CLINICAL
TRIALS

MCR Clinic™ integrates with EHR and patient's medical record becomes a source documentation of the study participant

2

Seamless transition into #HybridModel

With reduced number of physical monitoring visits (on-site) and remote access to eSource eliminating 'over the shoulder' access

To become EHR2EDC single point of data capture

- ✓ We automate SDV through integration with EHR
- ✓ We accelerate real-time monitoring online
- ✓ We simplify day-by-day management of clinical trials

Trial Management for Site

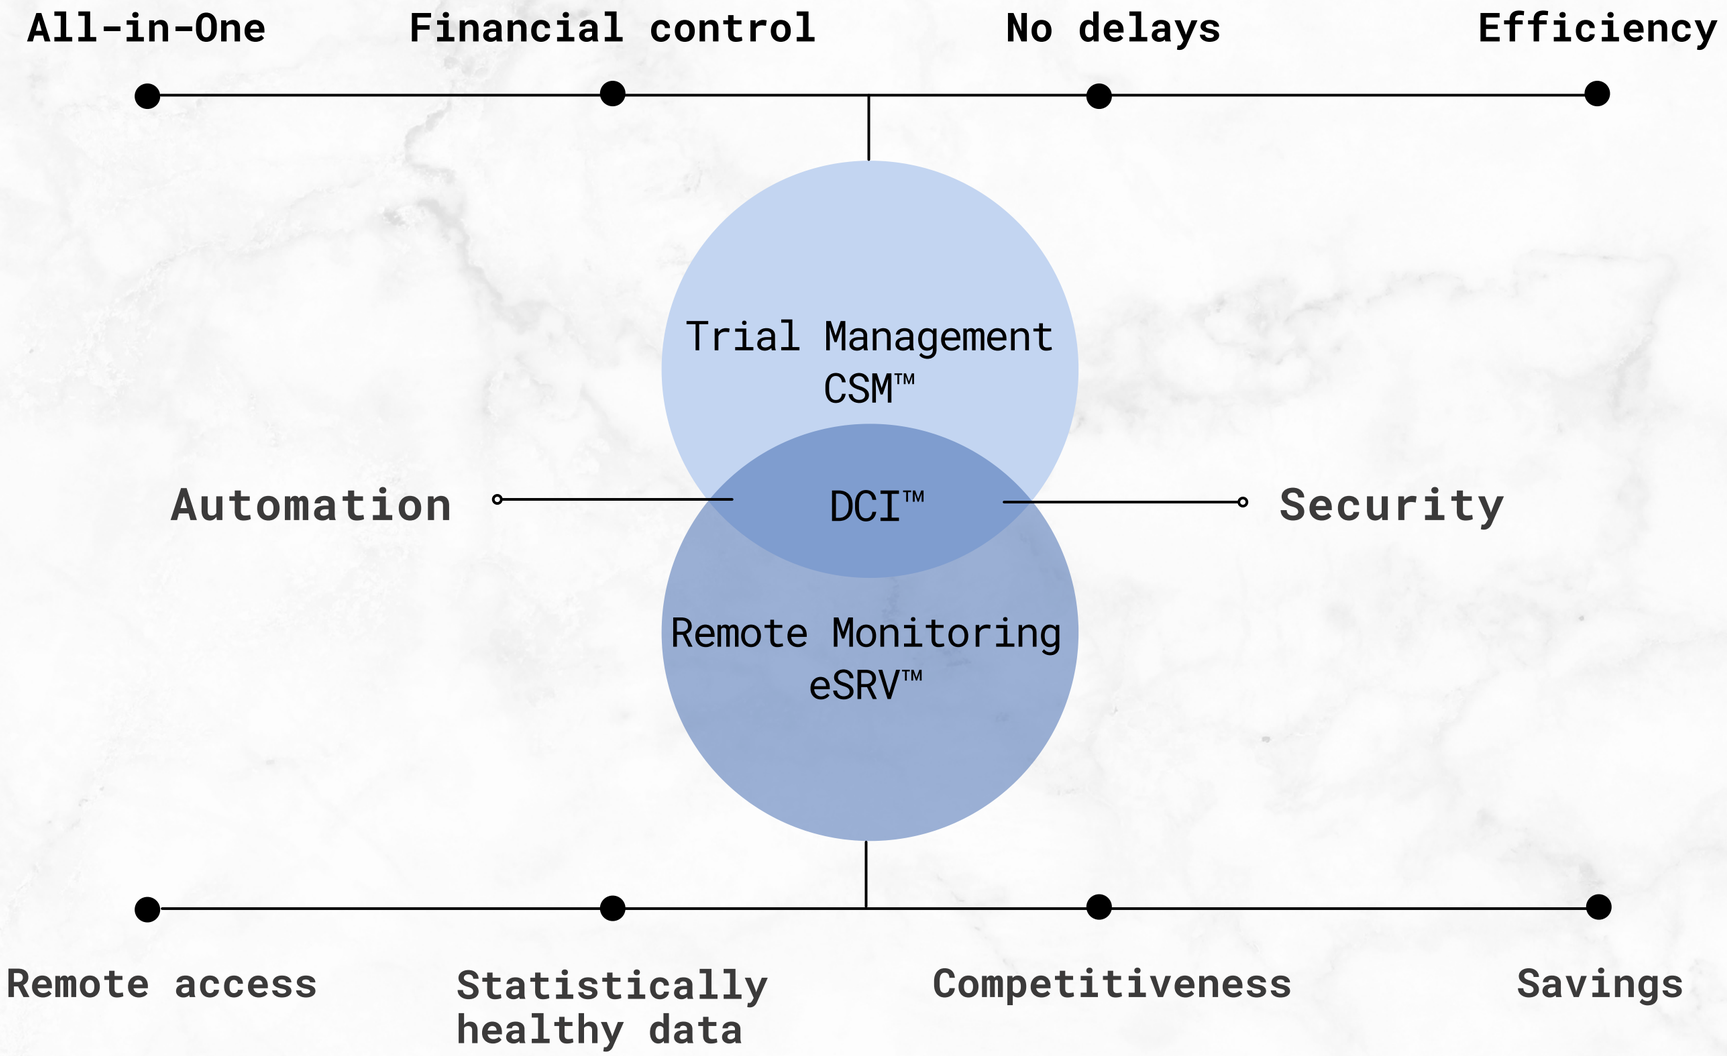
Remote Monitoring for Sponsor

4

- MCR Clinical Site Manager™ CSM™

- MCR eSource Remote Viewer™ eSRV™

- MCR Data Communication Integrator™ DCI™



You save time and money
