

National Strategic  
Project based on  
Presidential  
Regulation 17 of 2025

# INDUSTRIAL SALT REFINING PLANT

SARI GARAM INDONESIA

## VISION & MISSION

WE HAVE  
SOLUTIONS WITH  
CLEAR GOALS &  
OBJECTIVES

PROFESSIONALS  
WITH STRONG  
TEAMWORK AND  
INTEGRITY

FAST & EFFICIENT

NEVER GIVE UP  
UNTIL REACHING  
THE GOAL SO AS  
TO MAKE OUR  
COMPANY THE  
MARKET LEADER  
AND THE  
LARGEST IN ITS  
FIELD

**Presidential Regulation  
Number 17 of 2025  
concerning the Acceleration  
of National Salt  
Development**

**National salt needs reach  
4.9 million tons/year.**

**84% is the need for the  
manufacturing industry  
around 4,1 million tons of  
industrial salt.**

To process high-quality salt according to industry standards, high and modern technology is needed, because it currently uses conventional or simple methods.

Our salt processing & development program is supported by the government through relevant ministries & salt farmers who provide raw materials through cooperatives/small medium enterprises/economic organizations.

## **The Market Segmentation**

Electric Battery (Sodium Ion Battery) - Chlor Alkali -  
Miscellaneous Food - Cosmetic & Pharmaceutical -  
Basic Chemical - Water Treatment - Leather & Textile -  
Oil Drilling - Paper

# Industrial Salt Refining Plant

- Land Located in East Java, Indonesia

Garam  
Indonesia

- Long Term Strategic Partnership up to 10 Years

SARI GARAM INDONESIA

# Industrial Salt Refining Plant

**Total Investment**  
**USD 55,028,000\***

Investment will be used for land acquisition, factory construction, purchase of salt refining machines and equipment, machine and equipment installation costs, operational permits, purchase of raw salt materials, CSR (Corporate Social Responsibility), taxes, working capital.

# Industrial Salt Refining Plant

**Capacity 168,000 tons / year**

**Land area 4 Ha (Hectare)**

**168,000 tons\* Production / year**

**USD 84,000,000\* Sales / year**

**USD 50,400,000\* Net Profit / year**

**Break Even Point (BEP) = 12 Months\***

**Return On Investment (ROI) = 91,6%\***

**\*Note: Assumptions that all nominal, prices, costs, profits can change at any time based on exchange rates.**

# Industrial Salt Refining Plant

## FUNDING & NET PROFIT SHARING SCHEME

Investor 60%

SGL Corp 40%

Net Profit Sharing

(1st - 2nd Year) Investment

(3rd - 10th Year) ROI & Net Profit Sharing

# Industrial Salt Refining Plant

## Cooperation Agreement (Duties & Responsibilities)

### Investor:

- Provide investment capital and project supervision.

