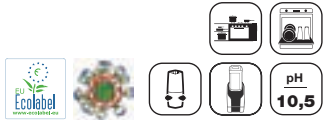

ecosol POWER ALU

4 x 4 kg

Art.-No. 4220101319

- Eco-friendly aluminium detergent
- Highly concentrated, liquid
- Highly effective for removing stubborn dirt from pots, pans or baking trays
- With extra aluminium and non-ferrous metal protection
- Also suitable for high water hardnesses

for integral COMPACT

ecosol CLEAN

4 x 4 kg

Art.-No. 4220100119

- Eco-friendly dishwashing detergent
- Highly concentrated, solid
- Highly economical
- For water hardnesses up to 15 °dH
- For higher water hardnesses, we recommend the additional use of ecosol LC.

ecosol CLEAN DES

4 x 4 kg

Art.-No. 4220101019

- Disinfectant dishwashing detergent
- Highly concentrated, solid
- A more detailed product description can be found on page 114

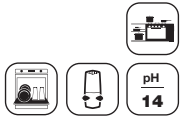

ecosol CLEAN WS

4 x 4 kg

Art.-No. 4220100519

- Dishwashing detergent
- Highly concentrated, solid
- Especially powerful and effective
- Delays starch build-up in the long term and makes thorough cleaning necessary less often
- For water hardnesses up to 5 °dH

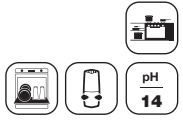

ecosol CLEAN ALU

4 x 3.8 kg

Art.-No. 4220100619

- Dishwashing detergent
- Highly concentrated, solid
- Highly effective for removing stubborn dirt from pots, pans or baking trays
- With extra aluminium and non-ferrous metal protection
- Also suitable for high water hardnesses

ecosol rinse aids for integral dosing systems

for integral 4PLUS and integral FLUID

ecosol BRITE N

2 × 2.5 l

Art.-No. 4220200319

- Environmentally friendly rinse aid for dishes and glasses
- Concentrated, neutral
- For water hardnesses up to 15 °dH

ecosol BRITE S

2 × 2.5 l

Art.-No. 4220200419

- Environmentally friendly rinse aid for dishes and glasses
- Concentrated, acidic
- For water hardnesses from to 15 °dH

ecosol additional products for integral dosing systems

for integral FLUID

ecosol LC

3.1 kg

Art.-No. 4220300219

- Water softener
- Concentrated, liquid
- Complexes the water hardening ions to prevent the build-up of limescale
- Protects machine parts extending the service life of the machine
- Can only be used in combination with one of the ecosol CLEAN detergents

ecosol OSMO PLUS

2.5 l

Art.-No. 4220300319

- Additive for enhancing rinsing results
- Concentrated, liquid
- For use in flight-type and basket conveyor dishwashers with osmosis systems or full softening or desalination systems
- Protects machine parts extending the service life of the machine
- Can only be used in combination with one of the ecosol POWER or ecosol CLEAN detergents

Dishwashing by hand

ecosol DISHES 4PURE/MIX

2 × 1.3 l

Art.-No. 4210102144

- Detergent for cleaning dishes by hand
- integral 4PURE/MIX dosing system for reliable, safe dispensing
- A more detailed product description can be found on page 72

ecosol DISHES ECO 4PURE/MIX

2 × 1.3 l

Art.-No. 4210102544

- Eco-friendly hand dishwashing detergent
- integral 4PURE/MIX dosing system for reliable, safe dispensing
- A more detailed product description can be found on page 72

Dishwashing by hand

fox 3in1

6 × 1 kg

Art.-No. 4210101208

10 kg

Art.-No. 4210101211

- Detergent for cleaning dishes by hand
- Liquid, powerful, odour-neutralising
- For the manual cleaning of dishes and glasses and for the cleaning of kitchen surfaces
- Prevents the spread of odours in the entire sink area
- Gentle on the skin thanks to aloe vera care extracts
- Subtle scent of apricots

fox CITRO

6 × 1 kg

Art.-No. 4210102608

10 kg

Art.-No. 4210102611

- Detergent for cleaning dishes by hand
- Liquid, powerful with plenty of foam
- For hand washing dishes and glasses
- Powerful grease dissolver – suitable for cleaning kitchen surfaces before disinfection
- For eco-friendly dishwashing, we recommend ecosol DISHES ECO (page 72)
- Subtle scent of lemon

ecosol detergents for industrial dishwashers

ecosol glass and dishwashing detergent

ecosol PLUS

13 kg

Art.-No. 4210300111

33 kg

Art.-No. 4210300813

80 kg

Art.-No. 4210300115

- Detergent for commercial glass and dishwashing machines
- Liquid
- Highly effective against starch deposits and heavy and problematic residues (e.g. caffeine)
- Wash water rarely needs changing when using ecosol PLUS
- For water hardnesses up to 25 °dH

ecosol R

12 kg

Art.-No. 4210300911

30 kg

Art.-No. 4210300213

75 kg

Art.-No. 4210300215

- Detergent for commercial dishwashers
- Liquid
- Highly effective against starch residues and heavy grime
- ecosol ALU is recommended for tableware made of aluminium and other metals
- For water hardnesses up to 10 °dH

ecosol ALU

30 kg

Art.-No. 4210300313

- Aluminium detergent
- Liquid
- Highly effective for removing stubborn dirt from pots, pans, trays and mixers, etc.
- With extra aluminium and non-ferrous metal protection, optimally suited for cleaning baking utensils in bakeries and cake shops
- Can also be used with very high water hardness (up to 25 °dH) without calcifying the machine

ecosol OSMO

10 kg

Art.-No. 4210301011

- Additive for enhancing rinsing results
- For use in flight-type and basket conveyor dishwashers with osmosis systems or full softening or desalination systems
- Protects machine parts extending the service life of the machine

ecsol detergents for industrial dishwashers

ecsol glass detergent

ecsol GLASS

6 × 1 kg Art.-No. 4210500508

12 kg Art.-No. 4210500611

- Detergent for commercial glass washers
- Liquid
- For machine and manual use
- Highly effective against stubborn stains such as lipstick or theine
- Gives all dishwasher-safe glasses a sparkling shine
- Protects decorative elements and materials
- For water hardnesses up to 15 °dH

ecsol OSMO GL

11 kg Art.-No. 4210500711

- Detergent for commercial glass washers with osmosis system
- Liquid
- For machine use
- Highly effective against all grime, leaving a sparkling shine
- Particularly gentle on materials and decorative elements

ecsol rinse aids

6 × 1 kg Art.-No. 4210600108

10 kg Art.-No. 4210600111

25 kg Art.-No. 4210600113

60 kg Art.-No. 4210600115

- Eco-friendly rinse aid for glass and dishwashing machines
- Prevents water stains and guarantees an outstanding deep-shine effect
- Non-foaming
- ecolsol CIT is recommended for higher water hardness
- For water hardnesses up to 15 °dH

ecsol CIT

10 kg Art.-No. 4210600211

25 kg Art.-No. 4210600213

60 kg Art.-No. 4210600215

- Eco-friendly rinse aid for glass and dishwashing machines
- Prevents water stains and guarantees an outstanding deep-shine effect
- Non-foaming
- ecolsol NEUTRAL is recommended for lower water hardness
- For water hardnesses from to 15 °dH

ecsol Powder

ecsol SHINE GL

10 kg Art.-No. 4210600511

- Eco-friendly rinse aid for glass washers with osmosis system
- Ensures rapid coverage and thus fast drying of the washed items
- Prevents stains caused by residues, etc.
- No excessive foaming for a guaranteed deep-gloss effect

ecsol POWDER

15 kg Art.-No. 4210400438

- Detergent for all dish and glass washers
- Phosphate-free, highly concentrated powder
- Highly effective against stubborn dirt
- Also suitable as immersion detergent for the thorough cleaning of dishes with built-up deposits such as coffee and tea stains
- For water hardnesses up to 25 °dH

ecsol detergents for industrial dishwashers

ecsol disinfectant

10 kg Art.-No. 4210301111

30 kg Art.-No. 4210301113

65 kg Art.-No. 4210301115

- Disinfectant dishwashing detergent
- Liquid for commercial dishwashers
- A more detailed product description can be found on page 114

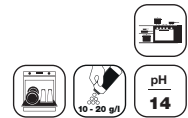

ecsol DES TABS

2 × 70 tabs Art.-No. 4210400500

- Disinfecting dishwasher tablets
- For domestic dishwashers
- A more detailed product description can be found on page 114

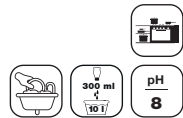

ecsol maintenance products

ecsol INTENSE POWDER

6 × 1 kg Art.-No. 4210200722

- Basic cleaner for machine starch removal
- Powder, highly effective
- For removing baked-on starch deposits
- Dishes with starch deposits regain their shine
- Only suitable for alkali-resistant dishes (not for glasses, cutlery and aluminium)
- To prevent starch deposits, use the product as a basic cleaner

ecsol TAUCHREINIGER

10 kg Art.-No. 4210200211

- Enzymatic immersion detergent
- Liquid, fast-working
- For the thorough cleaning of dishes and cutlery
- Highly effective against starch and protein deposits
- The dishes regain a new, shiny appearance
- Non-corrosive
- In comparison to powder products, it represents no danger through inhalation of dust particles

ecsol REGENERIERSALZ

7.5 kg Art.-No. 4210200532

- Special salt
- For reconditioning softening systems
- Secures durable functionality of the dish and glass washers and coffee machines
- Dissolves without residue

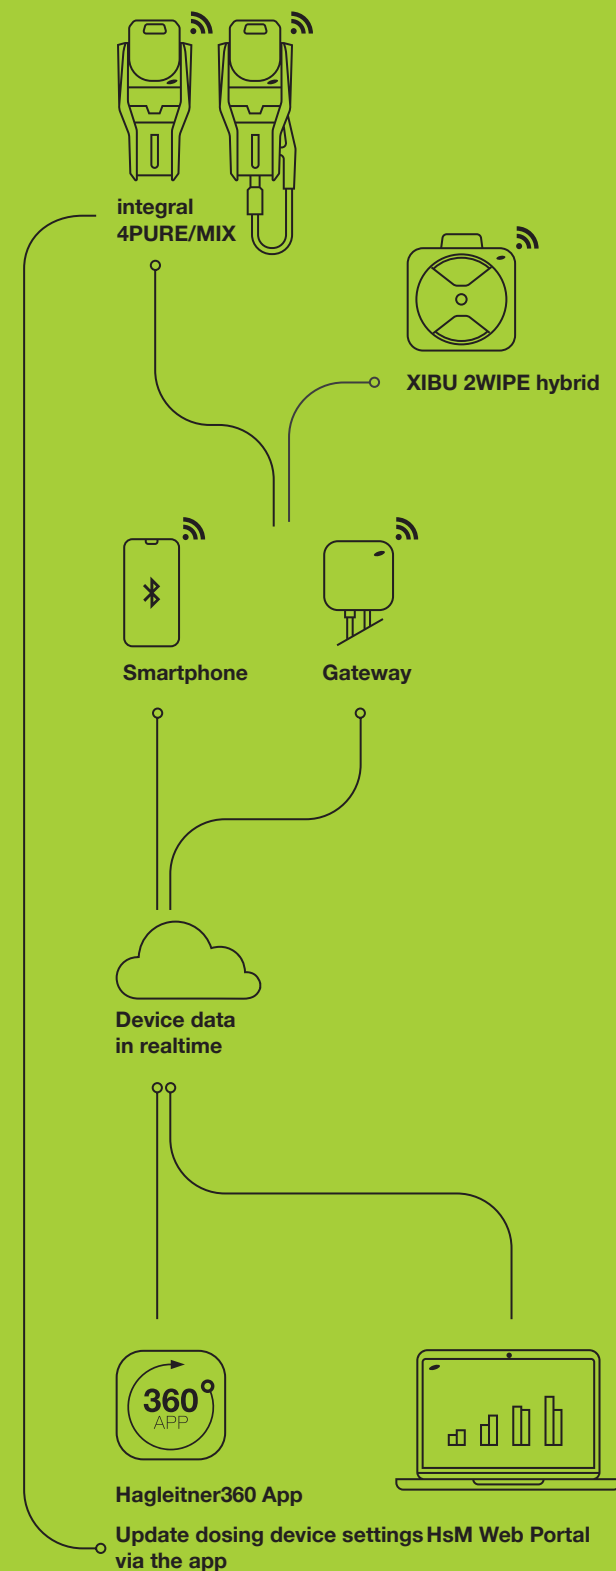

ecsol REGENERIERSALZ TABS

25 kg Art.-No. 4210200431

- Special salt in cushion form
- For reconditioning softening systems
- Secures durable functionality of the dish and glass washers and coffee machines
- Dissolves without residue

