

# Lucia Glass Sauna

## Unforgettable sauna experiences

The sauna blends into nature. The luxurious Lucia Glass Sauna, made of mirrored glass, offers an authentic, relaxing sauna experience, and does so with a stunning 360° view of the surrounding landscape.

The innovative mirrored surface material of the Lucia Glass Sauna prevents prying eyes from seeing inside, guaranteeing privacy, while providing the best of views to the outside world. The sauna is delivered fully assembled. Both installation and delivery can be ordered through us.

### MADE TO YOUR SPECIFICATIONS

The standard Lucia Glass Sauna size is 7m<sup>2</sup>. The overall size can be increased by 3m<sup>2</sup> all the way up to 13m<sup>2</sup>. The glass sauna, made of tempered safety glass, rests on an elegant steel frame. The frame color can be selected from three timeless options: gray (RAL7024), black (RAL9005) and white (RAL9010). We also provide an option to select a custom color, based on the available colors in the RAL color chart. The safety glass tint comes in five options, from totally clear to full mirror effect.

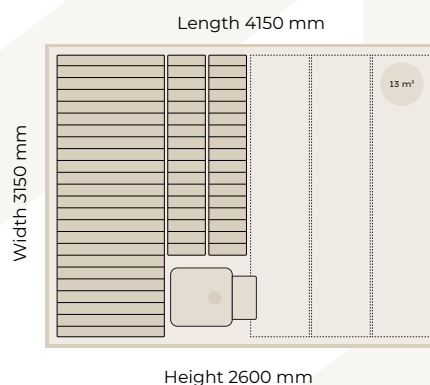

### LASTING QUALITY

The refined craftsmanship of the sauna is visible in every detail. Inside, the benches are made of high-quality tarred alder. For the floors there are two options: long-lasting pressure-treated wood or beautifully aging traditional larch.

The glass sauna comes equipped with the Siro Unique chimney. The bathers are pampered by the gentle heat of the Loimu wood-burning stove. The forward-looking design of the stove allows for the sauna to be heated from the dressing room side, keeping the sauna itself tidy.

### ACCESSORIES

Lucia Glass Sauna can easily be locked using a pressure latch lock and an external padlock. Additional available accessories include full electrical wiring throughout, radiant heaters, insect-proof doors, roller blinds and thermal mats.

Model image: The picture of the benches is indicative.

Installation and delivery can be ordered through us.
