## Water reuse & stormwater management

Products and systems for single-family homes, residential construction, commercial and municipal buildings, new builds and renovation

## Stormwater management

DRAINMAX – Storage and stormwater management solutions

- Water reservoir for rainwater, drinking water and extinguishing water
- Infiltration and retention
- Underfloor irrigation
- Infiltration of wastewater from sewage treatment plants

- ✓ DIBt approval
- ✓ SLW60 loadable
- ✓ Fast installation
- ✓ Best price / m<sup>3</sup>

## Water reuse

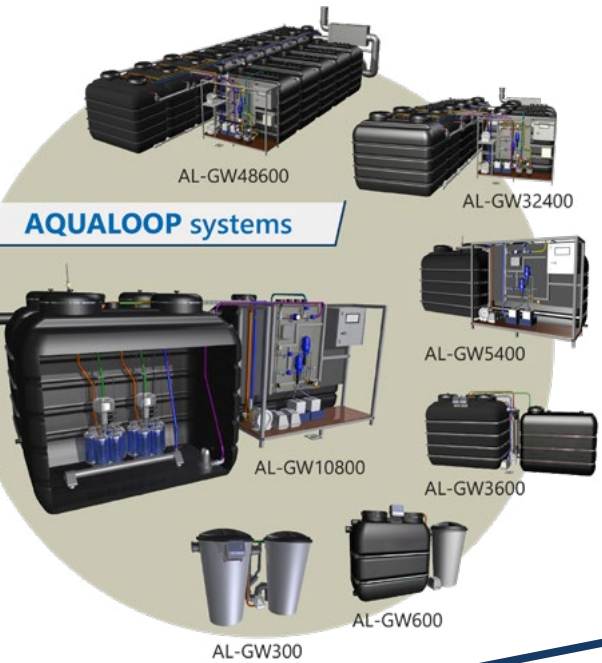

AQUALOOP ready-to-connect systems

- Gray water recycling
- Drinking water from rainwater, groundwater and surface water
- Process and cooling water
- Discharge water from sewage treatment plants

- ✓ NSF 350/ANSI Class C - Gray water
- ✓ Standard packages and special solutions
- ✓ Save up to 100 % water
- ✓ Fast amortization
- ✓ Low space requirement

Certified to NSF/ANSI Standard 350

## I-CONNECT Monitoring

Simple operation for all stormwater management and water reuse systems.

- Worldwide control and operation
- Reading consumption and statistics
- Optimization of system parameters
- Constantly informed about maintenance requirements
- Integration in local BMS