Digital kitchen cleaning and disinfectant

PURE/MIX: The choice is yours

- Dosing system combined with high concentration: Six products for cleaning and disinfecting kitchens and a digital dispenser for rapid disinfection cover all kitchen hygiene requirements.
- Food Safety: This dosing system increases food safety to enable HACCP-compliant work.
- Digital = efficient: integral 4PURE/MIX transmits data, enabling kitchen hygiene to be planned and documented.
- Application-safe: The closed system makes any contact with the concentrate impossible.
- Safe: RFID technology prevents product mix-ups.
- Flexible: Ready-made cleaning solution? Pure dispensing? Filling bottles or a bucket? The choice is yours.
- Greenovative®: The dosing unit produces the ready-to-use cleaning solution directly on site, reducing the volume of transport and storage.

Find out more

integral – innovative dosing systems

integral 4PURE/MIX

- High-precision electronic dosing unit
- App-controlled, transmits operating data
- Dispenses pure detergent or ready-to-use cleaning or disinfecting solution
- Can be installed with or without water connection
- Electricity connection necessary
- Pure dispensing, small quantity dispensing (0.4–1.5 l) and large quantity dispensing (1–50 l) possible

integral 4PURE/MIX

H × W × D: 38.3 × 19.8 × 19.2 cm

Art.-No. 4220938870

Installation and replacement parts for integral 4PURE/MIX

START integral 2GO/4PM

Art.-No. 4410100800

Installation kit, consisting of:

- Hose (length: 3 m, ø: 12 mm)
- 3/4-inch water connection
- Five mounting clips
- Aquastop
- Assembly aid (orange, for perfect wall mounting of several dispensers in a row)

PUMP integral 2GO/4PM

Art.-No. 4920501500

- Pump
- Solenoid-operated
- The pump is included in the maintenance service for the integral 4PURE/MIX dosing device and is therefore proactively replaced during the service interval.

Options

powerPACK ex

Art.-No. 4111202400

- Surface-mounted power supply unit
- Cable length: 150 cm

powerPACK in

Art.-No. 4111203100

- Flush-mounted power supply unit
- Suitable for the installation in a cavity wall box 68 mm (minimum size)

powerPACK extension

Art.-No. 4111206500

- 1.5 m extension cable
- Suitable for powerPACK in and powerPACK ex

powerPACK BOX

Art.-No. 4111204700

- Power supply unit – for non-battery operation of the integral 4PURE/MIX dosing device
- For high-frequency and simultaneous use of several dispensers
- The connection of the power supply unit to the dispenser must be installed by an electrician
- Alternatively, the integral 4PURE/MIX can be directly supplied with power from the mains using the powerPACK BOX

HsM gatewayLAN and -SIM

- A more detailed product description can be found on page 31

dripTRAY integral 2GO/4PM

Art.-No. 4410101400

- Drip tray in the form of a drawer
- Protects the floor from dripping chemicals
- Option for the integral 2GO and integral 4PURE/MIX dosing systems

Cleaning and care products for the kitchen

ecosol DISHES 4PURE/MIX
2 × 1.3 l Art.-No. 4210102144

- Detergent for cleaning dishes by hand
- Neutral, highly concentrated
- For hand washing dishes and glasses
- Highly effective against grease and protein stains
- Kind to skin
- Scent of green apples
- integral 4PURE/MIX dosing system for reliable, safe dispensing

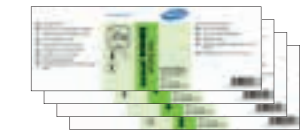

ecosol GREASE 4PURE/MIX
2 × 1.3 l Art.-No. 4210102044

- Eco-friendly grease remover
- Alkaline, highly concentrated
- Dissolves grease stains in no time at all
- Suitable for daily routine cleaning of all kitchen surfaces (e.g. extractor hoods, work surfaces)
- Fresh citrus scent
- integral 4PURE/MIX dosing system for reliable, safe dispensing

ecosol GRIP FLOOR 4MIX
2 × 1.3 l Art.-No. 4210102344

- Eco-friendly, enzymatic floor cleaner
- Neutral, highly concentrated
- Special enzymes automatically clean the floor
- No need to wipe – saving water and time
- Increases slip resistance with regular use
- Prevents unpleasant odours on the floor and in the drain
- Fresh lemon scent
- integral 4PURE/MIX dosing system for reliable, safe dispensing

LABEL 4PURE/MIX

- Labels, 4 per sheet
- Self-adhesive – for labelling the 0.5 l refillBOTTLE and the 1 l refillBOTTLE (page 109)
- 15 languages on the label
- With pictograms and colour coding – for correct labelling of the ready-to-use application solution from the integral 4PURE/MIX dosing device

ecosol DISHES ECO 4PURE/MIX
2 × 1.3 l Art.-No. 4210102544

- Eco-friendly hand dishwashing detergent
- Neutral, highly concentrated
- For hand washing dishes and glasses
- Highly effective against grease and protein stains
- Kind to skin
- Perfume-free
- integral 4PURE/MIX dosing system for reliable, safe dispensing

ecosol GRILL 4PURE/MIX
2 × 1.3 l Art.-No. 4210102444

- Grill cleaner
- Alkaline, highly concentrated
- Dissolves even burnt-on stains
- Ideal for the daily cleaning of grill, oven, tilting frying pans and bain-marie
- Foams well, also adheres to vertical surfaces
- Perfume-free
- integral 4PURE/MIX dosing system for reliable, safe dispensing

ecosol DES 4MIX
2 × 1.3 l Art.-No. 4210102244

- Disinfecting kitchen cleaner
- integral 4PURE/MIX dosing system for reliable, safe dispensing
- A more detailed product description can be found on page 116

Cleaning and care products for the kitchen

active ECO
6 × 1 kg**
10 kg Art.-No. 4420100208 Art.-No. 4420100211

- Eco-friendly grease remover
- Liquid
- Easily removes greasy dirt from all washable surfaces and objects such as floors and cooker hoods
- Non-foaming
- Not for use on aluminium

bellaVIT
6 × 1 kg
10 kg Art.-No. 4210100308 Art.-No. 4210100311

- Detergent with great scrubbing power
- Viscous
- Highly effective against baked-on, stubborn dirt on hard surfaces
- With a subtle orange scent
- Optimally used with dishwashingSPONGE GREEN

grillBLITZ
6 × 1 kg Art.-No. 4210100608

- Grill cleaner
- Liquid, powerful
- Highly effective – removes crusty, baked-on grill, bake and roasting residues from grill plates, ovens and hot plates without vigorous scrubbing
- Easy to use and causes no respiratory irritation
- Not for use on aluminium

STEAMER
10 kg Art.-No. 4210100411

- Cleaner for convection ovens, cooking and smoking appliances
- Liquid, for manual use
- Removes dirt and incrustations on its won
- Odourless, gentle on materials and pleasant to use as no irritating vapours produced
- Optimally used with the press-pumpBOTTLE

RADIKALIN
6 × 1 kg*
10 kg Art.-No. 4210100208 Art.-No. 4210100211

- Fat solvent
- Highly concentrated, liquid
- Easily removes greasy dirt from all washable surfaces and objects such as floors and cooker hoods
- Also suitable for machine application (e.g. high-pressure unit)
- Not for use on aluminium

arctiCLEAN
6 × 1 kg Art.-No. 4210101908

- Freezer cleaner
- Liquid, powerful
- Effortlessly removes dirt from surfaces and floors
- Suitable for manual and machine application
- Can be used during operation without defrosting the freezer

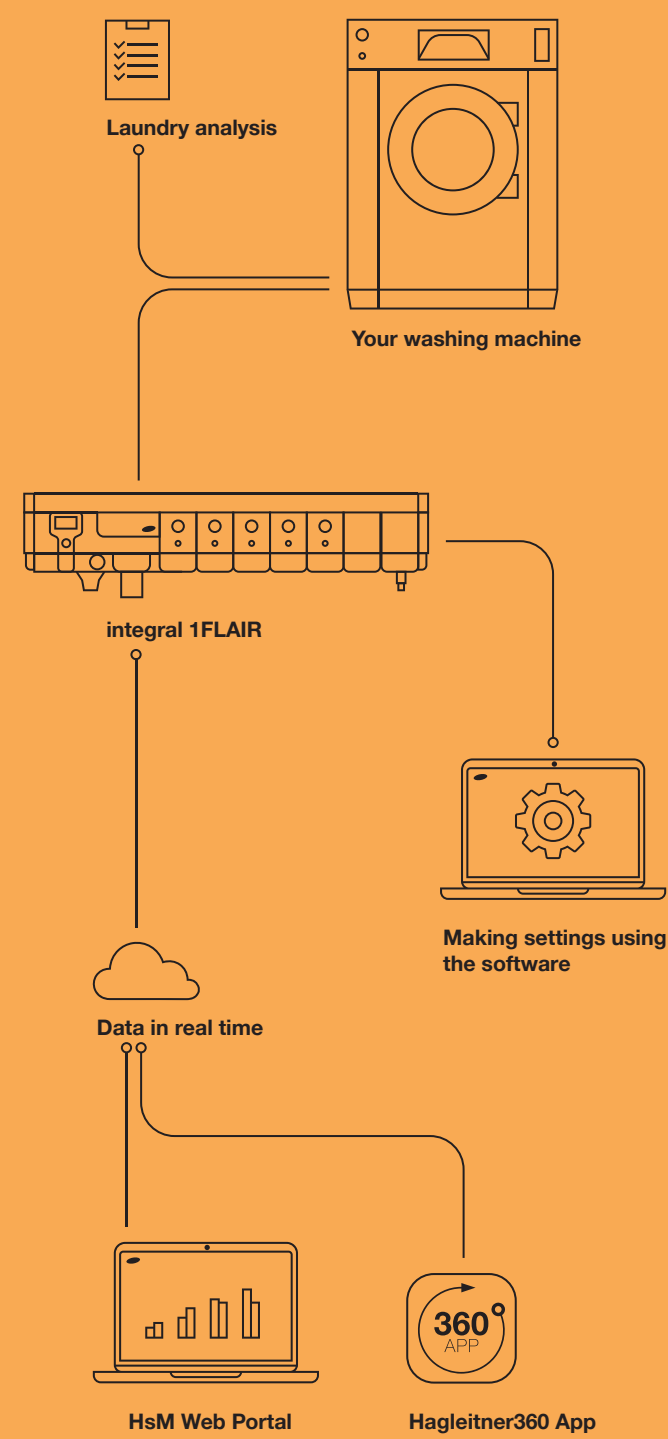

combiCLEAN
10 kg Art.-No. 4210100511

- Detergent for thermal cooking equipment with an automatic cleaning program
- Liquid
- Highly effective against baked-on food remnants without attacking surfaces
- Prevents limescale deposits in the cooking chamber
- To rinse the cooking appliance, we recommend ecosol NEUTRAL
- Not for use on aluminium

For brilliantly clean laundry

Laundry hygiene

Brilliant colours, radiant whites, accompanied by a wonderful fragrance – that’s how you want freshly washed textiles to be. At the same time, the laundry should be washed as gently, thoroughly and, if necessary, hygienically as possible – in an energy-efficient, water-saving and environmentally friendly way.

