- **Industry.**
- **IA**

**We also
have
experience**

in B2B and B2C
strategies for
Ecommerce.

We also work

in software development
for Webapps, Apps and
Cloud.

Main areas of interests and experience

Tech Startups

From MVP to full product development

Industry 4.0 and systems integrations for products

eHealth projects based on Webapps and Mobile Apps

IOT projects and connected devices

Development tools to digitalize companies

IA and Generative IA

We are Apps & Cloud developers

We develop using the current standards of software development with our Team. Here some of the technologies and frameworks we work with:

Why Imaginae?

1

We are specialists and we know the Tech Startups, eHealth, Pharma, Connected devices, IoT and Industry market needs.

2

We develop Webapps Apps with UI prototypes.

3

We have experience in creating digital MVPs for companies and startups.

4

We are experts in device connected projects with Bluetooth, Wifi and others to interact with physical environments and send data to the cloud to analyze and have ready for IA.

5

We are frontend and backend experts.

6

We use cloud services such as Amazon AWS and Azure for IA and BigData purposes.
