## Digital Document Storage and Issuance Tool

The Digital Wave is Here —

# Safer and More Professional

- Data converted into a globally verifiable format
- Blockchain ensures data immutability
- A comprehensive management system helps you organize and manage data efficiently

All-in-One Digital Storage and  
Issuance Platform

## The Portable Identity Cards

### Privacy Prioritized

GDPR Compliance.

Data Protection and 4-layer Access Control.

### Top Security

ISO 27001 & ISO 27701 certified.

GCP/Azure level protection.

### One-Stop Identity

Store all verifiable documents/credentials in one place. No more lost.

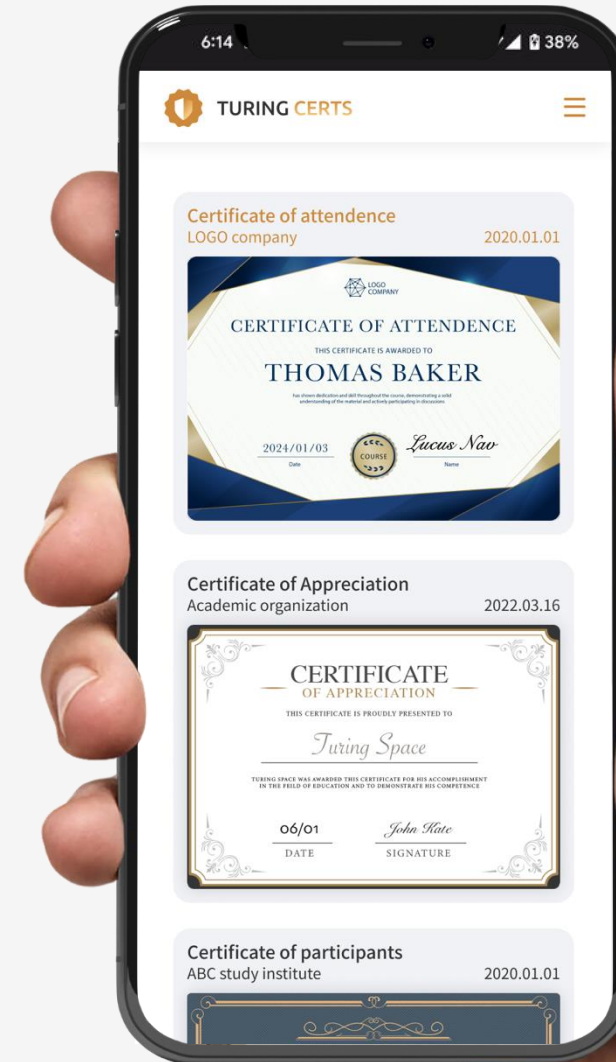

### Easy Share

LinkedIn compatible.

One click sharable.

## What we offer

Tamper-proof and globally accessible certificate one-stop services for **students**.

## Values added

- ✓ Issuing certificates **take less time**, **fewer people**, and **lower costs** on printing and sending.
- ✓ Certificates are revokable, expirable, traceable.
- ✓ **No longer loss** certificates.

## What we offer

Make ESG Insight Reports and GHG Reports immune from being tampered with, easy to be authenticated, and be protected by rigorous privacy configurations.

## Values added

- ✓ Reports **stay safe** from third-party tampering.
- ✓ Companies decide **who can view what** part.
- ✓ **Paperless** ESG reports are truly ESG solving.

## What We Offer?

We assist in digitizing paper health reports and apply blockchain technology to the digital reports for digital stamping, enabling the reports to be traced, verified, and protected against fraud.

## Why Turing Certs?

- ✓ The report content has high credibility and trustworthiness. Traceable to the issuing hospital for verification.
- ✓ Permanently storable for both medical staff and patients.
- ✓ Supports multiple forms of verification, such as by insurance companies and businesses.
- ✓

# Competitive Advantages

## Compatibility

OpenAPIs modules for efficient & wide-range compatibility.

**4x** Faster than collaborating with competitors.

## Sustainability

Public blockchain for data governance & affordability.

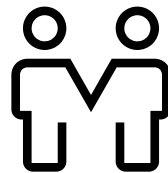

**5x** Less cost comparing with competitors.

## Exclusiveness

Extensive and trustful governmental partnerships.

**10x** More client trusted in Taiwan vs competitors.

## Safety & Privacy

ISO27001 + ISO2770 & GDPR compliance.

**2x** More safety & access controls on products.

# **All-in-one** verifying and proofing platform for corporational activities