All Hagleitner laundry hygiene products are based on high-quality, high-performance raw materials and have been free from microplastics for years. The focus is on care and cleanliness with the right price-performance ratio.

Hagleitner offers two ranges for laundry:

- flair PROFESSIONAL – for the automatic dosing of high concentrates
- flair MANUAL – for the manual dosing of laundry detergents

The Hagleitner laundry FLAIR

flair is the new laundry hygiene brand from Hagleitner. flair is a system solution that has been thoroughly considered down to the very last detail and comprises a comprehensive range of products and coordinated dosing systems.

flair is synonymous with quality and service excellence – for an unbeatable laundry experience.

integral 1FLAIR, the digital laundry dosing system developed by Hagleitner, excels with innovative technology. The top priorities in all aspects are dosing precision, user-friendliness and safety.

Hygiene knowledge as a download: everything about laundry hygiene

The digital dosing system

- Modular: a dosing system for up to 11 washing machines
- Flexible: different mounting options,can be mounted individually
- Safe: thanks to RFID technology, product mix-ups are out of the question
- Innovative: a unique canister closure ensures safety and protects against contamination – hazardous emptying is a thing of the past
- Cutting edge technology: specially developed components for maximum user safety, dosing accuracy and maintenance-free operation

Efficiency through data

- Easy to view the fill level of the detergent components
- Create analyses
- Monitor consumption and service requirements

flair PROFESSIONAL

Machine detergent dosing

Different highly concentrated detergent components can be combined with each other as required. Safe dosing is ensured by

the digital integral 1FLAIR dosing unit – keep an eye on your data at all times.

Your own laundry schedule

Laundry schedule for flair PROFESSIONAL					
Miele 32 kg		Water hardness 2 °dH		Load weight 32 kg	
Pro-gram	Designation	Prewash	Disinfection	Temperature	Machine program
	Heavily soiled kitchen laundry	Yes	Yes	60°C	1
	Normally soiled coloured laundry	Yes		60°C	2
	Lightly soiled polyester towelling	No		40 – 60 °C	3
	Normally soiled white table linen	Yes		90°C	4
	Lightly soiled delicates/wool	No		30 – 40 °C	5

Machine dosing of laundry detergent

Different highly concentrated detergent components can be combined with each other as required. Safe dosing is ensured by

the digital integral 1FLAIR dosing unit – keep an eye on your data at all times.

flair COMPLEX

- 32 kg Art.-No. 4320100146
76.7 kg Art.-No. 4320100147
- Environmentally friendly complexing agent and water softener
 - Highly concentrated, liquid
 - Prevents limescale from building up on the laundry or in the washing machine
 - Ensures a long-lasting, radiant white appearance
 - Removes stains effectively and gently at the same time
 - Removes unpleasant odours and greying

flair BOOST

- 32 kg Art.-No. 4320100246
88 kg Art.-No. 4320100247
- Environmentally friendly detergent booster
 - Highly concentrated, liquid
 - Alkaline
 - Boosts the washing performance
 - Highly effective against protein, grease and oily grime

flair STAIN EX

- 30 kg Art.-No. 4320100346
65 kg Art.-No. 4320100347
- Environmentally friendly stain remover
 - Liquid, oxygen-based
 - Highly effective against bleachable stains (e.g. red wine, goulash, fruit and vegetables)
 - Prevents greying

flair REACT

- 27 kg Art.-No. 4320100446
64 kg Art.-No. 4320100447
- Disinfectant laundry bleach
 - Liquid
 - A more detailed product description can be found on page 115

flair UNIVERSAL

- 24.6 kg Art.-No. 4320100546
59 kg Art.-No. 4320100547
- Environmentally friendly all-purpose detergent for prewash and main wash
 - Highly concentrated, liquid
 - Suitable for the cleaning and care of kitchen and health spa laundry
 - For sparkling white laundry with a pleasant fresh fragrance
 - Contains optical brighteners and enzymes
 - Excellent at removing grease and dirt stains on cotton, blended and polyester fabrics
 - Resoiling is prevented by special ingredients
 - For washing temperatures from 30–95 °C

flair MULTICOLOR

24.6 kg Art.-No. 4320100646
59 kg Art.-No. 4320100647

- Environmentally friendly colour detergent
- Highly concentrated liquid, with a pleasant fragrance
- For the cleaning and care of dyed cotton, mixed fabrics and delicates (table linen, bed linen and towelling)
- Not suitable for wool and silk
- Excellent at removing grease and dirt stains
- Gentle on colours thanks to colour care products
- Resoiling is prevented by special ingredients
- No bleach or brightener

flair SOFT

25 kg Art.-No. 4320100746

- Fabric softener
- Highly concentrated, liquid
- Easier to iron and best skin compatibility thanks to caring active ingredients
- Prolongs laundry life time
- The laundry becomes softer and antistatic
- With a subtle fruity fragrance

flair NEUTRAL

25 kg Art.-No. 4320100846

- Neutralising agent for textiles and rinsing water
- Acidifying fabrics in the last washing cycle prevents laundry from greying and yellowing, caused by alkalinity, detergent residue and/or water which contains carbon
- Pleasantly fluffy feel, bright colours and enhanced laundry fragrance
- Improved skin compatibility, as skin irritation caused by detergent residues is prevented

flair STRONG

25 kg Art.-No. 4320100946

- Laundry starch
- Liquid
- Suitable for all types of fabric (except silk)
- For table and bed linen, curtains and shirts, but also as spray starch before ironing
- Stiffens worn fabric and strengthens the elasticity

flair MANUAL

Manual detergent dispensing

flair INTEXO

5 kg Art.-No. 4310200510

- All-purpose washing powder
- Liquid, highly concentrated
- Optimal for cleaning and care of white cotton laundry as well as mixed and polyester fabrics
- For radiant white laundry even at low temperatures
- Dissolves within a very short time thanks to special formulation
- Penetrates deep into the fibre due to innovative intenseTEX technology
- Removes stains effectively and gently at the same time
- Removes unpleasant odours and greying

flair INTEXO COLOR

5 kg Art.-No. 4310200610

- Detergent for coloured textiles
- Liquid, highly concentrated
- Optimal for cleaning and care of coloured cotton laundry as well as mixed and polyester fabrics
- Dissolves within a very short time thanks to special formulation
- Penetrates deep into the fibre due to innovative intenseTEX technology
- Removes stains effectively and gently at the same time
- Especially caring, innovative ingredients make colours shine and prevent colour transfer to other textiles

Manual detergent dispensing

The system includes liquid and powder detergents as well as fabric softeners and washing aids, which are especially suitable for use in

small and medium-sized businesses.

flair DES 40

12 kg Art.-No. 4310200738

- Disinfecting all-purpose detergent
- Powdered, disinfects from 40 °C
- A more detailed product description can be found on page 115

flair DES 60

15 kg Art.-No. 4310200700

- Disinfecting all-purpose detergent
- Powdered, disinfects from 60 °C
- A more detailed product description can be found on page 115

flair PERFECT

15 kg Art.-No. 4310200100

- Disinfecting all-purpose detergent
- Powdered, disinfects from 60 °C
- A more detailed product description can be found on page 115

flair COLOR

15 kg Art.-No. 4310200200

- Detergent for coloured textiles
- High-quality powder
- For colour-sensitive laundry
- Ideal for coloured table linen
- Removes stubborn protein and greasy stains
- Contains no bleaching agents or optical brighteners, is gentle on colours and fabrics
- Keeps colours bright and beautiful
- Suitable for all water hardnesses and washing temperatures from 30–95 °C

flair ULTRA

18 kg Art.-No. 4310200300

- All-purpose washing powder
- Powder for professional requirements
- Suitable for all fabrics (except for wool and silk)
- For brilliant white, well-cared for and delicately scented laundry
- Bleaching effect, even at 40 °C
- Suitable for all water hardnesses and washing temperatures

flair FEIN

6 × 1 kg* Art.-No. 4310200408

- Mild detergent
- Liquid, enzyme-free
- For wool, silk and delicate synthetic laundry (Goretex, microfibre)
- Enhances colours of the textiles by means of added colour care agents
- Free from bleaching agents and optical brighteners
- Ideal for cleaning and care of coloured laundry
- For soft, velvety fabrics with a fresh flower scent
- For washing temperatures of 30–60 °C

* Purchase 6 × 1 kg and get one dosingAID free of charge!

flair accessories

chemTRAY SPECIAL
H x W x D: 19 x 120 x 65 cm, 60 l Art.-No. 4450704400

- Drip pan
- For the safe storage of canisters and large containers in the laundry area
- Suitable for holding containers up to 60 l
- Approved and tested design (DIBt)

Measuring cup
Art.-No. 4450700900

- Measuring cup
- Made of plastic with measuring scale
- For precise dosing up to 175 ml

flair additional components

flair MILD
10 kg Art.-No. 4310300211

- Fabric softener
- Conditioning agents make ironing easier and improve skin tolerance
- Prolongs laundry life time
- For soft, anti-static laundry with a wonderful spring fragrance

flair SOFT4
25 kg Art.-No. 4310300113

- Fabric softener
- 4 x concentrated
- Conditioning agents make ironing easier and improve skin tolerance
- Prolongs laundry life time
- For soft, anti-static laundry with a mild, fruity fragrance
- Can be used both via the liquid dosing unit in the havon PROFESSIONAL system and manually

flair P6
25 kg Art.-No. 4310301313

- Laundry starch
- Liquid
- For all types of fabric (except silk)
- Ideal for table and bed linen, curtains and shirts, but also as spray starch before ironing
- Stiffens worn fabric and strengthens the elasticity
- Can be used both via the liquid dosing unit in the havon PROFESSIONAL system and manually

flair additional components

flair POWER
6 x 1 kg Art.-No. 4310300908

- Special bleach
- Liquid, based on active oxygen
- Removes difficult and bleachable stains (e.g. red wine, curry, fruit) at 30 °C
- Provides an antibacterial and antifungal effect at 20 °C
- Particularly suitable for textiles prone to unpleasant odours (e.g. sportswear, incontinence underwear)
- Unsuitable for silk, polyamide or elastomer

flair FS
6 x 1 kg Art.-No. 4310300508

- Stain remover
- Liquid
- Perfect for the thorough removal of all fat and oil stains (e.g. grimy kitchen clothing, table linen and mineral oil-stained work clothing)

flair RUSTEX
6 x 1 kg Art.-No. 4310301108

- Special stain remover for rusty stains on textiles
- For all kinds of laundry (except wool and silk)

flair CHLOR TABS
1 kg Art.-No. 4310300428

- Bleach
- Highly concentrated, in tablet form
- Dissolves effervescently, develops full effect immediately
- Highly effective against problematic stains (e.g. fruit, seed oil)

