

Mastering the Video & AI Pipeline for Mission Success

Our Innovation at the Tactical Edge

Maris-Tech (Nasdaq: MTEK) delivers edge AI video intelligence solutions for mission-critical defense and security operations. Our systems capture, process, analyze, and distribute real-time intelligence directly at the tactical edge, supporting situational awareness, intelligence gathering, drone-based ISR, surveillance, and terrain dominance — anywhere, anytime, under any conditions.

Why Maris

Purpose-built edge AI video solutions for mission-critical defense and security applications.

**Mission-ready
platforms**

**AI-powered
video mastery**

**Edge-first
Intelligence**

**Battle-tested
and operational**

Featured Products

Mission-ready edge AI video platforms for situational awareness, intelligence gathering, drones, surveillance, and terrain dominance.

Diamond

Situational
Awareness for AFVs