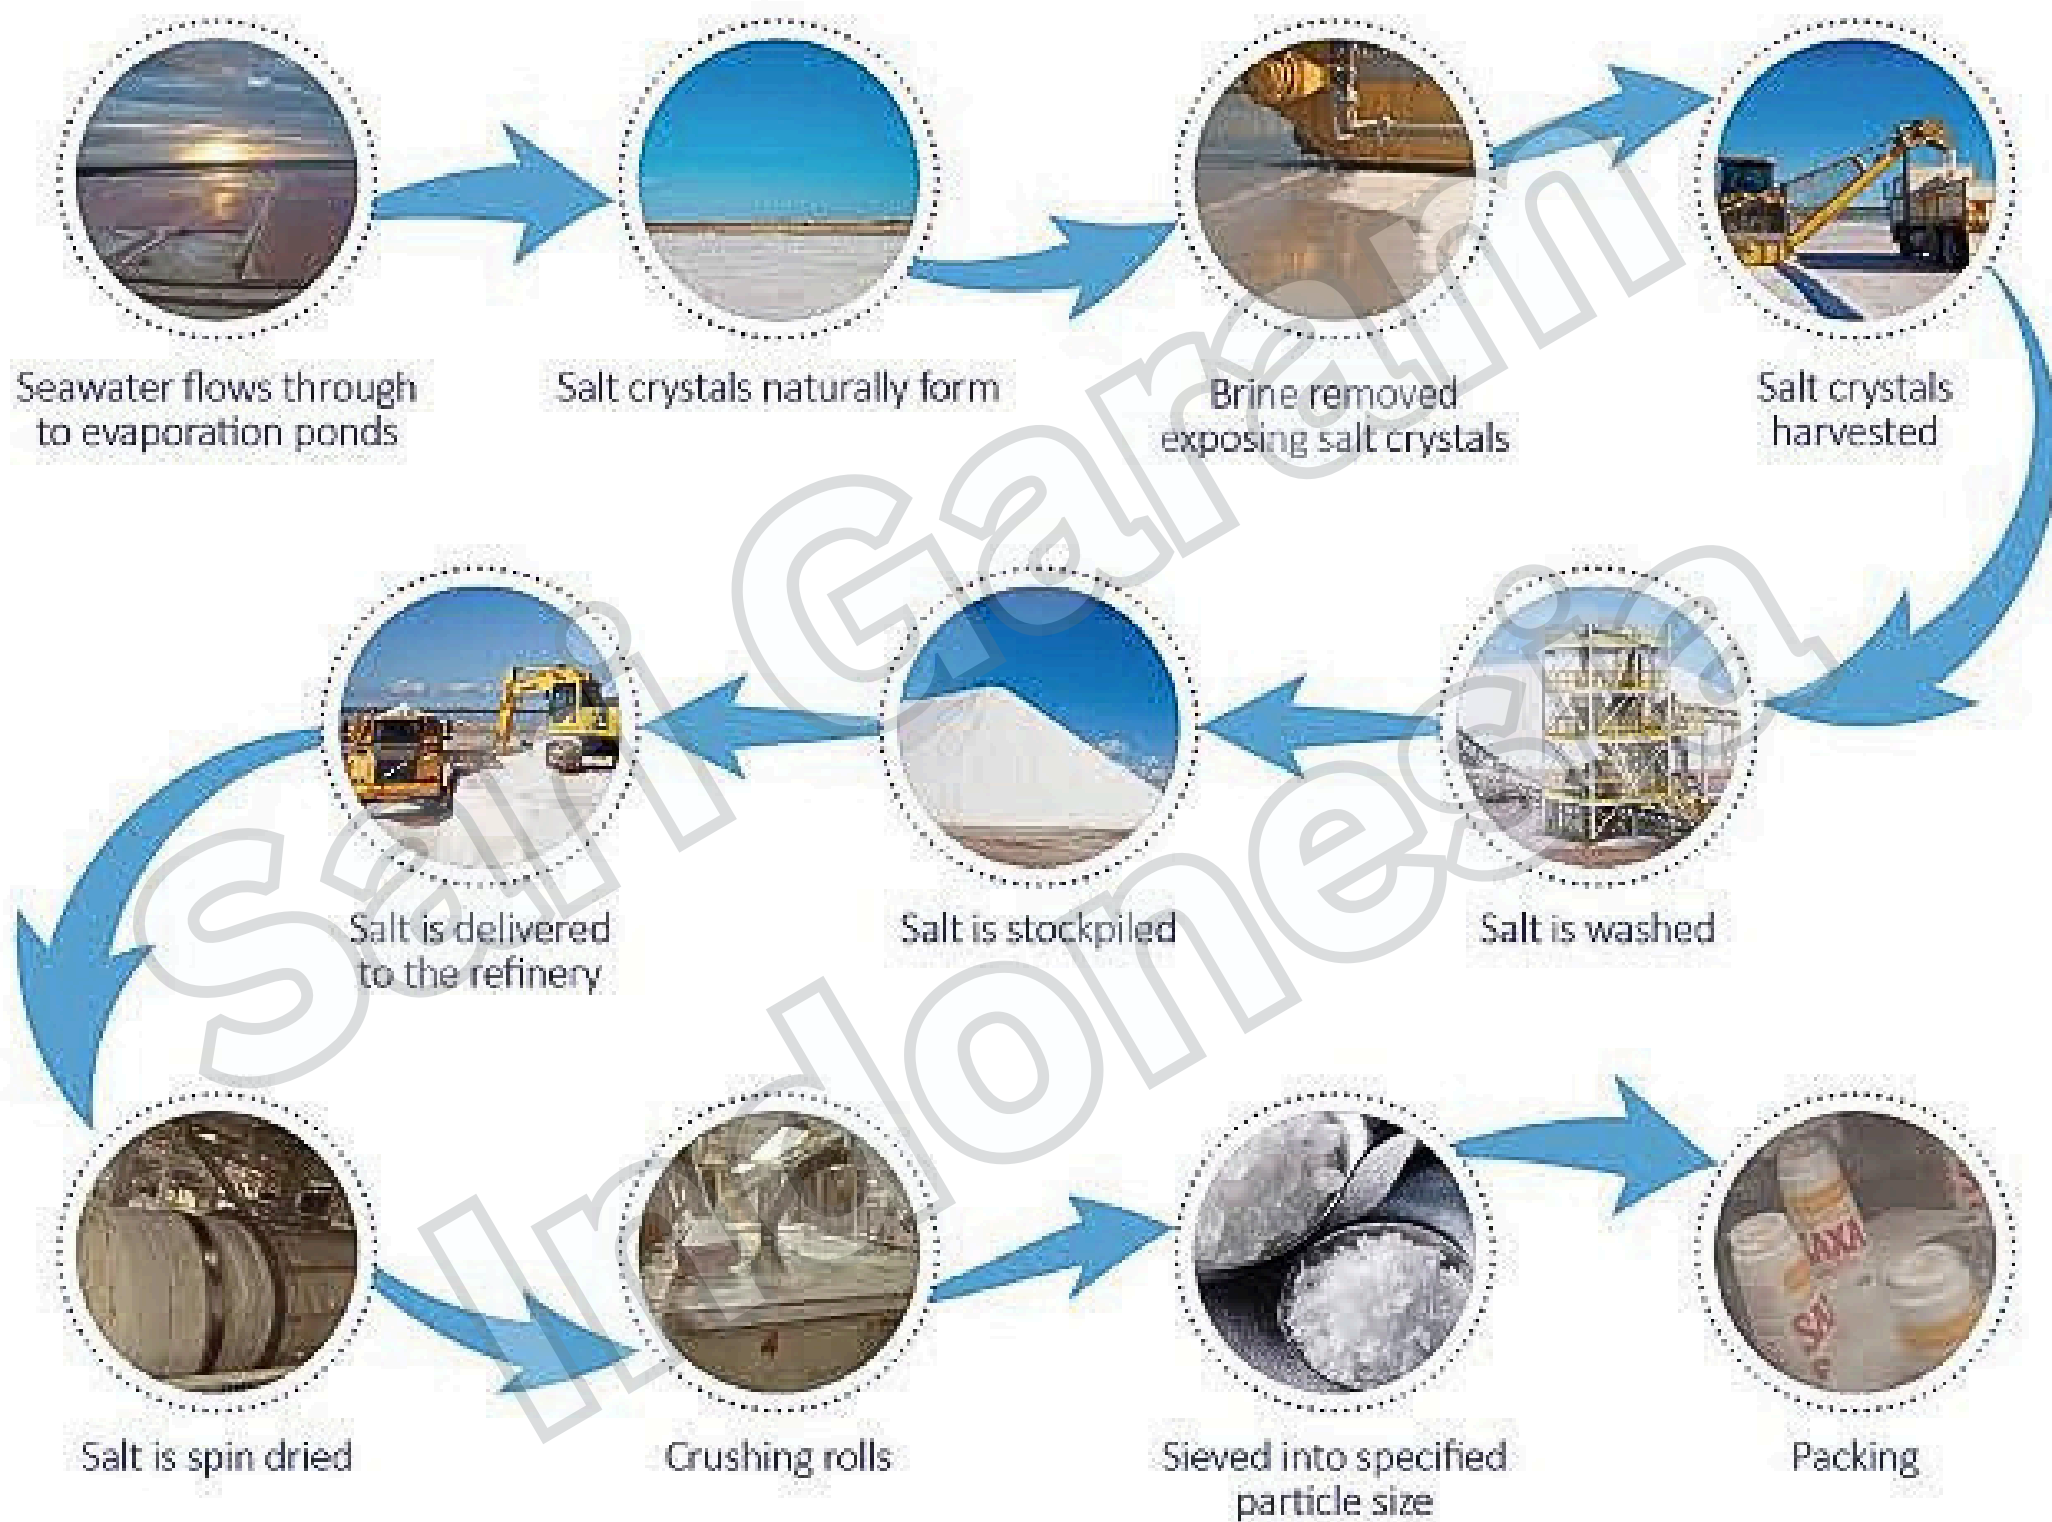

### Operational executor (Project Management):

- Provide salt refining machine & land for industrial salt processing plants.
  - Take care of permits & regulations.
  - Establishment of factories.
- Provide skilled manpower & human resources.
- Providing raw materials in collaboration with several cooperatives/small medium enterprises.
- Production, distribution & operational processes.
  - Promotion, marketing & sales.