flair ACTIVE
5 kg Art.-No. 4310300632

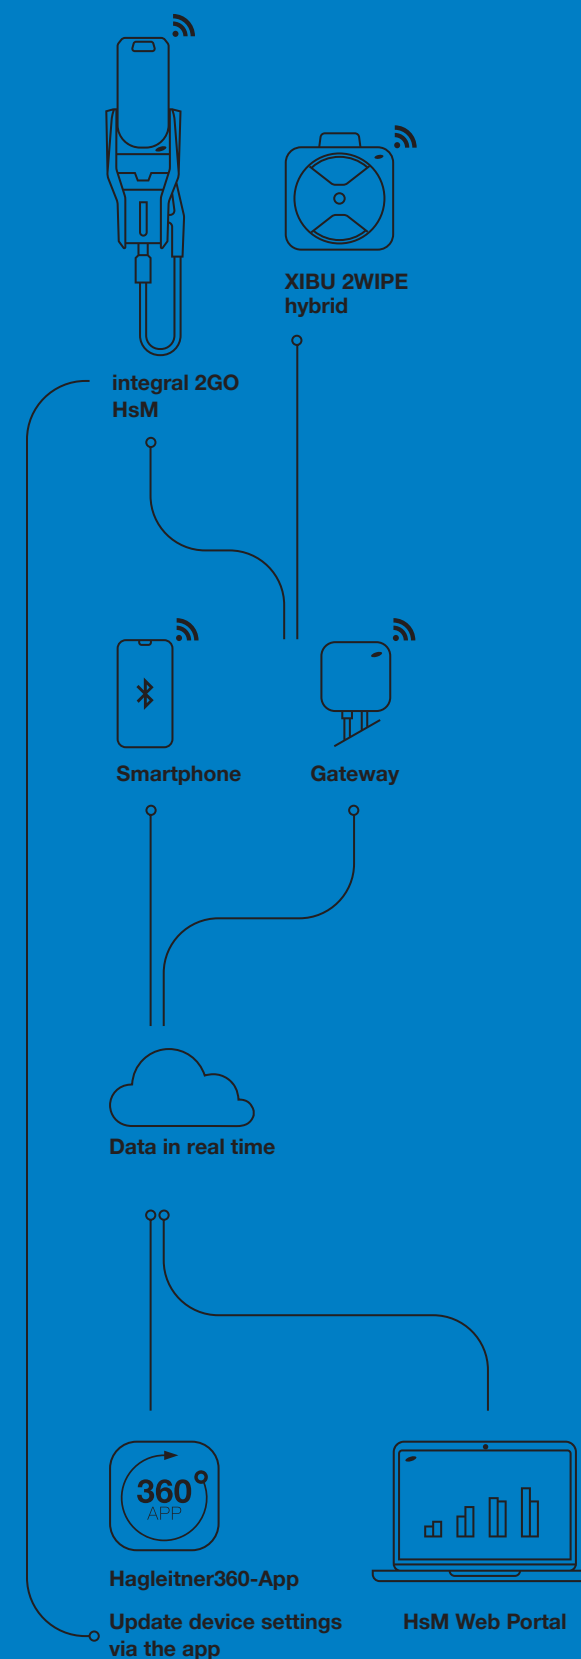

- Stain removal salt powder
- Powder, all-purpose
- Removes colourful, bleachable stains (e.g. coffee, red wine, fruit) as well as all mixed stains (e.g. gravy, lipstick, fruit quark) from 30 °C
- Yellowed textiles become bright white again

flair CALC
6 kg Art.-No. 4310300732

- Water softener
- Powder
- Prevents limescale building up in the washing machine and on the laundry
- Extends the washing machine's service life
- Laundry does not grey
- Using at a water hardness from 16 °dH reduces detergent consumption

Digital facility cleaning

Janitorial hygiene

When it comes to cleaning buildings, it's all about the perfect interplay of water, cleaner and equipment. Floors and surfaces should be easy to clean efficiently. Hagleitner provides you with the right tools for every facility management area.

Eight highly concentrated products cover all facility management needs. The most precise dosing device in its class automatically mixes them with water in the perfect ratio – thanks to the patented precision pump. The device not only outputs finished cleaning solution, but also data on consumption, fill level and pump status.

The information can be viewed in real time via the Hagleitner360 app on the smartphone and via HsM web portal on the laptop and PC. The Hagleitner360 app can also be used to make individual device settings as required.

Cleaning and disinfection plan for partners

As a Hagleitner distributor you have the option of using our tool to create customised cleaning and disinfection plans for your customers. These plans are customised to the specific requirements and conditions of your customers' premises. After a thorough analysis of your current cleaning processes, you can use our online application to develop a plan that maximises efficiency and hygiene.

Hygiene knowledge as a download:
everything about janitorial hygiene

integral 2ROBOT

The intelligent dosing system for cleaning robots

The circle is now complete

Cleaning robots have become an established part of professional building cleaning. However, one crucial piece of the puzzle to ensure their complete autonomy has been missing – until now that is: an independent and continuous supply of cleaning solution.

The sophisticated ROBOT GO system solves this problem, meeting all the requirements for automated floor cleaning.

Hygiene requires precision

integral 2ROBOT/2GO devices dispense entirely free of fluctuations thanks to their high-performance pump. The dose is always accurate.

Increasing efficiency digitally

The app-controlled dosing systems send data – so hygiene becomes controllable and documentable.

A brilliant duo

With just two cleaning agents, you cover all maintenance cleaning requirements for a wide range of floor types.

Economical across the board

The dosing devices produce up to 1,300 litres of ready-to-use solution on site from 2.6 litres of concentrate – accordingly, transport and storage volumes are reduced; replacement and procurement intervals are extended.

Application safe

Due to the closed system, no direct contact with the concentrate is possible. RFID technology prevents product mix-ups.

State-of-the-art and simpler than ever

2 & 2: two dosing units, two universal high concentrates – and the whole world of Hagleitner to back them up.

Efficiency meets innovation: with this system you reduce complexity, save time and achieve the highest hygiene standards. All from a single source. Everything for perfect cleaning results.

ROBO SET integral 2ROBOT

H x W x L: 38.3 x 19.8 x 19.2 cm Art.-No. 4410101900

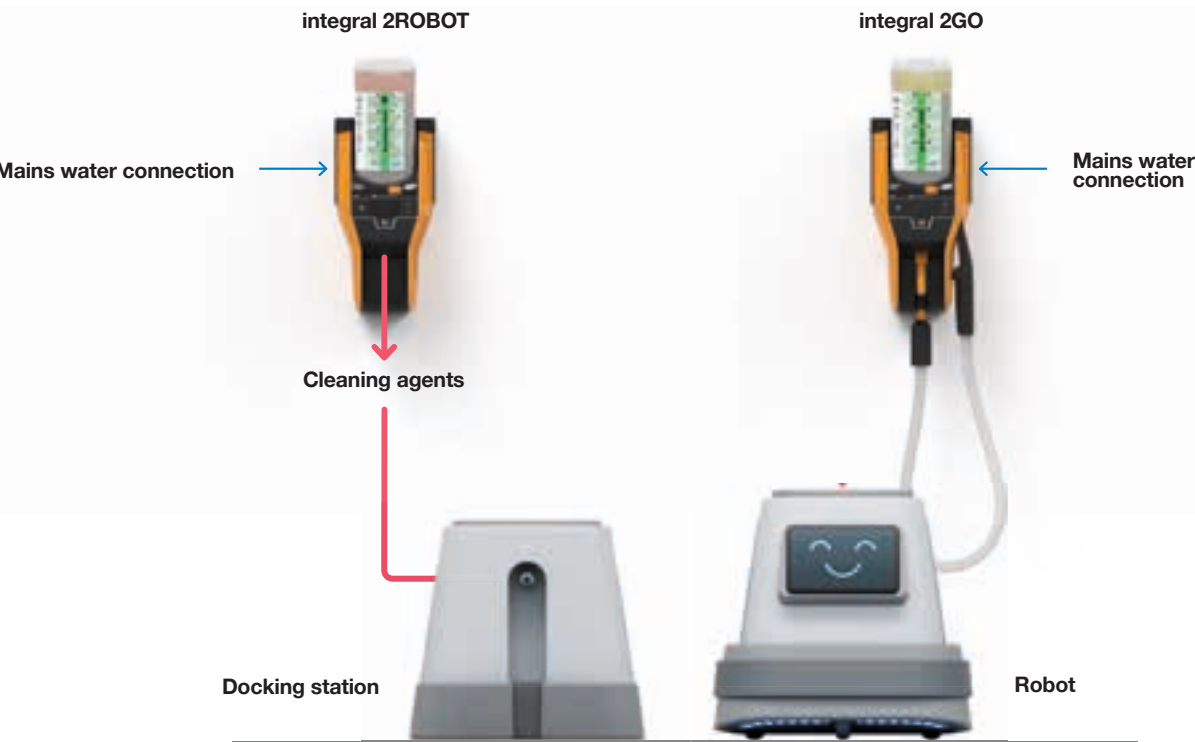

- For cleaning robots with a docking station and water connection
- High-precision, electronic dosing unit
- App-controlled, transmits operating data
- Mixes highly concentrated cleaners and water in the perfect ratio and fills automatically
- Includes START integral 2GO/4PM installation kit and powerPACK ex

ROBO SET integral 2GO

H x W x L: 38.3 x 19.8 x 19.2 cm Art.-No. 4410102000

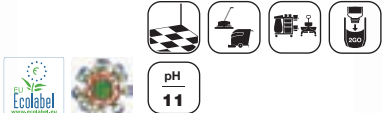

- For cleaning robots without a docking station
- For cleaning robots with a docking station and no water connection
- High-precision, electronic dosing unit
- App-controlled, transmits operating data
- Mixes the perfect ratio of highly concentrated cleaners and water
- Includes START integral 2GO/4PM installation kit and powerPACK ex
- Detailed information on integral 2GO on page 105

 All products with this pictogram are suitable for the manual filling of cleaning robots (except for basic cleaners).

Refills

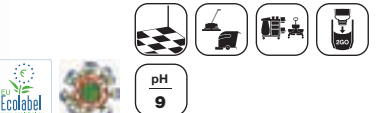

power 2GO

2 x 2.6 l

Art.-No. 4410300519

- Eco-friendly fine stoneware cleaner
- Highly concentrated for tenside-free maintenance cleaning
- See detailed product description on page 88

floorstar 2GO

2 x 2.6 l

Art.-No. 4410200819

- Eco-friendly mopping care
- Highly concentrated for everyday maintenance cleaning
- See detailed product description on page 88

When it comes to cleaning, many customers face a number of challenges: Drained? Dip. Squeeze. Wipe. Time flies by. And nothing is ever really clean.

There is another way – it's innovative, more hygienic, more convenient and faster. However, Hagleitner has invented the i.h.s. system just for this: Closed dosing systems combined with highly concentrated products and a digital connection combine to create a perfectly harmonised i.h.s. cleaning system.

Integrated RFID technology protects dosing units and refills from misuse. This allows you to maximise the security of your market. At the same time, it makes operation easier (ruling out product mix-ups) while increasing user safety.

The cleaning system works using a simple process:

Take a clean, wet mop. Or maybe you prefer a fresh, wet microfibre cloth? – And away you go. One mop cleans an area of up to 25 m². Afterwards, throw the mop or cloth into the dispenser bag – and from there straight into the washing machine: Set the temperature to 60 °C. Wash with disinfectant. Everything comes out fresh and clean again.

Ready for the next round! The safetyBOX is filled with soaking solution, and then 20 mops. Or 18 microfibre cloths in the safetyBOX SMALL. The soaking solution is then added by the dosing unit. The mops and cloths are ready for use after 15 minutes. The cycle can then start all over again.

i. as in integral 2GO HsM: a dosing unit with refill protection and highly concentrated cleaning products to cover enormous ranges.

h. as in Hagleitner laundry system: washing power from Hagleitner. Manual dosing with high-quality disinfectant washing powder products or fully automatic dispensing using a digital dosing system that offers impressive security and highly concentrated chemical components dosed as required.

s. as in safetyMOP: you use a mop or a microfibre cloth in the four-colour guidance system.

