- Electrical, acoustic and mechanical systems
- Integration of systems & sub systems
- Structural main chassis
- Acoustic signature reduction
- Submarine hydrophone supports
- Unmanned Vehicles (UUV, UAV, UGV, USV, AUV)
- Sonar arrays, dipping and towed
- Flank array sonar
- Submarine Comms mast
- Submarine whip aerials
- Submarine stove supports
- Omni directional SATCOM antennas
- Scientific payload systems
- System pressure vessels
- Deployable underwater arrays
- Winch and towing systems and housings
- Seabed sensor systems
- Manufacture of complex composite components
- Testing and trials support
- Underwater glider design and manufacture
- Naval navigation radar
- Bespoke military motors and generators
- Weapons carriage systems
- Ballistic protection panels (composite armour)
- Ballistic modular propulsion systems
- Air search radars
- Radomes
- LEMV military heavier than air vehicle
- Range Finder platforms
- Combat vehicles
- Concept to DFM and DFC
- Prototyping
