

Reimagining Pediatric Health Education

A CASE STUDY IN REDESIGN,
OPTIMIZATION & FULL-STACK
MERN DEVELOPMENT

Project Overview:

Industry: Pediatric Health & Education

Client's Goal: Create a more engaging and scalable web experience for kids and parents

Challenges: Outdated UI, performance lags, low scalability

Our Role: End-to-end transformation via modern stack and design thinking

Boosting Engagement with a Purposeful CTA

- ▶ Redesigned the CTA with friendly UI and clear copy
- ▶ Simple form boosts lead gen via emotional appeal
- ▶ Visually engaging to both kids and adults

Smart UX for Complex Messaging

- ▶ Structured content into clean, expandable sections
- ▶ Addresses needs of parents, providers, and children
- ▶ Intuitive, accessible, mobile-optimized layout

Easing Child Health Anxiety Through **Storytelling**

At Tiny Docs, we make interactive online content that simplifies science, nurtures healthy habits, and empowers younger generations. With our cast of inclusive characters, Tiny Docs alleviates the anxiety surrounding pediatric health challenges by speaking a language that kids can understand.

Interactive and Engaging Content

Educational health is important, and it shouldn't end when you leave the doctor's office. That's why Tiny Docs uses animated characters, interactive features, blogs, games, and other engaging tools to make complex health topics accessible and fun for children.

Inclusive and Universal Design

The content is carefully crafted to cater to both children and adults from diverse backgrounds. This inclusivity ensures that the educational material is understandable by a wide audience, regardless of their prior knowledge or experience with health topics.

Expertly Reviewed Material

Educational health is important, and it shouldn't end when you leave the doctor's office. That's why Tiny Docs uses animated characters, interactive features, blogs, games, and other engaging tools to make complex health topics accessible and fun for children.

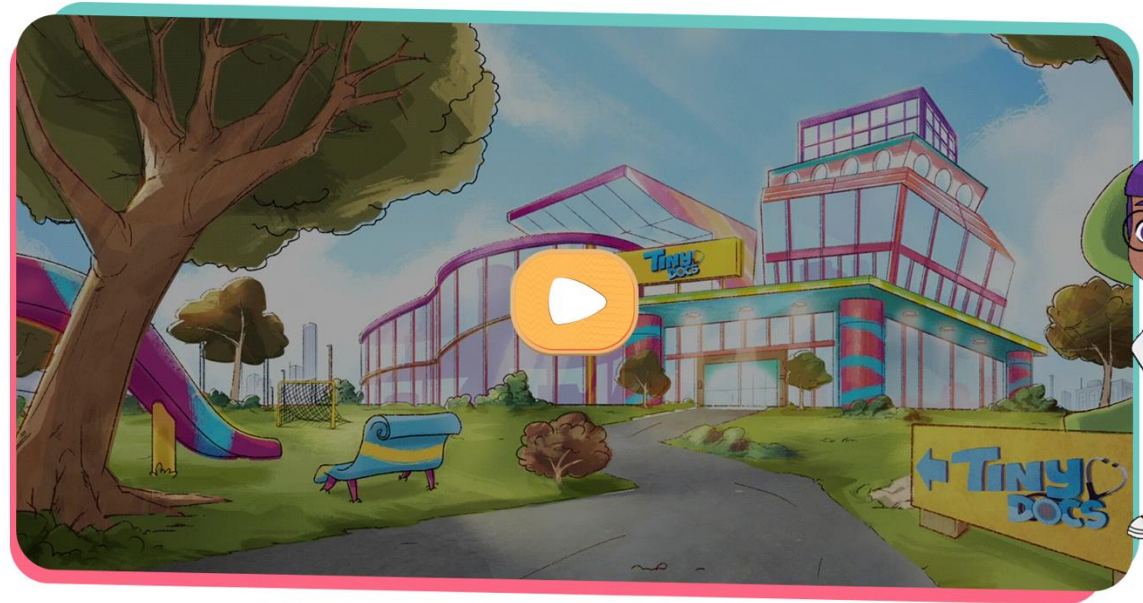

Building Trust Through Design

- ▶ Original illustrations create connection with young users
- ▶ Encourages emotional engagement and platform recall
- ▶ Aligns with the brand's educational tone

Animated Library

Educational Content That Resonates

- ▶ Built narrative-driven pages that guide & educate
- ▶ Simplified medical advice in kid-friendly tone
- ▶ Designed to convert visitors into readers, and readers into believers