The dosing systems are part of the Hagleitner360 world as a matter of course (app and hygiene portal). This allows your customer to view the unit status, fill level and any service requirements at any time.

For your customers this means:

Dip? Squeeze? Wipe it off? Wiping once is enough. After all, dirt and pathogens don't spread: each room has its own mop and its own microfibre cloth – after use, simply pop them in the washing machine. Where both belong. And where viruses and bacteria don't stand a chance: 0 % germ transmission. 100 % hygiene. 30 % more time. 30 % less expenditure. How much do 500 m² of clean floor cost? One euro. And it's very convenient with the i.h.s. system.

integral 2GO HsM

- High-precision, electronic dosing unit
- App-controlled, transmits operating data
- Mixes highly concentrated cleaning agents and water in the perfect ratio, dispenses ready-to-use cleaning or disinfecting solution
- Power and water connection required
- Dispenses small quantities: from 0.4 – 1.5 l in 0.1 l increments
- Dispenses large quantities: from 1 – 50 l in 0.5 l increments

integral 2GO HsM

H x W x L: 38.3 x 19.8 x 19.2 cm Art.-No. 4410101250

Installation and spare parts for integral 2GO HsM/integral 2ROBOT

START integral 2GO/4PM

Art.-No. 4410100800

Installation kit, consisting of:

- Hose (length: 3 m, ø: 12 mm)
- 3/4-inch water connection
- Five mounting clips
- Aquastop
- Assembly aid (orange, for perfect wall mounting of several dispensers in a row)

PUMP integral 2GO/4PM

Art.-No. 4920501500

- Pump
- Solenoid-operated
- The pump is included in the maintenance service for the integral 2GO dosing device and is therefore proactively replaced during the service interval.

Options

powerPACK ex

Art.-No. 4111202400

- Surface-mounted power supply unit
- Cable length: 150 cm

powerPACK in

Art.-No. 4111203100

- Flush-mounted power supply unit
- Suitable for the installation in a cavity wall box 68 mm (minimum size)

powerPACK extension

Art.-No. 4111206500

- 1.5 m extension cable
- Suitable for powerPACK in and powerPACK ex

powerPACK BOX

Art.-No. 4111204700

- Power supply unit – for non-battery operation of the integral 2GO HsM dosing device
- For high-frequency and simultaneous use of several dispensers
- The connection of the power supply unit to the dispenser must be installed by an electrician
- Alternatively, the integral 2GO HsM can be directly supplied with power from the mains using the powerPACK BOX

HsM gatewayLAN and -SIM

- A more detailed product description can be found on page 31.

dripTRAY integral 2GO/4PM

Art.-No. 4410101400

- Drip tray in the form of a drawer
- Protects the floor from dripping chemicals
- Option for the integral 2GO and integral 4PURE/MIX dosing systems

Highly concentrated detergent for integral 2GO HsM

sanitary 2GO

2 x 2.6 l

Art.-No. 4410200619

- Eco-friendly sanitary cleaner
- Highly concentrated for everyday maintenance cleaning
- For cleaning wet room areas
- For sparkling deep shine and long-lasting cleanliness
- Releases a fresh citrus fragrance
- Suitable for pre-soaking cleaning textiles in the i.h.s. system by machine, manually and sustainably (page 86)
- integral 2GO dosing system for reliable, safe dispensing

active 2GO

2 x 2.6 l

Art.-No. 4410200719

- Eco-friendly kitchen cleaner
- Highly concentrated for everyday maintenance cleaning
- For cleaning greasy stains from work surfaces, extractor hood, fixtures, and floor surfaces
- Removes unpleasant kitchen odours leaving behind a neutral smell
- Suitable for pre-soaking safetyWIPES in the i.h.s. system by hand and sustainably (page 86)
- integral 2GO dosing system for reliable, safe dispensing

sanitaryDES 2GO

2 x 2.6 l

Art.-No. 4410300619

- Disinfecting sanitary cleaner
- Universal usage in sanitary and spa areas
- A more detailed product description can be found on page 116

floorstar 2GO

2 x 2.6 l

Art.-No. 4410200819

- Eco-friendly mopping care
- Highly concentrated for everyday maintenance cleaning
- Excellent wetting properties – for sensitive floors
- Exudes a fresh floral fragrance
- Suitable for pre-soaking cleaning textiles in the i.h.s. system by machine, manually and sustainably (page 86)
- integral 2GO dosing system for reliable, safe dispensing

allround 2GO

2 x 2.6 l

Art.-No. 4410200919

- Eco-friendly glass and all-purpose cleaner
- Highly concentrated for everyday maintenance cleaning
- Ideal for cleaning all shiny surfaces (e.g. mirrors, glass, fixtures)
- Exudes a fresh floral fragrance
- Suitable for pre-soaking safetyWIPES in the i.h.s. system by hand and sustainably (page 86)
- integral 2GO dosing system for reliable, safe dispensing

power 2GO

2 x 2.6 l

Art.-No. 4410300519

- Eco-friendly fine stoneware cleaner
- Highly concentrated for tenside-free maintenance cleaning
- For all non-slip, microporous surfaces (safety tiles) – minimal recontamination thanks to tenside-free formulation
- Suitable for pre-soaking cleaning textiles in the i.h.s. system by machine, manually and sustainably (page 86)
- integral 2GO dosing system for reliable, safe dispensing

hygienicDES 2GO

2 x 2.6 l

Art.-No. 4410300419

- Disinfectant surface cleaner
- Universal usage in spa and health areas
- A more detailed product description can be found on page 116

bloomFRESH 2GO

2 x 2.6 l

Art.-No. 4410201419

- Room spray and odour remover
- Highly concentrated for fragrance everyday
- Recommended for use in all indoor rooms
- Masks unpleasant odours for a long time
- Leaves behind a pleasant fresh floral scent
- integral 2GO dosing system for reliable, safe dispensing

Highly concentrated detergent for integral 2GO HsM

Cleaning with CAPS

Exact, efficient and safe

CAPS - Advantages

Space-saving and resource-efficient

Thanks to their low weight and compact form, the CAPS can be stored in a space-saving manner – ideal for businesses with limited storage space as well as for mobile cleaning teams. The reduced packaging requirements and the significantly lower transport volume make an active contribution to reducing emissions and waste. Storage and transport of water are completely avoided.

Precise dosing for consistent results

One CAP of powder concentrate yields 500 ml of ready-to-use cleaning solution. The precisely defined mixing ratio delivers consistently reliable cleaning results while at the same time being

gentle on surfaces. Dosing errors are thereby excluded; unnecessary product consumption is avoided. Material consumption remains calculable at all times – for high cost-efficiency and transparent cost control in professional use.

Safe and easy application

The CAPS are added directly to the water, where they dissolve completely. The sealed, water-soluble film prevents direct contact with the cleaning agent, thereby significantly increasing user safety. Risks to skin and eyes are minimised, while the clean, straightforward use noticeably simplifies the daily workflow.

CAPS - Properties

Enzymatic CAPS

The new enzymatic all-purpose and sanitary cleaners in CAPS form combine sustainability, efficiency and user safety in a well-thought-out concept. The concentrated sanitary CAPS are suitable for a wide range of applications in facility and sanitary areas. Depending on the area of application, specifically matched enzymes are active that effectively break down typical organic soiling of the respective application area and decompose it into water-soluble components. Since the enzymes used are biodegradable, they fit seamlessly into the products' resource-conserving overall concept.

Selected enzymes for different areas of application

The allround CAPS for daily maintenance cleaning of all washable surfaces and the sanitary CAPS for the sanitary area contain enzymes specially selected for the respective area of application. These attack typical organic soiling directly at its source and break it down effectively. In addition to organic soiling, the sanitary CAPS also specifically remove typical soiling in sanitary areas, such as limescale deposits – for cleaning results that conventional products often do not achieve.

Certified environmental friendliness

The cleaners in CAPS form impress with a consistently resource-saving product concept. The powder concentrate reduces packaging material and makes the transport of water completely unnecessary. This reduces transport volume and emissions even before actual use. This effect is complemented by the biodegradable formulation as well as responsible packaging, which together contribute to an overall lower environmental impact. On the basis of this sustainable product concept, the cleaners are awarded the Austrian Ecolabel and the EU Ecolabel; thus they meet strict ecological requirements. Both certifications stand for tested environmental compatibility as well as a responsible use of ingredients.

Disinfecting CAPS

Strong in effect, practical in everyday life

disinfection CAPS offer reliable Disinfection for professional use. Their high efficacy, in combination with safe handling, ensures consistent results and supports hygienic cleanliness during ongoing operations.

After dissolution, the high-performance powder concentrate exhibits a broad spectrum of efficacy and is ideally suited for the Disinfection of water-resistant surfaces. Short contact times and easy application make disinfection CAPS a solution that proves itself in everyday professional use.

Safe, clean, user-friendly

The individually portioned CAPS in water-soluble film enable safe, dust-free handling and guarantee calculable quantities for use. The film dissolves completely in water, contains no microplastics and leaves no waste – this reduces effort and reliably delivers consistent results, regardless of who is currently on duty.

The aldehyde- and phenol-free formulation is low-odour and particularly user-friendly. Short contact times with economical dosing support efficient workflows and integrate Disinfection seamlessly into day-to-day operations.

Reliable efficacy with a broad range of applications

disinfection CAPS reliably cover a broad spectrum of microorganisms: Bacteria, yeasts, fungi, mycobacteria, viruses and spores – including particularly resistant pathogens such as Clostridioides difficile. In this way, the CAPS provide a high level of safety and contribute to responsible hygiene concepts in professional environments.

In addition, they impress with good material compatibility on numerous water-resistant surfaces and floor coverings, thereby enabling versatile uses within the intended area of application.

The result

A disinfection solution that convinces: disinfection CAPS combine high efficacy with ease of use and a resource-saving packaging concept. For reliable hygiene in everyday professional life – clear, safe and efficient.

The new foamGUN PRO

Foam surfaces –
evenly and without effort

The high-performance electric foam gun foamGUN PRO makes professional cleaning particularly convenient and efficient. Continuously adjustable wet or dry foam adapts ideally to any desired application.

The supplied bar nozzle enables wide-area, uniform foam application. On large surfaces, particularly vertical ones, the stable foam adheres optimally, prolongs the contact time and enables quick yet labour-saving cleaning.

The foamGUN PRO is powered by the rechargePOWER hybrid – the battery that is also used in the XIBU dispensers. This offers ideal flexibility, full compatibility and long, interruption-free operation.

The QUICK CHANGE-adapter allows the variable use of all Haglöitner cleaning products. This makes the foamGUN PRO the ideal tool for efficient, mobile and professional cleaning processes.

KIT foamGUN PRO

- Electric foam gun
- Adjustable foam
- With QUICK CHANGE adapter for flexible changing of cleaning agents
- Suitable for all Haglöitner cleaning products with foamGUN PRO pictogram
- Suitable for bottles with a standard thread
- including rechargePOWER hybrid (see page 29), USB charging adapter and 1× QUICK CHANGE adapter

KIT foamGUN PRO

Surface cleaner

Enzymatic caps

The enzymatic allround CAPS were developed for daily maintenance cleaning of all washable surfaces. Its specially optimised enzymes break down typical organic soiling reliably and gently on materials. The concentrated CAPS format enables precise dosing and consistent cleaning results.

