

# OLIVIA SYMONS

Medical & Scientific Illustrator

## COMMUNICATION CHALLENGES

Early-stage technologies and scientific research are often difficult to communicate across audiences. I create visuals that help explain complex systems, workflows, and mechanisms for investors, clinicians, researchers, patients, and interdisciplinary teams.

## VISUAL SOLUTIONS

- Technology and workflow infographics
- Mechanism-of-action illustrations
- Investor and pitch deck visuals
- System and process diagrams
- Patient and clinician education materials
- Prototype and concept visualizations
- Clinical trial and research graphics

## SELECTED COLLABORATIONS
