DIVING INTO LCA

Understanding Leader's LCA

This course equips leaders and managers with the necessary knowledge and skills to make sustainable decisions using life cycle thinking.

It covers the basic concepts, methodologies, and applications of LCA, enabling participants to communicate with LCA specialists and consultants and build more environmentally friendly businesses.

BENEFITS

- Equips decision-makers with fundamental insights into LCA concepts and their strategic, compliance, and communication implications.
- Demonstrates the high-level process of conducting LCAs.
- Examines LCA results, highlighting the advantages and limitations of the methodology.
- Enables busy professionals to engage with the material at their own pace, regardless of their location.

LEARNING OUTCOMES

INTRODUCTION TO LIFE CYCLE LIFE CYCLE ASSESSMENT

Participants will gain a fundamental understanding of Life Cycle Thinking and how it plays a crucial role in sustainable decision-making.

THE MAIN CONCEPTS WITHIN ENVIRONMENTAL IMPACT FIELD

Participants will understand how to differentiate between LCA, GHG, EPD, and PEF and other LCA related concepts.

LCA APPLICATIONS AND ENVIRONMENTAL HOTSPOTS

Participants will explore real-world examples of LCA applications and learn to identify environmental impact hotspots.

HOW TO IMPLEMENT LCA IN AN ORGANIZATION

Participants will be guided through the main steps that allow an organization to prepare itself to implement LCA.

4 Hour Online Course