Versatile in use and easy to handle, the allround CAPS support sustainable and efficient cleaning through their environmentally friendly formulation and practical packaging. Thanks to their compact form, they take up only minimal storage space and make day-to-day work easier in professional use.

allround CAPS
20 x 3 g Art.-No. 4450101048

- Environmentally friendly enzymatic cleaner for glass and general use
- For cleaning all washable surfaces, materials and objects
- Self-dissolving cap without waste
- Portioned Caps for a safe and error-free dosage
- With a subtle fresh scent
- We recommend the original LABEL allround CAPS for labelling the application solution

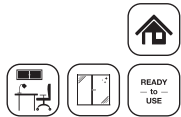

Glass and plastic cleaner

glasEFFEKT
6 x 1 l*
10 l

- Glass cleaner
- Ready to use for a quick clean once in a while
- For easy cleaning of windows, window frames, glass panes, glass cabinets and mirrors
- Stops dirt from quickly building up again
- Dries fast and streak-free
- Creates abundant foam – adheres well to vertical surfaces

hup GLASS XL roll
3 x 90 pieces, H x W: 30.5 x 31 cm

- Wet glass and mirror wipes
- Ready to use for easy cleaning once in a while
- For minor dirt stains on small glass surfaces
- Ready for immediate use
- Based on renewable cellulose

glass ECO
6 x 1 l*
10 l

- Eco-friendly glass cleaner
- Ready to use for a quick clean once in a while
- For easy cleaning of windows, window frames, glass panes, glass cabinets and mirrors
- Removes greasy and oily stains
- Provides a streak-free shine naturally

desktopPOWER
6 x 1 l**
10 l

- Universal spray cleaner
- Ready to use for daily office cleaning
- For screens, keyboards and desks
- With anti-static effect
- Dries quickly and streak-free without wiping
- Do not use on acrylic glass
- Plastic doors and textured surfaces that can't be cleaned with glass cleaner

* Purchase 6 x 1 l – get one foamGUN free of charge!
** Purchase 6 x 1 l – get two sprayGUNS free of charge!

Special products

eisFRESSER
21 kg

- Defroster
- Ready-to-use, spherical granules
- For the effortless removal of ice from frozen walkways (including car parks, helicopter landing pads)
- Prevents re-freezing of the cleared surface
- Dissolves ice up to eight times faster than conventional road salt
- Can also be used on natural and artificial stone

Special products

essigREINIGER ECO
6 x 1 l**
10 l

- Eco-friendly universal cleaner
- Ready to use for daily cleaning
- For all acid-resistant surfaces
- Natural vinegar – powerful against limescale in sanitary and kitchen areas
- Leaves a pleasant apple blossom fragrance
- Removes unpleasant odours with lasting effect

X CALC
6 x 1 l
10 l

- Descaling agent
- Concentrate for specific use
- For removing heavy, thick limescale deposits
- For descaling all acid-resistant surfaces (wet rooms)
- For descaling appliances (kettle, washing machine, dishwasher, steam nozzles)
- For appliances, follow the manufacturer's instructions and wet the joints well beforehand.

Surface cleaning and care

niroKING
6 x 1 l**
10 l

- Stainless steel cleaner and care oil
- Ready for use for specific application
- For cleaning and care of stainless steel surfaces: matt, polished and made of aluminium in kitchens and for fixtures (lifts)
- Removes grease and dirt residues
- Visually evens out stainless steel surfaces – for a well-kept appearance
- Not for use in the kitchen on surfaces in direct contact with foodstuffs

metallGLANZ
6 x 1 l
10 l

- Metal cleaning and care product
- Ready for use for specific application
- For cleaning stainless steel surfaces in kitchens
- High-quality metal surfaces (chrome, brass, bronze, nickel, copper) are cleaned by fine abrasive particles without scratching
- Gives a shiny, practically new appearance
- Special care film protects metal from renewed tarnishing and metal abrasion long term

möbelPOLITUR
6 x 1 l
10 l

- Wood care and cleaning oil
- Ready for use for specific application
- For the cleaning and care of varnished wooden surfaces (furniture, doors)
- Cleans, maintains and revitalises the wood structure
- Effuses a pleasant fragrance
- Wood is given a long-lasting, silky matt shine and is protected from staining again

** Purchase 6 x 1 l – get one foamGUN free of charge!

Art.-No. 4410300619

- Disinfecting sanitary cleaner
- integral 2GO dosing system for reliable, safe dispensing
- A more detailed product description can be found on page 116

redsant ECO
6 × 1 l**
10 l
Art.-No. 4440300308
Art.-No. 4440300411

- Eco-friendly sanitary cleaner
- Concentrate for everyday maintenance cleaning
- For cleaning sanitary facilities and wet rooms
- Cleans and dissolves limescale with maximum environmental compatibility
- Leaves a pleasant, fresh fragrance
- Can also be used as a foam cleaner

perIGLANZ
6 × 1 l**
10 l
Art.-No. 4440100208
Art.-No. 4440100211

- Deodorising sanitary cleaner
- Concentrate for everyday maintenance cleaning
- For cleaning sanitary facilities and wet rooms
- With repellent effect – leaves drip-free surfaces requiring no extra drying
- Prevents the development of unpleasant odours – leaving a pleasant, fresh fragrance
- Stops dirt from quickly building up again

easySPRAY
6 × 1 l*
10 l
Art.-No. 4440100108
Art.-No. 4440100111

- Cleaner for bathrooms and showers
- Ready to use for daily cleaning
- For cleaning fittings, tiles, shower cubicles, bathtubs and jacuzzi baths
- Removes build-up of dermal grease in bath tubs extra fast
- Leaves a pleasant, fresh fragrance
- Easy to use: apply foam, leave to work, then rinse off.

* Purchase 3 × 1 l – get six foamGUNS free of charge!
** Purchase 3 × 1 l – get one foamGUN free of charge!

Maintenance cleaner

hagodorPURE
6 × 1 l**
10 l
Art.-No. 4440101408
Art.-No. 4440101411

- Deodorising fragranced cleaner
- Concentrate for everyday maintenance cleaning
- For cleaning spa facilities and changing rooms
- Highly effective against all types of contamination (except algae, limescale, and urine scale).
- Prevents the development of unpleasant odours – leaving a pleasant, fresh fragrance
- Ideal for acid-sensitive surfaces such as marble

hagodorFLIEDER
6 × 1 l**
10 l
Art.-No. 4440100608
Art.-No. 4440100611

- Deodorising fragranced cleaner
- Concentrate for everyday maintenance cleaning
- For cleaning spa facilities and changing rooms
- Highly effective against all types of contamination (except algae, limescale, and urine scale).
- Prevents the development of unpleasant odours – leaving a floral fragrance
- Ideal for acid-sensitive surfaces such as marble

Enzymatic caps

The enzymatic sanitary CAPS are specifically developed for daily maintenance cleaning in sanitary areas. The enzymes contained act specifically against organic residues such as skin flakes. In addition, the sanitary CAPS remove typical soiling in sanitary areas, in particular limescale deposits. The concentrated CAPS form ensures safe, clean application as well as precise dosing.

Easy to use and supported by an environmentally friendly formulation and practical packaging, sanitary CAPS enable sustainable and efficient cleaning in sanitary and wet rooms. Thanks to their compact form, they take up only minimal storage space and make day-to-day work easier in professional use.

sanitary CAPS
20 × 3 g
Art.-No. 4440200548

- Environmentally friendly, enzymatic sanitary cleaner
- For daily maintenance cleaning in the sanitary and wet room area
- Self-dissolving cap without waste
- Portioned Caps for a safe and error-free dosage
- With a subtle citrus scent
- For labelling the application solution we recommend the LABEL sanitary CAPS

Basic cleaner

UROPHEN

- 6 × 1 l
10 l
- Art.-No. 4440100308
Art.-No. 4440100311
- Sanitary deep cleaner
 - Ready to use for basic cleaning
 - For basic cleaning of toilets and urinals
 - Highly effective against heavy deposits (e.g. limescale, urine scale)
 - Leaves behind a pleasant fresh floral scent
 - Viscous, so also effective on vertical surfaces

X PRESS

- 6 × 1 l
- Art.-No. 4440101208
- Liquid drain cleaner
 - Ready to use
 - All-purpose for any drains in bathrooms and kitchens
 - Highly effective without dangerous vapours
 - Self-actively dissolves blockages in pipes from hair, lime soap, grease, vegetables, and food residues
 - Removes unpleasant odours without damaging the pipes

Toilet hygiene

toiletOIL YUZU

- 6 × 1 l
- Art.-No. 4440101508
- Scented oil
 - Ready to use
 - For sanitary areas
 - Prevents long-lasting nuisance odours
 - Lemon fragrance blend with a hint of the sea
 - Apply sparingly to the toilet brush or use with scented sticks

toiletOIL FRESH

- 6 × 1 l
- Art.-No. 4440100808
- Scented oil
 - Ready to use
 - For sanitary areas
 - Prevents long-lasting nuisance odours
 - Fragrance of sea freshness conveys a well-kept indoor climate
 - Apply sparingly with a toilet brush or fragrance stick

CLOSOL

- 6 × 1.3 kg
- Art.-No. 4440200322
- Powder sanitary cleaner
 - Ready to use for daily cleaning
 - For deep cleaning toilet and bathtub
 - Highly effective against heavy deposits (e.g. limescale, urine scale)
 - Prevents the development of unpleasant odours – leaving a pleasant, pine fragrance
 - Dissolves effervescently in water and goes into action

blueMARINES

- 6 × 1 kg
- Art.-No. 4440200433
- Bowl blocks for urinals
 - Contained microorganisms prevent the development of unpleasant odours
 - Prevent limescale residues
 - Spread a pleasant, subtle, fresh scent
 - Pressed, dissolve slowly and without residue

bloomFRESH 2GO

- 2 × 2.6 l
- Art.-No. 4410201419
- Room spray and odour remover
 - integral 2GO dosing system for reliable, safe dispensing
 - A more detailed product description can be found on page 88

deoFRESH

- 6 × 1 l*
- Art.-No. 4450200408
- Odour remover
 - Ready-to-use, propellant-free, fast-acting spray
 - For neutralising unpleasant odours in the air and in fabrics
 - Cane be sprayed on curtains, sofas, carpets, car seats and clothes
 - Leaves a subtle floral fresh scent
 - Also ideal for use against cigarette, sweat and food odours and unpleasant odours in waste disposal areas.

sunFRESH

- 6 × 0.5 l
- Art.-No. 4450200507
- Room spray
 - Ready-to-use, propellant-free spray
 - For scented treatment of unpleasant odours in the air
 - Creates a pleasant room climate
 - Leaves a fruity-floral fragrance (of peach, grapefruit and pear)
 - Long-lasting cigarette and food odour neutraliser

MAGICUS

- H × W × D: 89 × 27 × 27 cm
- Art.-No. 4450800100
- Scent and light column
 - For automatic dispensing of room fragrance
 - Diffuses fragrances evenly in 50 to 250 square metre rooms
 - Different colour settings possible
 - Fragrance intensity and interval individually adjustable
 - Low noise, visually appealing
 - Fragrance mixtures designed for use in fragrance marketing
 - Alternative: XIBU AIRFRESH hybrid (page 37)

MAGICUS greenTEA

- 2.5 l
- Art.-No. 4450900300
- Room scent
 - For the MAGICUS scent and light column
 - IFRA-compliant and hypoallergenic
 - The scent of green tea conveys a feeling of cleanliness and order, and has a revitalising effect on body and mind
 - Particularly suitable for use in department stores, hotel lobbies, seminar rooms and long corridors

MAGICUS whiteMUSK

- 2.5 l
- Art.-No. 4450900200
- Room scent
 - For the MAGICUS scent and light column
 - IFRA-compliant and hypoallergenic
 - The musky scent conveys a sense of well-being, and has a calming effect
 - Especially suitable for use in relaxation rooms, bars and lounges

* Purchase 6 × 1 l – get six foamGUNS free of charge!

