

OPPORTUNITIES FOR EQUITY-CONTRIBUTING CO-FOUNDERS & INVESTORS IN A SPANISH GOVERNMENT-VALIDATED STARTUP BUILDING INTEGRATED SYSTEMS FOR REGIONAL RESILIENCE

Overview:

We are onboarding a final tier of strategic partners for our Spanish government-validated (UGE-CE) industrial pilot. This is a unique entry point offering **4x strategic leverage** on a €1.5M pre-incorporation valuation, backed by €6M in vetted IP. We provide an accelerated **20-day EU residency fast-track** for co-founding partners committed to scaling regenerative industrial infrastructure.

Investment & Co-Founding Framework:

LEADALEAP is moving from a validated IP portfolio to full-scale industrial deployment with our **Andalucia (Granada / Huelva) Pilot in Summer 2026**. Recognized as a **Project of Strategic Interest** by the Spanish Government (**ENISA** and **UGE-CE**) through the Startup Law 14/2013, we offer a de-risked environment for high-impact investment and active co-founding roles.

Partners We Look for Including:

- **Strategic Co-Founders:** We are looking for 1–3 individuals with expertise in **Edge AI, Industrial Engineering, or Global Operations**. This role requires an equity contribution of **€150,000 (10% stake)**, providing immediate leadership over a core module of our 9-part ecosystem.

The "4x Leverage" Advantage:

Due to our official **ENISA** vetting and the **€6,000,000 conservative asset valuation** of our technology (including R2W and AguaCluster), early-stage capital is effectively

leveraged fourfold. Every euro of entry equity is immediately backed by four euros of validated industrial infrastructure upon incorporation.

Partner Benefits:

- **Sovereign Fast-Track:** Immediate eligibility for the **20-day UGE-CE residency pathway** in Spain for the partner and their family.
- **Non-Dilutive Matching:** Our framework triggers a **1:1 ENISA matching loan**, doubling the operational impact of your equity contribution without further dilution, and unlocking EU priority funding in such programs as EU Green Deal, Next Generation Fund, EIC Accelerator, etc.
- **Milestone Valuation:** Participation in a roadmap targeting a **€12.5M valuation** post-pilot validation.

Ideal Partner Profile: We are seeking high-net-worth individuals and impact investors who want to move beyond passive portfolios and into the active building of a sovereign, resilient, circular, and hunger-free Europe.
