

Who we are

We are a European network of cancer research funders and stakeholders devoted to driving translational cancer research through long-standing cross-border funding, collaboration, and shared strategic priorities.

What we are working on

On delivering joint transnational calls, supporting early-career researchers, supporting patient involvement, and preparing a sustainable network to reinforce translational cancer research in Europe and beyond.

What's the one thing we need next

Next, we need broader engagement from public and private funders, including governments, to expand the diversity of stakeholders engaged in collaborative research actions.

**5 years Mission Cancer:
Stronger Through Connection**