Floor – basic cleaner

ZACK
10 l Art.-No. 4430100811

- PVC basic floor cleaner
- Concentrate for basic cleaning of alkali-insensitive floor types (PVC, stone)
- For quick, effortless removal of multiple, old layers of care products
- Deep cleaning with excellent wetting even of water-repellent floors
- Also suitable as deep cleaner for uncoated, alkali-insensitive floors
- Can be used with machines and manually, not suitable for linoleum, rubber and wooden floors

SKAT
10 l Art.-No. 4430100111

- Linol basic floor cleaner
- Concentrate for basic cleaning of alkali-insensitive floor types (linoleum, rubber)
- For the quick, effortless removal of care product layers, even from unknown floor coverings
- Cleans powerfully with hardly any foaming, thus effective when vacuuming
- Also suitable as a deep cleaner for uncoated floors
- Can be used with machines and manually, not suitable for wooden floors

NEOLAN ECO
10 l Art.-No. 4430100711

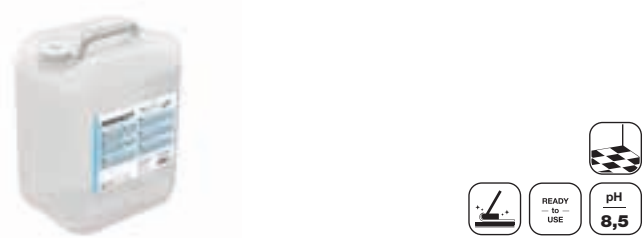

- Eco-friendly basic floor cleaner
- Concentrate for basic cleaning of alkali-insensitive floor types (linoleum, rubber)
- For the removal of waxy coatings, non-polymer based
- Cleans powerfully with minimal foaming, thus effective when vacuuming
- Also suitable as a deep cleaner for uncoated floors
- Non-caustic labelled, therefore recommended for manual basic cleaning

stoneCLEAN ECO
6 x 1 l Art.-No. 4430100608

- Fine stoneware maintenance and basic cleaner
- Concentrate for tenside-free maintenance and deep cleaning
- For microporous surfaces (fine stoneware, natural stone, all rough stone coverings) in spa, kitchen and sanitary areas
- Powerful cleaner with no adhesive effect during subsequent disinfection with disinfectants containing QAC
- Less resoiling thanks to tenside-free formulation
- Can be used with machines and manually, not suitable for linoleum, rubber and wooden floors

Coating products

PERFECT
10 l Art.-No. 4431900411

- Priming dispersion coating
- Ready-to-use coating, with extremely high durability due to polyurethane
- For coating PVC, linoleum and rubber
- Forms a high gloss, resistant and highly elastic protective film
- High solid content, resulting in particularly high opacity with a high gloss level
- Suitable for the ultra high speed method

SELECT
10 l Art.-No. 4431900111

- Polymer dispersion coating
- Ready-to-use coating, extremely hard-wearing
- For coating PVC, linoleum and rubber
- Forms a glossy, durable and highly elastic protective film
- High solid content, resulting in particularly high opacity with a high gloss level
- Suitable for the ultra high speed method

Floor hygiene

Coating products

selectMATT ECO
10 l Art.-No. 4431900211

- Eco-friendly polymer dispersion coating
- Ready-to-use coating, extremely hard-wearing
- For coating PVC, linoleum and rubber
- Forms a matt, durable and highly elastic protective film
- Ideal for floors where a non-gloss finish is desired
- Suitable for the ultra high speed method

selectMED
10 l Art.-No. 4431901111

- Polymer dispersion coating
- Ready-to-use coating, extremely hard-wearing
- For coating PVC, linoleum and rubber
- Forms a glossy, durable and highly elastic protective film
- Ideal in the medical sector where floors are frequently disinfected
- Suitable for the ultra high speed method

perfectANTISLIP
10 l Art.-No. 4431901211

- Polymer dispersion coating
- Ready-to-use coating, extremely hard-wearing
- For coating PVC, linoleum and rubber
- Forms a slightly glossy, slip-resistant maintenance film compliant with DIN 18032-2
- Ideal for gymnasiums, fitness rooms, care and nursing homes, and exhibition halls
- Suitable for use in cleaner processes

SIVEX
10 l Art.-No. 4431901311

- Stone maintenance coating
- Ready-to-use coating for the protection of porous stone floors
- For coating stone and marble floors indoors
- Forms a silky-matt protective film that guards the stone against penetration of liquids and discolouration (red wine)
- Visually enhances stone floors, especially after polishing
- Can be polished either by a single-disc machine or by hand

selectBLACK
17 x 200 ml Art.-No. 4431900841

- Black dye for coatings
- Ready-to-use dye
- For colouring or blackening all coatings
- Ensures even pigmentation of black floors
- Ideal for bowling alleys, asphalt floors and car park walkways
- Can only be used in combination with coatings

Practical room for floor cleaning in the Hagleitner Academy in Zell am See

Carpet cleaner

carpetPRO ECO
10 l
Art.-No. 4430400311

- Eco-friendly carpet cleaner
- Concentrate for interim and basic cleaning
- For the all-over spray extraction method on colourfast carpets
- Powerful cleaning without damaging factory impregnations
- Tenside-free, prevents resoiling in the long term
- Minimal foaming, so not suitable for carpet shampooing

carpetSPRAY ECO
6 x 1 l*
Art.-No. 4430400208

- Eco-friendly carpet and upholstery cleaner
- Ready-to-use spray for interim cleaning
- For stain removal, also for all-over cleaning with yarn pads and fibre pads
- Carpet dries quickly, thus ideal for selective interim cleaning even during operation
- Tenside-free, prevents resoiling in the long term
- Small textile surfaces, such as upholstered furniture, chairs and couches, are restored to a good-as-new appearance

* Purchase 3 x 1 l – get six sprayGUNS free of charge!

Special cleaner

TAP
6 x 500 ml
Art.-No. 4430600507

- Anti-foaming agent
- Concentrate for use in the dirty water tank
- For wet vacuum cleaners and scrubber driers, to prevent the build-up of foam
- Can be added to the tank both as a preventive measure or if foam is present
- Prevents foaming over and enables more effective work
- Not to be added to the fresh water tank

mopSPRAY
6 x 1 l
Art.-No. 4430600208

- Floor cleaning oil
- Ready-to-use spray for dry mopping
- For all floor types
- Binds fine dirt, facilitating dry-mopping
- Leaves a dust-free, clean surface

DETAS
10 x 500 ml
Art.-No. 4430600407

- Solvent
- Ready-to-use solvent for specific application
- For use on textile coverings, upholstery, hard floors, glass
- Removes chewing gum, candle wax, glue, tar residues, etc.
- Leaves a pleasant orange scent
- Manually apply with a cloth to treat the stain

Dosing aids and accessories

- System bottle
- Ergonomic, for filling and decanting cleaning agents
- Optimal supplement for the integral 2GO dosing device
- Ideal for preparing the hygienicDES CAPS application solution
- Corresponding labels can be found on page 105.

NEW

KIT foamGUN PRO

H × W × L: 12 × 123 × 14 cm Art.-No. 4450704550

- Electric foam gun
- Adjustable foam
- With QUICK CHANGE adapter for flexible changing of cleaning agents
- Suitable for all Hagleitner cleaning products with foamGUN PRO pictogram
- Suitable for bottles with a standard thread
- including rechargePOWER hybrid (see page 29), USB charging adapter and 1× QUICK CHANGE adapter

foamGUN PRO QUICK CHANGE

5 pcs/pack

Art.-No. 4450704600

- Quick-change adaptor for the foamGUN PRO
- For the quick change of different cleaning agents

foamGUN PRO WIDE SPRAYER

3 pcs/pack

Art.-No. 4450704700

- Beam nozzle for the foamGUN PRO
- For a large-area application

sprayGUN

Art.-No. 4450702100

- Spray attachment
- Handy, for the 1 l refillBOTTLE
- Suitable for spraying on or foaming (depending on the product) cleaning products

foamGUN

Art.-No. 4450702200

- Foaming attachment
- Handy, for the 1 l refillBOTTLE
- Suitable for spraying on or foaming (depending on the product) cleaning products

dosingBALL

Art.-No. 4450703300

- Dosing aid for the 1 l refillBOTTLE
- Pressing the bottle increases the amount of liquid to exactly 20 ml, allowing it to be poured out easily
- Can remain as a cap on the refillBOTTLE

dosingAID

Art.-No. 4450700200

- Dosing aid for the 1 l refillBOTTLE
- Pressing the bottle increases the required amount of liquid in the dosing aid, allowing it to be poured out easily
- Maximum dosing volume: 100 ml

dosingPUMP

for 1 l

Art.-No. 4450700300

for 5/10 l

Art.-No. 4450700400

for 25 l

Art.-No. 4450700500

- Easy to use, for various Hagleitner container sizes
- Unscrew and pump the required amount of liquid out of the container
- Dosage: 4 ml/actuation with dosingPUMP 1 l, 30 ml/actuation with dosingPUMP 5/10 l and 25 l

drainTAP

for 5/10 l

Art.-No. 4450700700

for 25 l

Art.-No. 4450700800

- Drain cock
- Easy to use
- For clean, waste-free decanting of cleaning products from 5, 10 or 25 l containers

universalLABEL

17 × 12.5 cm

Art.-No. 4450702000

- Labels
- Double-layered, for proper labelling of ready-to-use solutions or fillings from larger containers
- Transparent foil for protection of manual labelling
- Reliably prevents bottle mix-ups

LABEL hygienicDES CAPS

26 × 12.5 cm

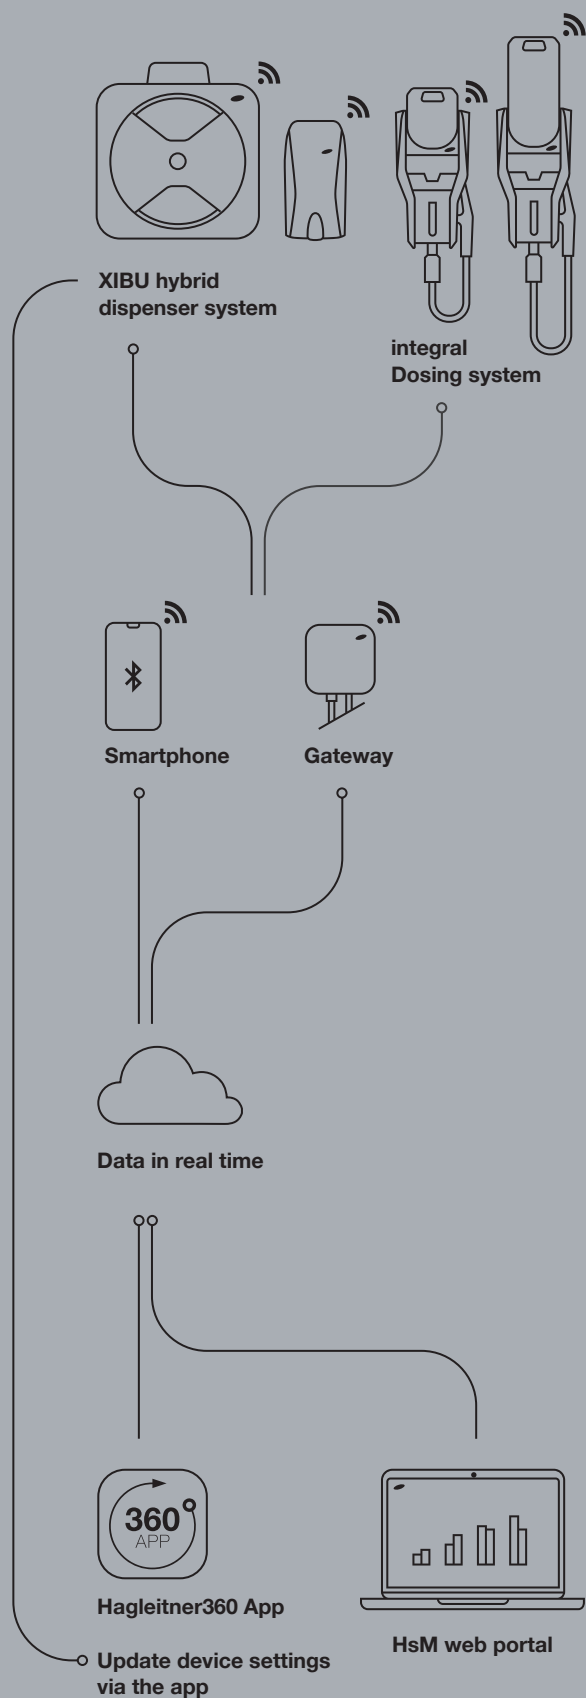

Art.-No. 4450703100

- Labels
- For labelling the refillBOTTLE 1 l; for correct labelling of the ready-to-use hygienicDES CAPS application solution
- With pictograms and colour coding