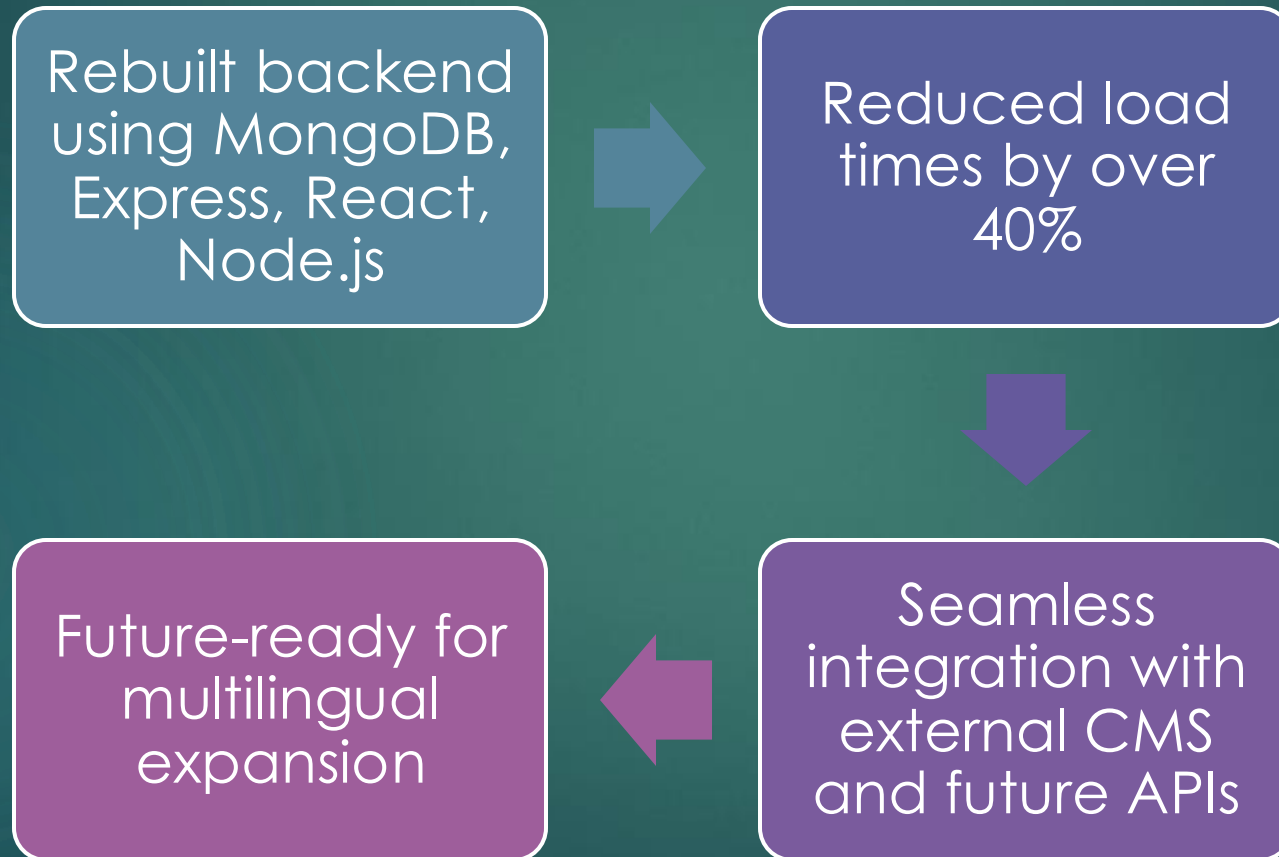

EMPOWERING CHILD HEALTH THROUGH EDUCATION:
THE CRITICAL ROLE OF PEDIATRIC PROVIDERS AND THE
POTENTIAL OF INNOVATIVE SOLUTIONS

Tips to Help Recover from Surgery

Kevin's tonsillectomy got me thinking about how important it is for kids to take care of themselves after surgical procedures. After a tonsillectomy, kids have to drink a lot of water and stay very hydrated, but this can be hard since their throat will still be a little bit sore. Sometimes in order to get better, kids have to do things that aren't fun or that even could hurt, so at Tiny Docs we make sure to explain the 'why' behind everything we do. Kids are smart and curious, so 'why' can be a powerful tool to help them make good decisions about their health.

Speed, Stability & Scalability with MERN

From Vision to Results

- ▶ Increased time on site & form submissions
- ▶ Enhanced mobile UX for on-the-go parents
- ▶ Strengthened brand credibility & engagement

01

Educate Patients With Kid-Friendly Resources

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book.
