

GARDA TRENTINO
THE TOP SIDE OF LAKE GARDA
10TH - 12TH APRIL 2026
EDUCATIONAL TOUR BORSA DEI LAGHI

There is a different side of Trentino, where the climate is milder, the mountains feel closer to the Mediterranean, and the outdoor season seems to last almost all year. Here, Lake Garda — Italy's largest lake — stretches between dramatic peaks, creating a landscape that feels both alpine and Mediterranean.

This unique balance shapes the local lifestyle. Outdoor activities are part of everyday life: In a single day you might paddle across the lake by SUP or kayak, climb a via ferrata, cycle scenic paths or hike panoramic trails.

Add historic villages, castles and a cuisine that blends mountain traditions with Mediterranean flavours — from lake fish to carne salada and local olive oil — and you discover the true spirit of Garda Trentino: the Italian Outdoor.