Focus on disinfection

Disinfection

Disinfection must be effective – demonstrably so; expert opinions give their seal of approval. It's all about health. The European Union's Biocide Regulation sets clear standards, so look out for this compliance-symbol at Hagleitner. These products comply with Biocidal Products Regulation 528/2012, corresponding with state-of-the-art development.

If bacteria and viruses spread unchecked, this can have serious consequences. Hagleitner has made it its mission to counteract this with certified disinfection for hands, dishes, laundry and surfaces. Hagleitner uses digital hygiene monitoring to make hygiene visible, and easy to plan and document (page 21).

Hagleitner produces all disinfection products itself. Research, development, production, packaging and saturation take place on site in Zell am See. This not only guarantees delivery reliability, but also reduces transport distances.

Art.-No. 4310200100

- Disinfecting all-purpose detergent
- Powder for all washing machines
- Disinfects from 60 °C
- Bactericidal, yeasticidal, mycobactericidal*
- Ideal for heavy-duty laundry (e.g. kitchen linen)
- Dermatologically tested and approved

* explanation of the spectrum of activity on page 120

flair DES 60
15 kg
Art.-No. 4310200700

- Disinfecting all-purpose detergent
- Powder for all washing machines
- Disinfects from 60 °C
- Bactericidal, yeasticidal, mycobactericidal, virucidal, sporicidal, fungicidal*
- Ideal for hygiene-sensitive laundry (e.g. underwear)
- Dermatologically tested and approved

Use disinfectant safely:
always read the label and product information before use.

Surface disinfection

Highly concentrated disinfectant

hygienicDES 2GO
2 × 2.6 l
Art.-No. 4410300419

- Disinfectant surface cleaner
- pH-neutral, highly concentrated
- Ideal for delicate surfaces
- Bactericidal, levorucidal, limited virucidal*
- Universal usage in spa and health areas
- integral 2GO dosing system for reliable, safe dispensing

sanitaryDES 2GO
2 × 2.6 l
Art.-No. 4410300619

- Disinfecting sanitary cleaner
- pH-acidic, highly concentrated
- Cleans, disinfects and removes limescale
- Bactericidal, levorucidal, limited virucidal*
- All-purpose use in sanitary and spa areas
- integral 2GO dosing system for reliable, safe dispensing

ecosol DES 4MIX
2 × 1.3 l
Art.-No. 4210102244

- Disinfecting kitchen cleaner
- pH-alkaline high concentrate
- QAC-free
- 1.3 l provide up to 130 l ready-to-use solution
- Bactericidal, yeasticidal*
- Particularly suitable for the foodstuffs sector
- integral 4PURE/MIX dosing system for reliable, safe dispensing

Concentrated disinfectant

hygienicDES PERFECT
10 kg
Art.-No. 4460101511

- Surface disinfectant
- pH-alkaline concentrate
- All-purpose use as QAC-free
- Bactericidal, yeasticidal, mycobactericidal, limited virucidal*
- Excellent cleaning performance in the food sector
- Suitable for disinfecting non-invasive medical devices

hygienicDES 3000
10 kg
Art.-No. 4460100411

- Surface disinfectant
- pH-neutral concentrate
- Ideal for delicate surfaces
- Bactericidal, yeasticidal, limited virucidal; additionally virucidal against polyoma and rotaviruses*
- Universal usage in spa and health areas

* explanation of the spectrum of activity on page 120

Use disinfectant safely:
always read the label and product information before use.

Surface disinfection

Disinfectant in CAPS form

hygienicDES CAPS
80 × 5 g
Art.-No. 4460101433

- Surface disinfectant
- pH-alkaline powder concentrate
- Bactericidal, yeasticidal, mycobactericidal, virucidal, fungicidal, sporocidal – therefore highly effective against Clostridioides difficile*****
- Suitable for disinfecting non-invasive medical devices
- Practical to use – individually packed in water-soluble film
- For labelling the application solution we recommend the LABEL hygienicDES CAPS (see page 146)

disinfection CAPS
20 × 3 g
Art.-No. 4460102148

- Surface disinfectant
- pH-alkaline powder concentrate
- Bactericidal, yeasticidal, mycobactericidal, virucidal, fungicidal, sporocidal*****
- Portioned Caps for a safe and error-free dosage
- Self-dissolving cap without waste
- For labelling the application solution we recommend the LABEL disinfection CAPS (see page 146)

Ready-to-use disinfectant

hygienicDES PLUS
6 × 1 kg*
Art.-No. 4460101808

- Surface disinfectant
- Ready to use
- Rapid disinfection without alcohol – for sensitive surfaces
- Bactericidal, yeasticidal, limited virucidal; additionally virucidal against polyoma and rotaviruses*****
- Universal usage in spa and health areas
- Suitable for disinfecting non-invasive medical devices

hygienicDES FORTE
6 × 0.9 kg**
Art.-No. 4460100808

hygienicDES AC
6 × 1 kg***
Art.-No. 4460101608

- Surface disinfecting foam
- Ready to use
- Cleans, disinfects and removes limescale
- Bactericidal, yeasticidal, mycobactericidal, fungicidal, virucidal, therefore highly effective against noroviruses*****
- All-purpose use in sanitary and food areas
- As a foam, economical and fast-acting

seatDISINFECT
6 × 600 ml
Art.-No. 4110711945

- Surface disinfectant
- Ready to use, no alcohol – for sensitive surfaces
- Bactericidal, levorucidal, limited virucidal*****
- Ideal for toilets in public areas and in the health sector
- Economical and hygienic dispensing with XIBU SEAT DISINFECT foam dispenser (page 43)
- For use with the XIBU DISINFECTION SEAT without a water connection (page 45)

* Purchase 6 × 1 kg – get one sprayGUN and two foamGUNS free of charge!
** Purchase 6 × 0.9 kg – get one sprayGUN free of charge!
*** Purchase 6 × 1 kg – get two foamGUNS free of charge!
**** Suitable for disinfecting non-invasive medical devices
***** explanation of the spectrum of activity on page 120

XIBU wet wipe dispenser

XIBU 2WIPE hybrid

- World's first automatic wet wipe dispenser
- Contact-free, sensor-controlled opening
- Easy and safe removal of wet wipes with only one hand
- Space for two Flowpacks, ensuring constant availability by automatically switching between empty and full packs
- Transmits data on fill level and energy status (LoRaWAN-enabled)
- Power supply either via energyBOX M, rechargeable battery or mains adapter (page 31)
- Incl. CAP and CAP LABEL

XIBU 2WIPE hybrid white

H x W x D: 34,4 x 34,0 x 15,5 cm Art.-No. 4451400200

Refills

hup DES FORTE M

6 x 100 wipes, 20 x 20 cm Art.-No. 4450304542

- Disinfecting surface cleaning wipes from the pack
- Ready to use, with alcohol
- For alcohol-resistant, medium-sized surfaces and objects (approx. 1 m² per wipe)
- Bactericidal, yeasticidal, mycobactericidal, limited virucidal PLUS; additionally effective against noroviruses within one minute**
- Suitable for disinfecting non-invasive medical devices
- All-purpose use, also in the food sector
- Perfect for use with the XIBU 2WIPE hybrid wet wipe dispenser

hup DES PLUS M

6 x 100 wipes, 20 x 20 cm Art.-No. 4450304342

- Disinfecting surface cleaning wipes from the pack
- Ready to use, without alcohol
- For sensitive, medium-sized surfaces and objects* (approx. 1 m² per wipe)
- Bactericidal, yeasticidal, limited virucidal; additionally virucidal against polyoma and rotaviruses**
- Suitable for disinfecting non-invasive medical devices
- Compatible with plexiglass, making it ideal for wellness areas
- Perfect for use with the XIBU 2WIPE hybrid wet wipe dispenser

Set-up options

XIBU 2WIPE FLOOR

- Mobile stand for the XIBU 2WIPE hybrid wet wipe dispenser
- Enables the wet wipe dispenser to be placed anywhere where wall mounting is not possible or undesirable
- Wheels mounted on the back allow full flexibility of use
- The additional option of mounting a XIBU PAPERBOX allows for the disposal of used wet wipes on the mobile stand.

XIBU 2WIPE FLOOR

H x W x D: 132,0 x 40,8 x 49,3 cm Art.-No. 4451500450

- Storage box for hup XL rolls
- hup wipes can be removed with one hand.
- Can be closed airtight, prevents the wipes from drying out
- Protects against germ and bacteria build-up
- Sliding lid won't tear off
- hup BOX can be processed with heat or popped in the dishwasher
- hup BOX takes up little space to fit in any corner.
- No spread of germs thanks to the wall holder
- Ideal for carrying on cleaning trolleys
- In four colours for easier product identification

hup DES FORTE XL roll

3 x 90 wipes, 30.5 x 31 cm Art.-No. 4450304400

- Disinfecting surface cleaning wipes on a roll
- Ready to use, with alcohol
- For alcohol-resistant, medium-sized surfaces and objects (approx. 2.5 m² per wipe)
- Bactericidal, yeasticidal, mycobactericidal, limited virucidal PLUS; additionally effective against noroviruses within one minute**
- Suitable for disinfecting non-invasive medical devices
- All-purpose use, also in the food sector

hup DRY XL roll

3 x 90 wipes, 30.5 x 31 cm Art.-No. 4450301300

- Dry non-woven wipes
- Extra strong made of high-quality, lint-free non-woven material
- For soaking with disinfectant
- For distributing disinfectant

hup WALL

1 piece Art.-No. 4431203100

- Holder for hup BOX
- For hygienic, space-saving wall mounting
- Chrome-plated
- Lockable and theft-proof
- Including mounting materials

hup DES PLUS XL roll

3 x 90 wipes, 30.5 x 31 cm Art.-No. 4450304200

- Disinfecting surface cleaning wipes on a roll
- Ready to use, without alcohol
- For sensitive, medium-sized surfaces and objects* (approx. 2.5 m² per wipe)
- Bactericidal, yeasticidal, limited virucidal; additionally virucidal against polyoma and rotaviruses**
- Suitable for disinfecting non-invasive medical devices
- Compatible with plexiglass, making it ideal for wellness areas
