YOUR TECHOF IN EUROPE (TECHNICAL AND COMMERCIAL OFFICE)

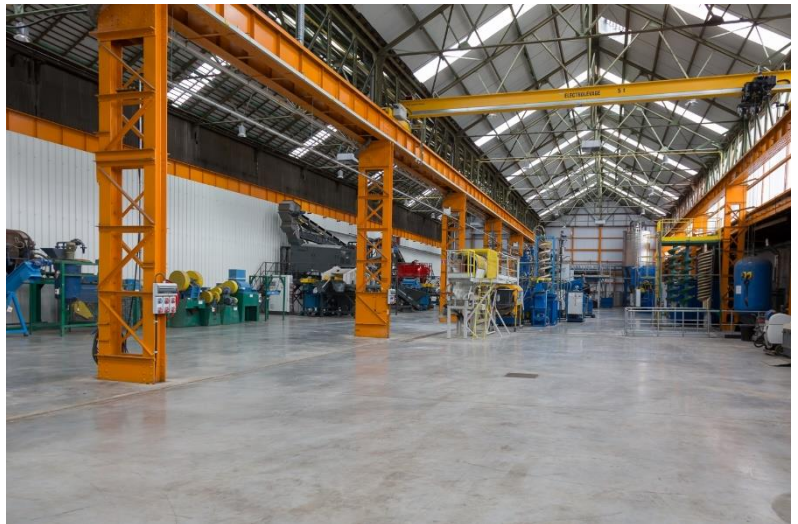

CTP offers a **workspace** and a comprehensive range of services so you can deploy tools to demonstrate your technologies **on an industrial pilot scale** in our facilities.

9 000 m²

of testing facilities

CTP (Tournai - Belgium) is **an exceptional R&D Centre** specialising in the processing, recovery and recycling of primary and secondary solid materials.

A wide range of materials, from minerals to plastics, can be processed, including industrial by-products, sludge and final waste.

Our technologies

- FRAGMENTATION (CRUSHING, GRINDING, CHIPPING, ETC.)
- HYDROMETALLURGICAL PROCESSING
- CLASSIFICATION (SIEVING, HYDROCYCLONING, ETC.)
- GRAVIMETRIC AND DENSIMETRIC, MAGNETIC, ELECTROSTATIC, FLOTATION SEPARATION, ETC.

In addition to its analysis laboratories, CTP has several testing facilities, including:

- PERMANENT FACILITIES FOR GRINDING, DRYING, CALCINATION, SORTING, ETC.
- TEMPORARY PROCESSING LOOPS, PROVIDING AN OPTIMAL COMBINATION OF A RANGE OF TECHNICAL TOOLS FOR PREPARATION AND SORTING, TAILORED TO THE SPECIFIC PROBLEMS ENCOUNTERED WITH CERTAIN MATERIALS.

Supported by a **multidisciplinary scientific team** made up of highly qualified researchers and technicians, CTP offers **an efficient integrated facility** to get right to the heart of a growing European market.

Where are we?

In the heart of Europe, 25 km from Lille (France), 65 km from Brussels and 300 km from Amsterdam (Netherlands).

**Ideal location and
accessibility**

**CTP IS AN IDEAL STRATEGIC BASE FOR FUTURE DEVELOPMENTS IN
EUROPE**
