

# COMPLETE FILLING LINE

**Labellerto** apply label and back label on cylindrical, flat containers or oval. Made of stainless steel, Label positioning control via touch screen. It has a label breakage alarm, end of labels, real-time average production calculation. Adaptable to different container sizes..

**Capper** prepared for the chemical industry and the food sector. Made of stainless steel with protective screen. Thanks to its cap lifter, loading is done quickly and easily, with a robust and versatile design for placing and closing caps. Controlled by a 4.5" colour touch screen, easy to use for adjusting the different parameters.

**Dosing** machine with flowmeters or volumetric.. Valid for different sectors, chemical, food, pharmaceutical etc.. For liquid and dense products, both foaming and non-foaming. Adaptable to different formats with adjustable dosing quantities.. Can be installed from 2 To 12 filling nozzles.
